# LANDSBERG SEES PANTHERS START ACTION AS GIANT 11 DOWNS STARS SEASON SEPT. 27

Every one knows what it means to hide one's light under a bushel. It's the same as placing it where it can't be seen. Any useful purpose the light could serve, therefore, is probably lost.

Much the same is true of a Public Notice posted in an out of the way place. This is true whether it is tacked to a fence corner off the beaten track or published in a medium whose circulation and coverage are anything but "general" in the community affected by the Notice.

The whole purpose of the Palitic Notice is to employ such means as are likely to bring the Notice to the prompt attention of those whose rights in movies. Short of direct personal Notice, the newspaper is most effective for this purpose. But it should be a newspaper of general circulation, that is, distributed throughout the community in question and of such quality and contents as to have a general appeal.

The occasional practice of placing such Notices in other types of publications of limited or doubtful overage is open to question. Generally speaking, local newspapers, carrying hom side general ness and having a substantial general siredulation, are by far the best means of same guarding public as well as private rights in carry-ing Public Notices.

A PERFECT

reputation of Sheffield Farms is behind a milk such as you've never tasted before — Scalect Homogenized Vitamin D Milk!

"Such creamy smoothness! Such rich flavor right down to the bottom-est drop! The Sheffield manner of homogenization mixes the cream thoroughly and it stays mixed.

"It's also more digestible. And has extra vitamin D that helps utilize the important milk minerals. Better try it today.
