GROUP TACKLES STUDY OF TOWN CONSOLIDATION

Larchmont Gardens Association See Merger As Only Way To Cut Taxes

COST REDUCTION SOUGHT

Fact-Finding Committee Named To Survey Feasibility Of Proposal

The feasibility of consolidating local government will be studied by a special fact-finding committee of the Larchmont Gardens Association. It was decided at the monthly meeting of the organization in the Larchmont Tennis Club house last night.

Fixed charges of the Town Government indicate that no appreciable cut in taxes is possible under our present government. Mr. William B. Schramke, president of the association, declared in commenting on the action.

Consolidation of the Town Government with the Village of Mamaroneck and the Village of Mamaroneck would result in a considerable reduction of the governing costs of our community, Mr. Schramke said.

With this in view, the association authorized Mr. Schramke to appoint the special fact-finding committee to study the possibility and feasibility of consolidation of the local government.

Mr. Schramke's comments were the result of a survey and report of the budget committee of the Larchmont Gardens Association, headed by Walter F. Brady, showed conclusively that because of the fixed charges of our own Government, no appreciable cut in taxes is possible under our present governmental setup.

At present, the Town of Mamaroneck, with a population of about 20,000 people has three separate and distinct governments with many overlapping departments. An illustration—there are three government heads, a town supervisor and two village managers, receiving in the aggregate about \$2,000,000 in salaries. This is equal to the salary received by the chief executive of Westchester County, having a population of over one-half million people. Consolidation could be difficult to procure a common bond for the town.

The members of the Larchmont Gardens Association, feeling that it is imperative that something be done to lower taxes, wanted to investigate this much discussed question as a possible means to that end, and so directed the appointment of a special fact-finding committee.

The resolution directed further that this special committee, when appointed, enlist the cooperation of all other civic associations and taxpayer leagues in the town. The personnel of this committee will be announced shortly.

FRESH SNOWFALL PERILS DRIVERS

New Sign Makes Motorist Hazardous; Rain Forecast Tomorrow

A light snow which began falling early this morning and which threatened to become heavier during the day troubled motorists today as the new sign of snow on the road of last weekend making drivers did not anticipate the fall today would be even half of that.

The temperature rose slowly during the night and was around 22 at daylight. Throughout the weather with indications it will rise higher this afternoon. Fair weather is predicted for tonight with rain tomorrow, the weather turning colder tomorrow night.

Street cleaning authorities were worried by the amount of snow that rain tomorrow would spread a sheet of ice over the yet unmoved snow and make driving even more dangerous. Police issued warnings that motorists get on their tire chains before venturing west for the late part.

WEATHER OUTLOOK

Light rain or snow Sunday night and snow over north and rain or snow over south portion Wednesday and Thursday otherwise generally fair. Occasional drizzle Friday, warmer average of week and cooler about Thursday night. Temperature will average considerably above normal first half of week and above normal.

For The Scrap-Book Of A Hit-Run Driver

The hit-run driver whose car plowed through a group of coasters on the Jefferson Avenue hill in Mamaroneck Thursday night is probably reading the papers very carefully, trying to discover just what clues the police have as to his identity. This picture is presented partially for his benefit and he probably remembers them a long, long time. Of the four children he left in the snow, one, John K. Cleves, Jr., 8, is dead. Shown in United Hospital at Post Chester Ave., left to right, Genette Giannuzio, 11, and Charles P. Pietero, 8, who suffered lacerations of the scalp and is remaining at the hospital for treatment. LEGACY PUZZLES EX-CHORUS GIRL

Beneficiary Of Ruppert Will Doesn't Know What She'll Do With Wealth

(PHOTO ON PAGE 3)

NEW YORK, Jan. 21 (AP)—A 17-year-old former chorus girl who did what everyone would like to do—woke up and found herself a millionaire—hasn't decided what to do with the vast fortune left her by Col. Jacob Ruppert.

"Some good, I hope," smiled Helen Whitmore Weyant, a trim chestnut-haired woman with a pert face. However, she has no plans for the future—because she hasn't had a chance to catch her breath yet. But she has no thought of matrimony.

Her blue eyes were still bewildered at yesterday's news that she had been bequeathed one third of the \$100,000 to \$200,000 estate of the spruce little 71-year-old bachelor sportsman, whom she described as "a very old friend."

Neither the actress nor her aunt, Mrs. Joseph Weyant, said they will receive—but she is one third owner of the wealthy world champion New York Yankee Baseball Club, and has an equal interest in one of the world's largest breweries and in an accumulation of Manhattan real estate greater than anyone else has paid up except the Astor family.

Heavy state and federal inheritance taxes will chop off more than \$200,000. She also will receive a tax-free bequest of \$200,000.

Members of the Woman's Club of Larchmont and of Mamaroneck are assisting in the drive, as are Boy Scouts of both communities. Fifty per cent of the funds raised will remain in Westchester to combat the disease. The local chairman pointed out that Gracie's Hospital received \$7,000 last year to conduct scientific research on the disease—and was one of the \$14,000 gathered and re-distributed in the nation last year to study the disease.

Democratic Peacemakers Face Tremendous Task

Relief Bill And Appointments Bring Party Bitterness To Surface

WASHINGTON, Jan. 21 (AP)—The 76th Congress concluded its third week today amid multiplying signs that Democratic peacemakers faced a tremendous task in their efforts to achieve party harmony before the 1940 campaign.

The two major subjects of congressional action—the relief appropriation and President Roosevelt's appointments—brought fighting to the surface the bitterness generated by the court bill eight years ago and accentuated last Summer by New Deal efforts to defeat unopposed Democratic senators.

The situation was demonstrated clearly yesterday when Senator Hastings (D-Me) denounced Roosevelt's unopposed efforts to bring about his defeat for renomination by the Senate.

Some of the most dignified and graceful exhibitions in the history of the United States, the Maryland senator said, "There is no doubt that a higher authority would deny it, but they voted for me to do it."

Some other senators had criticized some of Hopkins' actions while in the Senate for the next two years "short of all outrageous records of all irresponsible actions with the greatest majority ever recorded in a Senate in my 24 years."

"That gentleman," he said in bitter tones, "is democracy."

REBELS ADVANCE ON BARCELONA

Catalonian Defense Lines Reported Broken At Two Points

BARCELONA, Jan. 21 (AP)—Smashing insurgent attacks were reported today to have broken in the Spanish Government's Catalonia defense lines at two points.

The double insurgent drive opening paths for a prospective march on Barcelona. The insurgents said they had broken the lines of Iznadaba and Vendrell, both of high strategic importance because they were key points on the fortified "Catalonian Medical Line" defending the capital.

Spain is 26 miles west of Barcelona on the Lerida-Barcelona highway and Vendrell is near the Mediterranean coast 22 miles south of Barcelona.

The double insurgent drive put Barcelona on the eastern point of a triangle, with one army moving slowly toward the capital from the west and another advancing from the southeast.

The insurgent Government, looking forward to the capture of Barcelona, today ordered the Spanish Government to take over the city.

JAPAN'S PREMIER WARNS FOES OF EXTERMINATION

Hiranuma Threatens Death To Those Who Perish In Opposing Tokio

TOKIO, Jan. 21 (AP)—Premier Kunihiro Hiranuma warned today that extermination was the present opponents of Japan.

"As for those who fail to understand the end and therefore persist in the opposition to Japan," he cried in a speech before Parliament, "we have no other alternative than to exterminate them."

To a question whether the reference was to China, Foreign Office official replied merely, "The translation is correct as it stands."

Baron Hiranuma, who formed a cabinet Jan. 8 to guide Japan toward a new order in Asia, gave his maiden speech before the opening Diet session just after Foreign Minister Hiroshi Arima outlined Japanese Pan-Asia ambitions seeking a "New East Asia upon an ethical foundation where Japan, China and Manchoukuo will stand united and linked together for the maintenance of peace."

The premier emphasized the necessity for Pan-Asianism and said measures for strengthening national resources and national morale should be instituted as soon as possible.

"The creation of a strong army and a powerful navy are essential objectives," he said, adding that the war-time coat measured would be placed on a permanent basis.

Foreign Minister Arima formally emphasized Japan's Pan-Asia ambitions in what was considered the most important statement of Japanese foreign policy in her history.

"What Japan desires is the creation of a new order which is to secure the permanent peace of East Asia, that is to say the construction of a new East Asia upon an ethical foundation where Japan, Manchoukuo and China will stand united and linked together for the active collaboration and mutual aid along all lines of political, economic and cultural activities," he said.

HITLER REMOVES CONSERVATIVES

Fuehrer Decrees Every Man Must Keep Fit For Military Service

BERLIN, Jan. 21 (AP)—Reichsfuehrer Hitler continued today his sweeping purge of conservatives from the Reichstag and at the same time moved to increase Germany's armed strength with a decree that every able-bodied man over 17 must keep fit for military service.

The Fuehrer removed from the Reichstag 20 members of the conservative opposition. Friedrich W. Dreyse was succeeded as vice-president by Rudolf Brinkmann, right-hand man of Schacht's vice-presidents.

Economics Minister Walter Funk, both Dreyse, the board's oldest member and Ernst Haeberle, the other director removed, joined Schacht in opposing unrestricted spending and financing by piling up huge short-term bonds.

The Fuehrer's military measure would abolish physical fitness in male Germans by compelling all men between 17 and 45 to take training from 17 up under direction of the brown-shirt storm troop organization.

The decree stipulated that every man over 17 must keep fit for military service.

# Greenwich Noses Out Mamaroneck Five, 43-39

## HOME TOWNERS LOSE IN FINAL PERIOD OF TILT

### Local Quiet Wages Close Battle, But Drop Fourth Game of Season

A fourth quarter spurge gave Greenwich High School's basketball team a 43-39 triumph over Mamaroneck High at the victors' home last night following a close, waged battle.

Greenwich secured revenge for a 40-41 defeat inflicted by the Orange and black forces in the first game of the season. For Mamaroneck it marked the fourth loss in six starts.

It was anybody's game at the Connecticut court right down to the last period, with MHS looking as if it might repeat the performance it staged October 21 by upsetting the local rivals, Bellows Falls.

But the fact that A. Christiano, captain, moved forward, ran wild on 20 points for his club and that Greenwich worked a much one polished attack team at the start of the season, showed the margin of difference.

While Christiano outdistanced "Gus" Games, who earned a starting berth at center because of his outstanding play in the Bellows tilt, and Danny McLean, veteran guard, both stood out for the Home Towners. Each of the eight points while Rocco, Henry Boyd and Bob Burns were close behind.

Coach Ed Rice's forces kept pace with the home club right down to the end, and the four point margin was one reflection of the difference.

Mamaroneck also dropped the second team game, 26-22. The triumph:

## NEW ROCHELLE '5' WINS COURT LOOP LEAD IN W. I. A. A

Uptets ravaged the rank of Westchester County interscholastic basketball leagues last night, as their leaders led the January snow. In all but one league, the circuit leadership changed hands with sudden swiftness as favorites failed to run to form.

Teak's Little Cotton tripped mighty White Plains 16-11, with a last quarter rally, after trailing throughout the entire first period. Teak's Little Cotton White Plains and Duell and Neales of Glendon enlivened the fracas.

New Rochelle, overwhelming the basketball circuit, won first place in the W. I. A. A. circuit, undefeated with a 2-0 record. Westchester Interscholastic Athletic conference, tripping Haverhill 27-23 in number six play.

In the Greenwich circuit, Dobbs River defeated Adams 18-15, to secure the circuit lead by half a game over undefeated Croton. The latter dropped to second place with a last quarter rally, won four consecutive league championships, and finished with a 4-0 record.

North Parsonage, by virtue of a tie-breaker, won the title. Adams' victory over Dobbs River, 27-23, was the only upset of the season. Dobbs River and Croton, because of a tie-breaker, were tied for second place.

### CIVILIANS FLEE BARCELONA AS CAPTURE NEARS

Insurgent Armies Drive To Within 15 Miles Of Spanish Capital  
CABINET OFFICIALS STAY  
U. S. Authorities Summon Cruisers To Rescue American Citizens

RENDVAE, FRANCE, Jan. 23 (AP)—The Spanish Government today ordered evacuation of the civilian population of Barcelona and proclaimed a state of war or martial law throughout Government Spain in a stand defense of the capital.

Insurgent armies drove to within about 15 miles of Barcelona on the coast, and inland columns reported advances.

Barcelona dispatches meanwhile said United States authorities there had decided to evacuate Americans from the Barcelona area. They arranged to summon the Cruiser Omaha from Villafraanca, on the French Riviera, for the evacuation.

The cabinet of Government Premier Juan Negruin declared that the ministers themselves would remain in the capital.

The nearest insurgent army had pushed past Sitges, about 15 miles southwest of Barcelona and was said by insurgents to be some 15 miles from the city. In the central sector, the insurgents were blocking off the Llerda-Barcelona Highway. One column was said to be on the outskirts of Puig, which is about 20 miles from Barcelona.

In the north, insurgents reported they were fighting in the environs of Manresa, about 25 miles north of the city. They were reported to be taking the great country, which became the capital after the government moved there from Madrid and Valencia remain in government hands.

Insurgent planes bombed Barcelona three times this morning following repeated air raids yesterday which killed 40 and wounded 100 persons.

In one of the most insurgent attacks into the capital, the cabinet officials were expected to follow the movement toward the French frontier. The mountainous region from Barcelona north to the Pyrenees offers refuge to General Girona and Figueras.

Along the entire Catalonian front, insurgents reports asserted the government defenders were retreating under a deadly hail of bullets, bombs and shells.

All abolitionist men under 25 and women between 14 and 40 were ordered to leave the city and to join the government forces in the mountains. The government announced that it was starting to build a vast system of fortifications around Barcelona as the insurgents approached.

The insurgents acknowledged that the Catalonian militiamen were getting up a fight for the disputed ground. But the insurgents were making forced the defenders back all along the front line from the Mediterranean in the direction of Manresa, 31 miles inland and, with Manresa, a keypoint in the first line of defense of Barcelona.

The danger of a direct military assault on Barcelona and intensive bombings of the port and the section known as "Old Barcelona" spurred government officials to throw every available man into the lines defending the capital.

Insurgents said they captured Igualada, early yesterday. That town had changed hands twice within three days. Between Igualada and Manresa, insurgents reported they had captured the Llobregat River, cutting a road that was one of the two main highways to the French frontier.

Border observers believe the occupation of Barcelona would mean the collapse of government resistance and an end to the fighting which has cost more than 1,000,000 lives in its two and one-half years.

The insurgent high command reported that the city in the past month the city had been occupied by government troops, captured more than 15,000 square miles of land (about 60,000 square miles).

The Barcelona Government has reported to Washington that it has authorized an exodus of 40,000 refugees from Catalonia if it should become necessary.

### FACES . . . DAMAGE SLIGHT AS GALE WHIPS ACROSS COUNTY

Howling Wind Brings Sub-Freezing Temperatures To This Section  
FEW TRAFFIC CRASHES  
Increasing Winds Forecast With Mercury Due To Hit 12 Above Tonight

A northwest wind blowing at times with gale force last night caused but minor damage in and around Mamaroneck and Larchmont, police departments reported today.

Chaos was broken in doors slammed by wind in at least one apartment house and a Mamaroneck Avenue restaurant. A fence was blown down on property fronting the East Post Road near Mamaroneck Avenue.

A large plate glass window in the front of Teddy's Confectionery Store at 152 Mamaroneck Avenue was also broken.

The wind, howling through trees and small corners, at times reached a velocity of between 30 and 40 miles an hour, bringing with it sub-freezing temperatures.

Commuters and others bound for this morning were in the cold blasts as they waited for trains at the Mamaroneck and Larchmont stations.

The icy wind, coming after a Spring-like thaw yesterday, swept all of Westchester but did small damage.

The return of cold weather last night was considered a boon by local residents, who were looking forward to a continuation of the snow. In the Hudson Valley, however, temperatures were being added yesterday and last night in Mamaroneck Village and Tarrytown, and in Larchmont. Few traffic accidents were reported.

A public school in Yonkers died today for pneumonia, the entire enrollment, from classes today because of the intense cold.

Westchester winds backing tomorrow to southwest and increasing to gale force, with a heavy snowfall, which also forecasted the lowest temperature for tonight at 12 below.

J. W. Redway of the U. S. Weather Bureau said the entire county was under a heavy blanket of snow, which he said was the heaviest in the county since the winter of 1927.

Police reported that the wind was blowing from the north and was accompanied by a heavy snowfall. The wind was blowing from the north and was accompanied by a heavy snowfall.

### THEY MISSED PLANE—AND NOW THEY'RE ALIVE

NO CLUES FOUND IN HILL TRAGEDY  
Hit-Run Driver's Identity Still Unknown; Child Still On Critical List

Police continued today to check clues, admittedly growing more faint, as to the identity of the hit-and-run driver who left one child dying and three others injured after striking their sleds on Jefferson Avenue 14 1/2 hours ago.

Genesio Giannino, 14, of 1111 1/2th Avenue, who died in the hospital, was said to be "unidentified." The child, who was struck by the sled, was reported to be in the hospital in critical condition.

### New Village Hall To House Offices Of Water Works

Johnson's Proposal Accepted; Rental To Reduce Cost To Mamaroneck  
WPA CUP WORRIES N. Y. LEGISLATURE

A proposal made by Mayor William H. Johnson, that the Westchester Joint Water Works District No. 1 remove its administrative offices from its present quarters on Harrison Avenue to the "Village Hall" to be developed on the old St. Michael's Home property, has been accepted by the board, it was announced today.

The water board met Saturday morning and agreed on Mayor Johnson's proposal. Mayor Johnson is chairman of the board; the other members being Supervisor Ben C. McCall of Mamaroneck and Supervisor Benjamin I. Taylor of Harrison.

The rental to be paid by the joint water works will be between \$200 and \$300 annually. The water will be used in reducing the overall cost to the Village of Mamaroneck of developing the "Village Hall" property.

Further discussions in relation to the purchase and renovation of the property, located at Mount Pleasant and Prospect Avenues, will be held at the meeting of the Mamaroneck Village Board of Trustees tonight.

The board is scheduled to act on the submission of a bond issue for \$500,000, which was submitted to a preliminary referendum. The \$500,000 bond issue is for the purpose of financing the purchase of the property. The money to be raised by the issue will be used to purchase the property, \$45,000, and to mortgage it to the State.

### LEONARD ADDRESSES CHURCH FELLOWSHIP

### FRIGID WEATHER BRINGS SKATING

Many Enjoy Sport At Larchmont Gardens And Other County Lakes

Skating is being permitted on Larchmont Gardens Lake, Weaver Street police announced this morning.

Skaters were allowed on the ice Thursday, Friday and Saturday and on Saturday night one of the largest crowds in recent years visited the lake, police said.

Warner weather Sunday led the park commission and police to ban skaters because of the weakened ice.

Last night's cold and the prospect that it will continue today led to the putting up of the "red ball" again today.

The red ball was also up today, and skaters were allowed to skate on the ice.

Former Larchmont Man Claims Shot Was Accidental

NEW YORK, Jan. 25 (AP)—The District Attorney's office disclosed today that a subpoena had been issued for blinde Hope Highton, the actress-wife of Julius Brulaur, who was wounded by a pistol bullet in their apartment Sunday night.

Mrs. Highton was expected to appear at the office later in the day for questioning. Brulaur, a 38-year-old millionaire, said he had been accidentally shot while in a motor accident Saturday night and three children, Yvonne, Marie and Claude Jules Brulaur. Mr. Brulaur is remembered as the owner of the older residents of Larchmont. Police searched for the gun which Highton, a pioneer movie film magazine said, he accidentally shot himself in his Park Avenue home Sunday night.

Police searched for the gun which Highton, a pioneer movie film magazine said, he accidentally shot himself in his Park Avenue home Sunday night. It was cleaned my gun and it went off accidentally. I was sitting on a sofa and I was reading a newspaper. It grazed my ear, so I came down here to have a doctor look at it. Now, you just don't get excited. The bullet, after striking three hours might be lodged in the back of his neck. It was Monday morning.

AUTO SKIDS, KILLS GIRL ON PARKWAY

Victim's Mother Seriously Hurt in Yorkers Accident; Driver Held

YONKERS, Jan. 25.—A skidding automobile caused the death of a 10-year-old girl and the death of her mother in an auto accident on the New Mil River Parkway here last night, and seriously injured the driver. The fatality is the eighth in Westchester this year. Either Seidenfeld of 19 Lexington Avenue, Yonkers, died of a fractured skull and internal injuries in Yonkers General Hospital at 11:40 P. M. yesterday, after being struck by a machine operated by William Reilly, 30-year-old, 335 Bedford Street, Yonkers. Mrs. Lena Seidenfeld, 49, mother of the victim, is in Yonkers General Hospital at 11:40 P. M. yesterday, after suffering internal injuries. A fractured right leg, cuts and bruises of the body.

According to police, Samuel Seidenfeld and his wife were driving on the parkway, when their machine skidded into a snow bank near Tuckahoe Road. The two women got out of the car, while Mr. Seidenfeld attempted to back the car from the snow-bank. They were standing at the side of the parkway when the Reilly car struck them.

Medical Examiner Amos O. Beuter ordered Reilly held on a charge of automobile homicide pending an inquest.

10-1 ODDS LIKELY TO FAVOR LOUIS (NEW YORK, Jan. 25 (AP))—An usual, the odds in favor of Joe Louis resting his heavyweight championship grow steadily longer as the hour grows for the big fight to meet John Henry Lewis in 15 rounds here tonight. A few days ago it looked like the widespread admiration for the challenger boxing skill had "latched on" as often does to a respectable 10 to 1 fight time, but nothing came of it. The betting commissions, anxious to get some action, have boosted odds to 10-1. There is a reason to believe they will be even more liberal by tonight. The fact is that few are anxious to wager against Joe Louis at any odds, hence the men who make their living by seeing the right on sports events are forced to offer customers inducements in order to do any business when the market appears. It will pain them to see that Lewis money by the time the ropes are met.

PREVIEWERS AND REVIEWS

RO PROCESSIONS That old, familiar, fun, taking a bad beating from Hollywood these days. Apparently not to prove that there is something new under the sun, the studio are cutting credit from precedent and raising Capra to a good 500. Finney at the bottom was nice for the match at 8:55.

Playing Thursday to Monday, at RKO Procection Theatre, for instance, in a Warner Bros. picture entitled "Going Places," which embraces a lot of hard-boiled crime and some music according to formula, a horse picture should either be a weaver of a race track melodrama. And a music picture should have a chorus line.

The following musical treat of the new movie season comes to Loews Theatre for one week starting tomorrow with the first appearance of Jeanette MacDonald and Nelson Eddy. "The Great Waltz," filmation of the "Swan Lake" story, which opens and closes the first appearance of the popular singing team in a Technicolor production.

TIME TO GET BUSY Councilman Owen A. Mandeville showed good foresight in reminding the Town Board that it better get busy and consider the future disposition of garbage.

The subject was due to the fact that the Town is now disposing of its garbage in a lot in Weaver Street. The Councilman stated that this area would be filled within three months and then the Town would have a serious problem on its hands trying to arrange for further disposition of garbage. He, therefore, urged all possible speed in proceeding with the building of the garbage incinerator.

There is no question in our mind but that the incinerator plant should be built and must be built. We think the Town has gone too far to retrace its steps and certainly it cannot stand still. Inasmuch as the only alternative is to go ahead we strongly advise the policy which has been recommended by Councilman Mandeville of going ahead with the building of the garbage incinerator at once.

DRUG AND FOOD PROBLEM

Mamaroneck schools are bound to derive much benefit from the recent gathering here of educators identified with the Southern zone of the New York State Health and Physical Education Association. To provide the environment for a meeting of 150 prominent educators was not alone an honor for the local schools but a privilege for this community. Perhaps nothing fostered on the interesting program provided more food for discussion than did the talk of Dr. Charles Solomon, professor at Brooklyn College of Long Island University, who had for his subject, "Health Progress, How to Recognize It and What To Do About It."

Dr. Solomon attacked popular proprietary drugs and foods, which he declared are fraudulently advertised, making claims which they cannot fulfill. He expressed little hope of seeing such drugs and foods legislated out of existence and maintains that the only way to eradicate them is to educate the public. He believes such education should begin in the classroom and said educators should not be afraid to use trade names. This newspaper is entirely in sympathy with Dr. Solomon's advocacy of this form of education and, yet, it seems to us that some of his views open the door for controversy. Unfortunately the layman is not qualified to analyze such drugs and foods and determine just how good or bad they may be. He is in a position where he must take the valuation put upon them by the manufacturers at their face value or discard them entirely. The layman certainly cannot take upon himself to brand as worthless a product which may have more friends than enemies.

To tell the truth, passing this responsibility on to the class room seems to us rather more than anything else the passing of the buck from the place where responsibility should be assumed. If it is true that such drugs and foods are fraudulently advertised, why are the manufacturers not prosecuted under the law against fraudulent advertising, which is a rather ample law? And why does not the medical profession, which is in a position to determine the quality of such drugs and foods, lead the crusade to drive them out of existence? Our comments are not for the purpose of arousing controversy but to our mind the promoting of popular education along this line from the class-room is the slow, laborious way to attain the result desired. It would seem to us that the powerful, influential and highly qualified medical profession is the agency which should attack this evil persistently and without fear. If it did, the death knell of fraudulently advertised drugs and foods would be sounded in short order.

OUT IN THE OPEN Certainly if there are any objections to the construction by the state of a new parkway from Yonkers to Hawthorne between the old Bronx River Parkway and the new Saw Mill River Parkway, there should be ample opportunity for property-owners and other residents to voice such opposition. This proposed Sprain Brook Parkway would in all likelihood be a high-speed traffic artery of some value to Westchester residents and of extreme service to through motorists. Further it would undoubtedly open up to development a section of the county, particularly in Greenwich, which is now little populated because of lack of such direct traffic routes as is proposed.

Nevertheless, if there be some who believe the new parkway would be a detriment to their properties they have a right to speak. And that is why the supervisors have ordered a public hearing for the evening of Friday, Feb. 3, at which all interested parties may be heard. Let those who have objection to voice be present, or forever after hold their peace!

The first two children were working and able to take care of themselves and my mother was given a mother's allowance for her other four children. This lasted until the fourth child reached sixteen when my mother was told that on her allowance would be put out and she should be able to get along on what her first four children were making. Up to a few months ago she was doing all right but in the last few months she has become so out of work and the mother's allowance has been cut off that she is now unable to work. My mother is left with these two children and with no income whatever. My mother is too old to go to work. Is there any way the city can establish her claim for her allowance? WASHINGTON

Dark predictions of wide, die-out and demonstrations in leading American cities will prevent the Senate from passing the W. P. A. appropriation behind the House figures of \$725,000,000. Off-the-record testimony made a deep impression on senators.

Sparking for the United States Conference of Mayors, Mayor LaGuardia warned that he would not be responsible for the 60,000 from the Federal rolls in his city. Though good Americans, they could not be expected to stand by idly, he said, when they see their wives and children go hungry and shelterless in the midst of Winter. Other municipalities set the same lugubrious message. The fact that Washington was then accused in an ice and snow-appeal Roosevelt luck—gave force to LaGuardia's frequent references to the Congressional calumnies of "casting these poor people into the snow."

The pressure for a generous W. P. A. grant has been well coordinated. Organized labor, the public, the press, the clergy, the W. P. A. hierarchy and lately—all turned loose a barrage of pleas and suggestions on their favorite memoranda. The performance, however, was every experienced observer that W. P. A. like the poor, is to be with us always.

Backbone of senatorial blocs, however, was parliamentary as well as political. Any radical revision of the House deficiency bill would have forced the Senate to stand up and be counted. It would have put them on "the spot" and stepped through a quill parliamentary device.

House leaders so brought the bill before the chamber that no roll call could be demanded by administration leaders. The House figures of \$725,000,000, a conference of House and Senate representatives must have followed. That conference would have had to go to the House to get the bill through. It would have had to go to the House to get the bill through. It would have had to go to the House to get the bill through.

Behind The Headlines

NEW YORK

The veteran retired financier, Bernard Baruch, rarely puts the headlines nowadays, but he is still a potent force behind the scenes. Baruch's public opinion may say that "Baruch" played an outstanding backstage role in persuading business that Henry Hopkin would make a good Secretary of Commerce. Here's the inside story.

Several months ago Senator James P. Byrnes (D. Cal.) made the front pages with a speech that vigorously attacked the administration's spending policies. The keynote of his talk was a critique to the effect that the administration's spending policy was apparently more liberal than that of the previous administration.

The President was quite up-to-date about that speech—and the publicity he obtained—and evidently felt that Mr. Baruch was a man to be reckoned with. There was logic in that, because Baruch and Byrnes have been together for many years and Byrnes' comments reflected Baruch's views. Moreover, who knew Baruch better than Byrnes? The President, he has contributed frequently to the campaign funds of conservative senators.

In any case, the story that next time Baruch visits the White House, Mr. Roosevelt—half in jest and half in earnest—will ask him for his opinion on the "Baruch" report is an effect. "But I forgot you, in effect, for job for me. Go out and sell Harry Hopkins' business for me. This was just beginning to be mentioned for the Commerce post. Baruch went to town on this assignment, as saw his friends in the industry. He talked to influential newspaper publishers, editors, and other prominent business men. Angrily he spread the good news of his business to a well-known circle.

He used two main arguments on Hopkins' behalf. First, that it would be advantageous to business to have a prominent business man whom F. D. R. really likes and trusts, because such a man could do a better job of public relations to the President's men before they were appointed. The other was that Hopkins was politically ambitious and would therefore be likely to give up the post of business interest in order to take the job of Secretary of Commerce.

The terrific increase in litigation resulting from the new laws was a factor in the decision of the Department of Justice, especially in the number of part-time assistance known as "special attorneys." Whereas there were only six in Hoover's day, the latest report reveals the employment of 121 in a six-month period.

The inherent unpopularity of the new laws, especially in the case of the D. of J., is a factor in the decision of the Department of Justice. The inherent unpopularity of the new laws, especially in the case of the D. of J., is a factor in the decision of the Department of Justice.

JOBHANS IN AN OPEN RUMOR FIGHT

Corriann Also Wants Wishes Of Village Committee RUMORS AFLOAT Reports that Edward J. Kuhn, Mamaroneck Village Republican chairman, may be a candidate for village trustee with Mayor William H. Johnson favoring for reelection, were terms used by both men today "a matter for the party alone to decide."

Mr. Kuhn and Mayor Johnson each said that they would "follow the wishes of the Republican committee." "The only reason I might have felt wishing to continue as mayor," Mayor Johnson said, "is because there is a lot of work yet to be done."

He mentioned the purchase incident, the decline of the Villa Maria, the creation of a "village hall" on the site of Michael's Home property, Mamaroneck's participation in the World Fair—local community endeavors started during his administration.

"Whether or not I will be a candidate, however, depends entirely on the wishes of the party," Mayor Johnson said.

Several persons have spoken to me about running for trustee," Mr. Kuhn said. "The party wishes me to run, all right, if they don't want me, that's all right, too. I have no particular desire in the matter."

Reports that Mr. Kuhn and Mayor Johnson were being considered by the Republican village committee as a combination for the Spring election, to be held March 23, were prevalent today.

DEATH TOLL MAY GO ABOVE 12,000 IN CHILE QUAKE

Disaster Spreads Terror And Ruin Throughout Central Section THEATER FALL KILLS 300

SANTIAGO, Chile, Jan. 26 (AP)—First government reports today gave more than 4,000 dead and the total may go above 12,000 in the earthquake that spread ruin and terror throughout Central Chile Tuesday night.

The government communiqué was the first official tabulation of the death and damage which was far from complete. Estimates of 12,000 dead came from aviators who flew over the region, barely 250 miles south of Santiago in the heart of the agricultural belt, from refugees who came out by air and from annual trade reports.

The communiqué confirmed that the ancient City of Chillán, ancestral to the Chilean nation, was destroyed. More than 300 killed in a matter of hours. The population of Chillán is 40,000.

"Thirty per cent of Concepcion—known as the jewel of the peruvian plaza because of its beautiful architecture—has been destroyed. The communiqué gave no estimate of dead among the population of 72,000 but aviators and a manufacturer who flew out reported that 2,000 were killed. Taken, with a population of 60,000 and known as one of the proudest cities of South America, suffered heavy damage but only five dead were listed there. The story is told that austere merchants who bought goods in Europe many years ago packed that the identification tags read: Paris and London."

From more than a score of towns came reports of dead of homes and jails that collapsed, of fire, of lack of water and light, and of food shortages.

The quake was felt through a 40-mile strip from Valparaiso, north of Santiago, south along the coast. The Cordillera Docc-Baldivian region, 250 miles north, was the most violent affected.

High Winds Carry Unidentified Man Off Old Croton Aqueduct

Zero and near-zero temperatures were reported in Westchester county this morning after the high winds of yesterday afternoon and evening brought in a cold wave and frost. The temperature fell to 34 degrees on the side of the old Urcon Aqueduct to fall to zero to the north.

Yonkers police reported that the high wind, sweeping through the town and blowing down the side of the old Urcon Aqueduct to fall to zero to the north.

The aqueduct forms an arch over Neppohian Avenue and the Saw River. The aqueduct was not damaged and is used as a shortcut by pedestrians. It surfaces at the intersection of Neppohian Avenue and the Saw River. The aqueduct was not damaged and is used as a shortcut by pedestrians.

Slowly rising temperatures were to bring relief to moderate snow tonight, the Weather Bureau forecast said. The snow will be mostly rain or sleet in the afternoon. The snow will be mostly rain or sleet in the afternoon.

The Tarrytown-Nyack ferry was closed down today as a result of the extreme cold. Heavy ice and low water levels, nearly prevented the operation of service by the ferry. It probably will be several days before service can be resumed.

VILLAGE COURT REVENUE SOARS \$3,000 IN 1938

200 More Criminal And Civil Cases Heard During Year Than In 1937

Revenue of the Mamaroneck village police court totaled \$1,481.15 in 1938, or approximately \$3,000 more than revenue of the previous year, it was revealed today in a figure released by Court Clerk Edward Juller.

Revenue from fines collected in criminal and civil cases, and from court costs paid by litigants in civil cases, totaled \$1,046.10 in 1937 compared with the \$1,342.50 collected last year.

Nearly 200 more criminal and civil cases were heard by Judge Patrick J. Hughes in 1938 than in 1937, the figures revealed. In 1938, the court handled 1,996 criminal and civil cases, and in 1937, 1,779 cases.

Judge Hughes heard nearly twice as many civil actions in 1938, having heard 104 during the year just past as against 43 during the previous year.

BLUE RIBBON JURY FOR SECOND HINES TRIAL

or crisp and telling English, and knowing every remedy it would seem, if modern fashions in thought.

Of "The Masterful Monk," it may be truly said that never has an author selected a happier medium than a novel which quivers with vitality from cover to cover and impresses with its earnestness, while yet it captivates with its romance.

Apart from his work as priest and novelist, Father Dudley is actively connected with quite a large number of important societies such as the Catholic Council for Interracial Unity and the London Public Morality Council.

The other two lecturers will speak in February and March. Rev. Gabriel de Benayesse will tell of "Crisis Transition in Central Europe" on February 27th and Rev. Joseph de Brabant will discuss "The New Friendship Movement" on March 22nd.

Mr. Ralph Lane is chairman in charge of the lectures which are open to the public. There will be a special rate for students. Those in this vicinity who wish to attend may purchase tickets from the Rev. O. F. Dudley, 107 West 42nd Street, New York City.

VILLAGE COURT REVENUE SOARS \$3,000 IN 1938

(Continued From Page One) and, in five cases in which driver's licenses were suspended.

Of the latter cases, one defendant was given 120 days in jail for driving his automobile after revocation of his license.

There were fewer cases of disorderly conduct, there having been 10 as against 21 the previous year; fewer cases of third degree assault, 53 against 56 in 1937; fewer cases of public intoxication, 10 against 66 in 1937.

There were also fewer lawsuits and judgments before the court, 21 having been brought in 1938 as against 26 in 1937. Debt lawsuits, however, climbed from 26 cases in 1937 to 29 in 1938.

There were 18 felony cases, as against 14 in 1937. The felonies for 1938 included four cases of robbery assault, three burglaries, three forgeries, one homicide and seven charges of grand larceny.

From the amount of \$18,881.15 collected by the court, \$2,186 goes to the Mamaroneck village police patrol; \$2,350 to the Village general fund; \$1,077 to the comptroller of the State of New York; \$120 to the State Department of Conservation; 25 to the State Industrial Commissioner; and \$111.15 to the county treasurer of Westchester.

During the year just ended the court handled 29 cases in which owners of dogs were cited for failing to obtain licenses for their pets. They contributed a total of \$111.15 in court costs in addition to paying the fee required for licenses.

Attention was called particularly to this by Court Clerk Juler, who said that the date for the obtaining of licenses for dogs for 1939 has expired and that a list of delinquents is being prepared now. Those who have failed to obtain such licenses will be listed into court on charges of being delinquent.

This is the blue ribbon jury which—if history doesn't repeat itself—will decide whether Tammany District Leader Jimmy Hines is innocent or guilty of charges connected with the police racket.

MANY PARENTS TO HEAR TALK BY PSYCHOLOGIST

Keen Interest Shown In Forthcoming Lecture At Rye Neck Forum

Mrs. Sam Marsh, chairman of the Rye Neck Civic Interest Group, reports a gratifying interest by local parents in the forthcoming lecture, "What Every Parent Should Know" to be given at the Duane-Waters School, tomorrow at 8:30 P. M. by Mrs. Miriam Pitt Scott.

Mrs. Scott is a distinguished child psychologist and a pioneer in the field of family relationships. She organized and directed the Children's Garden, one of the first laboratory clinics for nervous and emotional children. She was also the first director of Speyer School, Teachers College, Columbia University.

She has delivered lectures at most of the prominent colleges, universities and clubs in this country and abroad. Acting as consultant to several of our largest industrial and educational institutions, she is generally regarded by physicians and psychologists as a woman with an exceptional grasp of life and one with the ability to reduce these facts to simple terms.

Mrs. Scott is the author of the books "How To Know Your Child" and "Meeting Your Child's Problems." Her work has been commended by such prominent educators as Dr. John Dewey of Columbia; Dean James Earl Russell of Teachers College; President Henry Noble MacCracker of Vassar College; Francis Perkins, Secretary of Labor; and Secretary Carmine Visser, of the National Labor Relations Board.

It is the intuitive desire of all normal parents to make the most of their children, to train them rightly, to develop their potentialities for good, and to check and control their subversive potentialities, according to Mrs. Scott. The foundation for this training should be laid in the home, and it is the parent's treatment of the commonplace details that does the most to build the structure of human experience.

Parental handling by parents who do not understand the technique of expressing parental control is often what creates the so-called "problem child"—one believes.

The open forum, presented each month by the Rye Neck Civic Interest Group will benefit from the proceeds of Mrs. Scott's lecture. Funds received will be used for meeting the monthly expenses of the open forum, which is held for the public at no charge.

D.A.R. TO HEAR OF WORK AT ELLIS ISLAND

National And State Chairmen Of Committees To Discuss Welfare

The Larchmont Chapter of the Daughters of the American Revolution will hold a meeting tomorrow afternoon at the home of Mrs. W. H. Jefferson, 22 1/2-11th Lane, Larchmont.

A business meeting will take place at 2 P. M. followed by a regular meeting at 3 P. M.

Mrs. Charles Hayward, chairman of the Ellis Island committee of the Chapter, will introduce the speakers, Mrs. Smith H. Stebbins, chairman of the National Society of the Ellis Island Committee, and Mrs. C. Robert Duncan, state chairman.

The topic of the speakers' discussion will be "The work of the Society at Ellis Island in the United States Marine Hospital and immigration department."

The members of the chapter will prepare a collection of materials and threads, in accordance with their plans to make up a box each year to send to the hospital.

Tea will be served at the close of the meeting. Mrs. David Embury and Mrs. Clarence Fische will be in charge.

Preceding the meeting Mrs. Leon C. Stowell, recent, will entertain the speakers and Mrs. Hayward at lunch at her home, 23 Honnie Blair Lane, Town.

Rod and Gun

BY FRED KISTINGER
Novice Fly-Casters
Get Some Suggestions

Several readers have requested that I list the regulations for fly-rod equipment, bass fly and plug tackle that a novice should buy if he wants to take up this pleasurable sport.

There are many methods that enter into the equipment, any one of which might prove best for a beginner. One viewpoint holds that the rod for fly-casting should weigh between four to four-and-one-half ounces. Do not get one that is too heavy but rather one with a little stiffer action.

By all means do not try to loosen the purchase price of your line by buying an expensive rod. Get a tapered line and not a level one. Tapered lines cost about three times more than straight ones, but they are an absolute requirement for a true learning to cast properly.

A good reel is essential but one does not have to own the highest priced affair. The reel and line are used together for balance in the handling of your rod but, of course, you don't want to have a reel that is taking up slack when the fish gives you the chance to reel your stripping line into place.

As to flies, that depends upon where you are fishing. Flies are a matter of the individual's preference and I never try to dictate on that.

If you intend angling with a wet fly use a nine foot leader and if a dry fly is the choice provide your self with a 12-foot leader. Buy with a little stiffer action than even though they are slightly more expensive.

The next thing for the novice is to learn how to handle his rod and cast his fly where he wants it. Not as simple as it sounds, but practice will make perfect.

Dwelling on fly rods for casting, I believe that you will find a heavier rod is fairly essential. Perhaps a five or five-and-one-half number will advance the fisher to better advantage, for fly lines events arise where a heavy bass bug is used as a starter rod will serve as a tendency to take the lure from the water on the back cast with less difficulty, and also get less strain on the rod.

The matter of a line here is not so intricate. A line here and medium ground reel will suffice. Shorter leaders are heavier than those used for trout, will do.

Shall cast in another field and shall come day we will take for subject up to you.

For you veteran anglers, don't forget that this is the time to look over your tackle for next April; the season is just around the corner.

Fly fishing should be coming in plenty with this cold snap. Let's hear if any of you catch some pickers or perch through the frozen surface.

Dodgers Put Quintet In Field Tomorrow
The Dodger A. C. will put a baseball team in the field tomorrow night at the clubhouse of the New Rochelle Boys' Club, it was announced today by Charles Lamme, team manager.

Whether the team will be a permanent one, depends upon the preliminary response, according to Lamme. Most of the present St. Vito senior quintet will comprise the team tomorrow night. Edith G. O'Neil, Frank Solazzo, Jim O'Neil, Joe Barone, Mickey Butler, Vin Crowley are listed. The game will start at 9 P. M.

MAMARONECK '6' FACES BRUNSWICK

Home Town Seeks Second Victory Tomorrow in League Play

With a win and a loss behind them in the Connecticut Interscholastic Hockey League play, Mamaroneck High's leaders take to the ice at 12:30 P. M. tomorrow against Brunswick Prep at the Imperial Arena in White Plains.

Coach Ed Ainsley's skaters led their only battle to the surprise of the first big indoor meet—the Millrose A. A. games at Madison Square Garden, Feb. 4. And it may be those eyes will see some fancy stepping both in track and field, by Westchesterers sporting the colors of Columbia University.

The skaters will have the practice on open ice during the present cold snap. Mamaroneck's hockey team has been practicing at the Larchmont Gardens Lake's frozen surface.

The skaters will have a long layoff from official matches, the league play having been on Jan. 12. On Monday next, however, they play again in the new Westchester County High School Hockey League at Playland. At that time they will be meeting New Rochelle once more. The New Rochelle club at Playland rink will immediately follow one slated between F. E. Bellows and Roosevelt starting at 8 P. M.

Lake Carmel Hike Planned By Group
The Westchester Trivia Association arranged for a hike on the Mt. Carmel trail on Sunday. The weather continuing cold, there will be ice skating on the lake for those who prefer this form of exercise. The members of the Association will meet at the County Center, White Plains, at 9:30 A. M. They advised to provide themselves with warm shoes and warm clothing.

The demands of the eight mile tramp, if the weather does not permit lunch, in a Lake-side cafe.

Camp Westcott, situated at Lake Powell, West Montauk, was open on Sunday for members of the club to enjoy outdoor sports and skating here. The hostess for Camp Westcott will be Mrs. Gertrude Kammlit, 9 Greenacre Avenue, White Plains.

Two forfeit games rocked the Town Recreation County Basketball League yesterday at Mamaroneck Senior High, the second night of play during this new fall.

In Senior Division the Morticians failed to muster a quintet and thereby lost to St. Vito's. The latter team had cancelled a CVO game to put in appearance in the town league last night. The Arcadians won a forfeit over the Gaels in the Intermediate Division, marking the second loss this week for the latter club.

But neither the Arcadians took on the Rockland A. C. in an exhibition play, with the Rocklands winning by 17-11.

The only league clash of the three leagues was in Junior Division when the Junior Morticians annexed a 16-15 victory over the Terriers in a fast-stopping overtime.

Senior put the game on ice for the Morticians with a field goal in the overtime. He and Carpio pulled the first half championship. Mannix and O'Connor led the Terriers to a 10-0 lead in the extra time when O'Connor made good a foul shot.

Rockland A. C. earned a hard fought victory over the Arcadians with Poriano and Joe Sponny arriving the game. Peccore and Stanbush, the Arcadians, were well for the Terriers.

MILLROSE GAMES TO DRAW WESTCHESTER COMPETITORS

With the advent of the indoor track season next month, the eyes of track followers will be focused on the first big indoor meet—the Millrose A. A. games at Madison Square Garden, Feb. 4.

Other Westchesterers are numbering the field events for the Lions. Francois Ryan of Yonkers will compete in the discus, javelin and weight throwing events. His best efforts will show in the 52 foot 8 1/2 inches, and he has won the 144 1/2 foot, 3 inches.

Ryan also holds the Penn Relay shot record, the 1. C. A. A. shot record, the 1. C. A. A. shot record, the 1. C. A. A. shot record, the 1. C. A. A. shot record.

Alex D'Ambruster of Bronxville, and Paul Lefebvre and William Darwin both of Yonkers, are other athletes from this county who will be watching. Garvin has had varsity relay experience, and is expected to hit close to 49 seconds for the quarter.

COLLEGE AID IS SUGGESTED FOR HIGH SCHOOL GRIDDEES

ALBANY, Jan. 27 (AP)—A former high school coach who now helps make New York's laws says to aid scholarship grid stars obtain college educations on state scholarships.

"Consideration of existing state scholarships would help grid college students in a big way," said State Senator Arthur I. Sponzo of Albany.

He explained his proposal, if approved, would require the New York State Board of Regents to consider athletic ability in choosing recipients of \$300 of the 750 scholarships of varied amounts awarded annually to worthy high school graduates.

"The remaining 450 scholarships built on a strict scholarship basis into non-strict scholarship basis as all of them are now," he added.

Sponzo, a Republican who once coached a Mauden Park High School basketball team to a Buffalo school championship, said he got his idea from coaches for open submission of college athletes by football coaches Glenn S. (Pat) Warner of Temple and Jack Sullivan of Pitt.

First Gloves Bouts Slated For Tonight
Westchester's Golden Gloves will hold forth at the Eastchester High School gymnasium this evening, as the Tri-County Championship boxing contest between the Tuckahoe Police Association and the Westchester County Recreation Commission hold the initial eliminations in the county.

Golden Gloves eliminations, famed for slam-bang, knock-down and drag-out fights, have never before been staged in Westchester. Because of this in the United States the fights will attract a country crowd to the Eastchester school. The fights will get under way promptly at 8 o'clock. The scene is the Eastchester High School ring at the White Plains Post-Office at Eastchester.

McCarthy Brothers Face 3-0 Attack in Larchmont Kegling League

With each sporter on the second place All Stars rolling well over the 500 mark, the Checkers didn't have much of a chance in the Larchmont Community Kegling League last night and lost all three games by wide margins.

The McCarthy brothers, Vin and Bill, led the All Star attack. Vin hit a single of 225 in the first game, in which Bill shot 205. Vin had a total of 500. A three ring 193 in the second game, and a triple total of 500. A single of 193 in the third game. The date of the first of the last place Checkers, who were handicapped by absent bowlers.

Three Westchester Community League Shows Helping Infantile Paralysis Fund
NEW YORK, Jan. 27—In the greatest episode of charity in sports history, New York State has broken out in a riotous rash of benefit events to root infantile paralysis.

Bowlers, wrestlers, basketball players, swimmers, bowlers, tennis athletes, polo players—all of them have flung aside their sports and battle, elbow to elbow, the common enemy that claims strong and weak, athlete and non-athlete, and non-athlete.

With the list growing, scores of sports events of every size and description have been scheduled throughout the state in answer to Granddad Hines' plea that each high school, college, and professional sports promoter donate at least one show this month or next to the cause of raising money to combat the dread disease.

It was just one month ago that the National Sports Council of the Committee for the Celebration of the President's Birthday sounded its call to arms to the athletes and fans of America.

Three Westchester communities are named so far in the official list of those answering this call to arms: White Plains. Two independent basketball games have been scheduled between independent teams.

HOLY ROLLERS SET LOOP MARK

Hit 606 Game in Beating Rotary, 2-1; Engineers Near First With Forfeit Victory

Without lifting a finger the Town Engineers almost overtook the first place Schoolmen in the White Collar Bowling League yesterday when the Kwanis Club forfeited another match. The School keepers both averaged 708 while the Engineers averaged 762.

The forfeit of the St. Thomas alley season, however, were set off by the Holy Rollers who strengthened their third place grip at the expense of Rotary Club by 2-1. The latter team was knocked into a tie for fourth with the Newman.

In winning the Rollers set a new league season record for a team game with 606, surpassing the previous high of 588 held by the Engineers. Dr. Irving A. Marandall paced the new mark with a single of 244. High helper was the Rev. Frank Dean Gifford at 568. The Newman.

MANTON RESIGNS POST IN FACE OF DEWEY'S CHARGES

High Ranking Justice Accused Of Accepting \$400,000 From Litigants

WASHINGTON, Jan. 30 (AP)—Rep. Sumners (D-N.Y.) said today that he had been advised officially that Judge Martin T. Manton of the United States District Court of Appeals had resigned.

A few minutes before talking with reporters, Sumners had conferred with Attorney General Murphy and Solicitor General Jackson in the Supreme Court chamber.

Sumners said that Manton's resignation related to the House Judiciary Committee, of which he is chairman of the reorganization of investigating charges against Manton filed with the committee by Dewey's charges.

NEW YORK (AP)—A double-barreled investigation was underway today into the record of Judge Martin T. Manton of the U. S. Circuit Court of Appeals in the wake of charges by District Attorney Thomas E. Dewey that the high-ranking jurist had accepted more than \$400,000 from litigants.

When he had "hidden" his gun he appeared down stairs where the others were just finishing breakfast, shortly before 2 o'clock, and said: "It's okay now, you guys can go on."

LaGuardia Assailed For His Endorsement Of Lehman For Governor

WHITE PLAINS, Jan. 30—To a Soliform, which followed general principles of their state organization, sought reopening of the New York, Westchester and Boston Railroad, and asked state money for parkway improvements, County Young Republicans in convention at the County Center on Saturday added an amendment suggesting that Mayor Philip G. LaGuardia, as president of the Young Republicans, be asked to endorse Lehman for Governor.

Although the amendment to the plank on "party cooperation" introduced by Raymond J. Walsh of Hastings, precipitated one of the few "fights" during the otherwise harmonious afternoon session of the Young Republicans, which opened at Westchester County, it carried a large majority on a vote of the delegates.

As adopted the amendment referred to LaGuardia by implication rather than by name, read: "We refer to the fact that a public official, elected or a candidate for office on a Republican ticket or on a coalition ticket, in which the Republican Party joins, who shall thereafter refuse to openly and wholeheartedly support other Republican nominees shall be denied the support of the party."

LEHMAN IGNORES TAXPAYER PLEAS

(Continued From Page One)

On the basis, Westchester's 1938 valuation by the County of \$16,676,495 would become, on an equalized basis \$1,905,725,141 and at the rate of \$1 a thousand would mean a new tax on Westchester property owners of nearly \$200,000.

There has been no direct state tax on real estate since 1928. Prior to that year such a tax had been levied by the State in every year of its history since 1845 except on seven occasions, the Governor points out.

No Parkway Improvements. No provision for any improvements of Westchester County parkways appears in the Governor's message. For state parkways elsewhere there is an appropriation of \$312,000, of which the major appropriation is \$250,000 for the Bakers State Parkway in Dutchess County.

This last-named parkway project is a cross-country parkway in the Bronx designed to tie up Henry Hudson Parkway, Pelham Parkway and the Bronx River Parkway at a point in Van Cortlandt Park with the Triborough Bridge and the new Whitestone Bridge, utilizing for this purpose Moshulu and the Bronx and Pelham Parkways.

Small County Benefits. In construction of state institutions buildings, for which \$40,000,000 is made available, the Governor offers only in two relatively small items, \$150,000 for remodeling dormitory buildings at Westford State Farm, formerly known as the Bedford Asylum, and \$100,000 for construction of a new segregation building at that same institution.

Under highway maintenance \$300,000 is provided for emergency repairs and replacements to facilities of the Long Island State parkways damaged by September rains and hurricanes but there is no appropriation in this respect for aged Westchester parks and parkways.

Deficit Forecast. Predicting a deficit of \$23,147,272 at the end of the fiscal year 1939, the Governor says that for the fiscal year 1940, June 30, attributable to the deficit.

WASHINGTON, Jan. 31 (AP)—House leaders agreed today to prompt consideration of a bill to continue the Dies committee on American activities, with a subsequent \$100,000 appropriation.

TODAY'S BEST PICTURE: DER FUEHRER SPEAKS

Flashed to New York from Berlin, this radiophoto shows Adolf Hitler last night as he pledged German support to Italy before the assembled Reichstag. Directly behind Hitler is Hermann Wilhelm Goring. Flanking Der Fuehrer are Dr. Hans Heinrich Lammers (left) member of the secret cabinet council, and (right) Dr. Otto Dietrich, press chief.

the employment relief burden and revenue shrinkages in the wake of the 1937-1938 business recession, the Governor said "it is laid upon a balanced budget" by 1939 and added:

"It must be clear that we cannot maintain a budget balance and a pay-as-you-go policy for relief without additional tax burdens." The Governor recommended appropriation of \$50,000,000 for home relief costs of which, however, only \$20,000,000 would be used for the bond issue for relief prior to 1937, when the pay as you go policy of relief financing was adopted.

Immed. aid Relief Fund Of the \$20,000,000 recommended for local reimbursements, \$6,000,000 would be made "immediately available" to meet relief needs until the end of the present fiscal year. Thus the appropriation for actual relief in 1938-1939 would be but slightly more than that for the current year.

"It is my hope that increased business activity will absorb a substantial number of men and women who are now on the home relief rolls," the Governor said, "but, assuming his belief that the amount he recommended would suffice for required cash relief expenditures in 1938-1939 he added: "I wish to point out, however, that if business conditions do not continue to improve, or if the Federal Government does not assume its fair share of the burden of the employment relief, the cost that the State will be called upon to meet in 1940 will exceed the amount which I now recommend be made available."

The Governor conceded that his recommendations for new taxes will "please no body."

"Criticism may be brought against it," he said, "but this is true of any adequate program that may be formulated at this time. This particular program is the one that, in view of all circumstances, I consider best calculated to meet our problem."

"Part Of Sales Tax" Admitting to skepticism that the proposed levy on business transactions was a "sort of sales tax" which, however, would not be passed on to the consumer, the Governor explained it would be figured on a quarterly basis. Thus the assessment would be laid upon gross business in excess of \$2,500 each quarter.

Under the recommendation, New York City would be permitted to continue its existing tax of one-tenth of one per cent on "turnover" receipts, plus a tax on total assessment of three-tenths of one per cent on net personal income.

Recommending a permanent increase in the one per cent tax on net personal income, the Governor urged that installment payments be permitted. This he would decrease revenue in the fiscal year, 1940, by \$5,000,000 because the full payment is now payable when the year is filed.

Thus there would be left an estimated revenue of \$50,000,000 from the suggested tax program of \$1,500,000 more than the amount he said "it is necessary to provide to restore the budget balance by 1940."

anticipation notes and other financial costs. The figures as given in the summary, he said, do not reflect an accurate picture of the comparative operating costs for the several years.

Some discussion was given over to the fact that in 1931-32, the debt service was \$50,752, and the operating budget was \$19,000, being a tax rate of \$1.93 per \$1,000 assessed valuation.

An against this was compared the year 1934-35, when the debt service, due to terms previously authorized, reached a total of \$32,574, while the operating budget were down to \$70,550, yielding a tax rate of \$1.90 per \$1,000 assessed valuation.

The figures, it will be seen, were almost reversed. Another point discussed by Mr. Lyon was the publication by The Daily Times about a year ago of a chart or "pie" showing how the tax dollar is spent.

Mr. Lyon admitted that the annual statement published as required by law by Village Treasurer-Clerk Frederick H. Bull, Jr., was accurate, that it reflected the true condition of the village's accounts, that it checked "a penny" with the auditor's report, and even disclosed with Mr. Lyon's own recognition of the figures.

The "pie" or chart, on the other hand, did not give the full story of that annual statement and therefore was misleading, he declared, justifiably in that it led to the publication of an editorial praising the clerk and Manager Whitney for

If all those who are responsible for the operation and maintenance of school systems are continually on the alert for such items, it is surprising what economies can be effected without impairment of service, and many

one per cent. The Governor formally opposed to the levy's "double-tax" features and conceded collection would be made on any item involved in several transactions.

As an example, he said in the interview that the tax would be on the sale of a bolt of cloth used for a suit and on both the wholesale and retail disposal of the suit fabric. But, he added, "this is what makes it yield."

Would Revive Direct Tax The Governor recommended revival of the direct tax on real property, last imposed 11 years ago, frankly as a "budget-balancing measure."

"I am willing to assume whatever onus of responsibility may be involved in the adoption of the measure I suggest heretofore," the Governor declared. "If a better solution can be suggested by the Legislature, I shall welcome it."

Recommending "in view of the general outlook for the next few years" that all existing emergency taxes "be integrated with the tax system," the Governor said "this revision involves no increase in taxes."

Laves when would that be "transferred" into the tax structure would include the two temporary penny-a-gallon taxes on gasoline, the one per cent tax on net personal income, the one and one-half per cent in the franchise tax on business or unincorporated business.

Also, the increase in the stock transfer tax from three-quarters of one per cent to one and one-half cents on each share selling at \$20 or less, and from one to two cents on each share selling at more than \$20. The 25 per cent increase in the graduated levy on estates and the 2 per cent tax on gross incomes of 2 corporations.

In recommending a permanent increase for the one per cent tax on net personal income, the Governor urged that installment payments be permitted. This he would decrease revenue in the fiscal year, 1940, by \$5,000,000 because the full payment is now payable when the year is filed.

Thus there would be left an estimated revenue of \$50,000,000 from the suggested tax program of \$1,500,000 more than the amount he said "it is necessary to provide to restore the budget balance by 1940."
