The speedy, hard-driving Young's backs, cracking over the Orange line between the tackles, waded little into pushing over their initial safety as a cold wind and a temperature below the 30-degree mark made things uncomfortable for the spectators in the stands.

Joe Pisco Mamaroneck's ace punter, snared a DiBunno pass in the third quarter and ran it back to the Mamaroneck 45, to the Young 45. Captain Art Volor then headed toward right end, and with the help of a neat block by Gusadonza on Joe Pease, Young lusher up, sped 19 yards to the Young 75, where he was halted back.

PRISONERS WORKING FOR RED CROSS

For First Time in Penal Institution History, Volunteer Work Is Done

A group of about 12 women, clad in the blue and white uniforms of women prisoners at around a long table in County Jail...

It is the first time in the history of penal institutions of the state that the Red Cross has introduced a program to put the inmates to volunteer work.

The whole program was first visualized by Mrs. Evelyn Quinn, executive secretary of the State Correction Commission. In her last annual report to the jail, Mrs. Quinn suggested that men and women should be given...

She said that she was "very busy" several hours to the Red Cross each week are contributing more of your time than some of the volunteers outside.

One of the women prisoners, serving a year term for petit larceny, nodded her head in agreement. "I am," she said, "with a string."

At the present time, the shirt and work would go faster if the women could use the sewing machines and other equipment necessary to do a complete job...

Gasoline and Telephones Two of the Nation's Vital Needs

This war is being fought with gasoline and oil. Tremendous quantities are required for the millions of motors on land, sea and in the air. The problems of transport are great and their solutions depend to a large extent on swift dependable telephone service. The oil companies and government bureaus are using the telephone as never before. With telephone facilities breaking all records, we know you will want to cooperate in your own use of the telephone—so that calls, such as those, essential to our Victory, will go through without delay.
