Take Charge, Mister_ and LETS FIREBALLS

BUICK ECONOMY with Compound Carburgtion

All over the country, "to fireball" now means to enjoy both ease and dispatch in your travel by car—with a special new measure of thrift.

Reenforced by Compound Carbure-tion* this Fireball eight develops nearly 17% more horsepower on exactly the same fuel rationing.

And that spells economy.

So much economy that a man who drives 15,000 miles a year gets as much as 2,000 miles' extra driving on the same amount of fuel, and without loss of zip, lift, or surging power-flow—economy with some fun to it!

So new we think you'd better find out about it, better learn what it means "to fireball" as Buick owners now use that term.

ENGINEERS SURVEYORS

"A Little Home in the Country"

"A charming Colonial with green shutters and picket fence," an oft discussed picture that easily becomes a reality at Chilmark.

WHY?

Fully improved acreage plots in a country-like community, convenient for year 'round living for all of the family.

A building plan to economically build the home you plan with a minimum of supervision. A finance plan to build and finance your home at present rental levels.

Visit Chilmark, compare the cost of a new loune here with your present rental. We will gladly explain the Chilmark Building Plan, there is no obligation.

"WE CHANGED TO GAS HEAT ONLY LAST WEEK"

YES, even late in January, folks are switching to automatic gas heat. And, why not! It isn't necessary to change the entire heating system of a home to have gas heat. There's a gas conversion burner made to fit almost every type of furnace and one of these units probably can be installed in the present furnace of your home. The task is simple and it won't cause any great inconvenience or discomfort, regardless of out-door temperature.

ASK FOR A FREE SURVEY AND ESTIMATE

Why not consider gas heat for your home? You don't need to guess at the cost. We'll be glad to send an expert to your house to make a survey and give you an estimate. You won't
