SUPER-FIRE-FIGHTING IS SUPER-DEFENSE

Those individuals who are inclined to disregard the importance of peace-time fire-fighthus and fire prevention may be impressed by the manner in which such work affects the strength of our national defense program.

According to news reports, negotiations are under way to send 25 American fremen to London to study new methods of quenching bombest free. The plan was announced by J. Ray Pence, Secretary-Texasurer of the International Association of Fire Department Instructors. He is waiting approval of United States officials and searching of London are described by the proposed expedition with the national defense program. TOWN'S BIG REGISTRATION

Whatever construction may be placed on the big jump in registration figures for the Town of Mamaroneck, the Republicans are pleased to look upon it as a favorable omen, and as an assurance that the Town can already be counted safely in the bag for Wilkie. Republicans have not been shaky regarding where Mamaroneck would be found standing on election day but the registration figures have rouse their hopes and they see in these figures not only a Mamaroneck wastern from the safely in the safe of the safely in the bag for Wilkie. Republicans have not been shaky regarding where Mamaroneck would be found standing on election day but the registration flowers have majority.

The registration for the from reached a total of 13.215, which is 2.133 greater than the number registered for the Presidential election of four years ago. That is in keeping with the results throughout Westcheast County, where any proximately 320,000 have been registered. That is a new high for the county. Four years ago 285,568 were registered. It is discovered to the safe of t

was a little less than 12 per cent, the Mamaroneck was 19 per cent.

Of course the Democrats are inclined to spoof the predictions which the Republicans are making as a result of the large registration and are sagely remarking. "Port count your chickens before they are hatched. Wait until you see the vote." That is what we will have to do but the registration at least shows that an unprecedented interest is being taken in the campaign and that about everyone who can qualify as a voter is determined to go to the polls and vote for his favorite presidential candidate. Again we can find encouragement in the figures for they once more impress upon us the fact that Mamaroneck and Larchmont are growing—growing in a steady and healthy manner. We may deny of dispute any alleged political significance in the registration but these other facts are made so obvious by the figures that we must accept them without reservation.

YOUR TURN TO LAUGH

President Roosevelt, in his Philadelphia address Wednesday evening—and this one was admittedly political—said he had a good laugh the other day when he read in the financial columns of a newspaper opposing his re-election to a third term that business was much better. He wanted to know if it wouldn't be fine if the editorial writers could get acquainted with the financial writers of that newspaper. But if the voters of America want a laugh for themselves, better the voters of America want a laugh for themselves, better the voters of America want a laugh for themselves. But if the voters of America want a laugh for themselves, but them consider another statement by Mr. Roose.

selves, let them consider another statement by Mr. Moosewelt. Here it is:
"My friends, the presidency is not a prize to bg won by
mere gittering promises."
Surely Mr. Roosevelt had his tongue in his check when
be said that. For if ever there was an individual who won
the presidency on "gittering promises," pledges which at
most without exception he has broken, that percent is Franklin Delano Roosevelt.
And yet he has the unmitigated gall to believe that he
can deceive the elegtorate of the greatest and the smartest
nation in the world for a third time!

SPEAKING OF CIVIL SERVICE-

SPAKING OF CIVIL SERVICE—

It's just a little matter, merely the question of appoint of a postmaster at nearby Southport, Conn., but for the like of those who believe the New Deal has played fair in he matters, let's look at the record (Congressional, we star, page 20166, Oct. 8, 1940).

In 1938 the New Deal outside the Republican incumbent; competitive examination was called for. "The only person who passed the examination was a Republican: But a new province of the examination was a Republican. But a new province of the examination was a Republican. But a new province of the examination was a Republican. But a new province of the examination was a Republican. But a new province of the examination was a Republican.
