Reading, Riting and—?

The three Rs may stand for Reading, Riting and Rithmetic today but that's not what they stand for in Dr. Charles F. Cameron, state education department superior, told an audience at Belvidere High School last night.

Originally, he explained, the third R was religion since one of the main functions of education was to teach persons to administer their own affairs in accordance with their Bibles. Later, when the merchant class expanded and it became necessary to teach persons to do their books in stores and businesses, "Rithmetic" replaced religion in the traditional catch phrase.

Dr. Cameron told the story to illustrate his contention that education has always been and must continue to be functional.

2 DOGS KILLED BY RIFLE SHOTS

Mysterious Gunmen Sought By Detectives Near Washington St.

Two dogs were found shot and killed, by 22 calibre bullets, on Plaza Avenue and Washington Street, Mamaroneck, at 6:20 P. M. yesterday.

A shepherd-spirit owned by Alexander Washington, 214 Columbia Avenue and a collie owned by Vito Sinopoli of 133 Waverly Avenue were found dead within a block of each other by Mrs. Natalie Freckson of 238 Madison Street, Mamaroneck, who summoned Mamaroneck police.

Mrs. Freckson told Det. Sgt. William O'Neill that she heard shots in the vicinity of her home and saw the dogs running down the street, apparently toward home. They fell on the street, each bearing one hole made by a bullet fired through the body. They were disposed of in the Village incinerator at the request of their owners.

Mrs. O'Neill said that the dogs, which had probably been tramping gardens in that section of the village and making a commotion with the many other loose dogs, had probably been shot by someone who had tired the house and damage. The Detective Bureau is investigating the case.

He was a member of the Greenwich Community Council and the Greenwich Council of the Boy Scouts of America. He served on the board of the Greenwich Center for Child and Family Welfare and was secretary-treasurer of Greenwich Clergymen's Fellowship.

A native of Philadelphia, Rev. Fairman is a graduate of Temple University and the Philadelphia Lutheran Seminary. He served in the U. S. Army and was served churches in Buffalo and Manhattan, N. Y. He succeeds Rev. Theodore O. Powell, Jr., as pastor of St. John's.

Education Should Emphasize Individuality, Spencer Claims

The function of education is to stress individuality and encourage the student to suppress individual differences among students. Dr. Harry Spencer, superintendent of the New York State Education Department Bureau of Curriculum Development, told an audience of New York teachers and parents last night at Belvidere High School.

The meeting was sponsored by the Belvidere Community Club and the Rye Neck Community Educational Planning Committee with the cooperation of Dr. Alvin W. Hertz, superintendent of schools, and William C. McAlone, high school principal.

Dr. Spencer pointed out that present-day schools must offer a varied curriculum to fill the needs of pupils with a wide variety of aptitudes and interests and that the failure of many schools to do so is causing an increasing number of "drop-outs."

By and large, it is the 17-year-old boy who is apt to drop out at about the 10th grade, Dr. Spencer said, unless recent requirements have forced him out earlier.

Dr. Spencer asked, "How are we going to find a way to serve the 62 percent who don't go to college? Are we going to keep them all the same things?"

The State Education Department is made up of persons very interested in protecting youngsters from inadequate building facilities, undue discipline and inferior educational programs, Dr. Spencer declared. The department sets up regulations on basic curricula and examinations since recent examinations have a function similar to college board exams. "The colleges like it," he continued. "So we maintain it. State aid is paid to schools that make use of these exams but a school does have a right to maintain a standard for a local diploma."

Making a plea for a curriculum that will satisfy all types of pupils, Dr. Spencer declared, "You do not lower standards when you set standards youngsters can achieve. There are bigger aims in education than those we have been thinking about."

The speaker stated that in industry, more persons are fired

Western Diplomats Ignore Red Protest On Atlantic Treaty

'Unfairness' Of NHRR Rates Hit By Analyst At Hearing

NEW YORK (AP) — A rate analyst says Mount Vernon commuters pay a 33.13-per cent high rate for the Atlantic Coast Railroad.

The analyst, John Bauer, testified yesterday before the State Public Service Commission at a hearing on the line's proposed increases in intra-state commutation fares.

Bauer, questioned by Herbert Askitz, chairman of a Westchester commuters group, said his studies showed the Mount Vernon commuter cost the railroad the least per mile even though it pays the most for increases in intra-state commutation fares.

Salesgirl Refuses to Waive Hearing; Mental Exam Asked By Counsel

By WHIT HOBBS EASTCHESTER — Maureen Elizabeth Murphy, twenty-two, who was accused of burglarizing a salesgirl, is being held without bail in County Jail, following her arraignment yesterday. Charged by Eastchester Police with third degree burglary, the pretty, free-eyed girl, refused to waive a hearing. Peace Justice Matthew J. Siano set the hearing for April 11.

Mrs. Murphy was represented by Justice Paul Petinato, who asked the court that his client be committed to a mental institution for observation. Justice Siano denied the petition on the grounds that his court lacked final jurisdiction in the matter.

Justice Siano denied Mr. Paparella's motion for bail on the grounds he had no right to set bail on a prisoner charged with a felony who might have a previous record. Police haven't yet completed a check on this point.

Wearing a black dress with a white jacket and with a black ring through her short red hair, she was calm as she appeared in court.

Police reported she admitted five burglaries, three in Eastchester.

U. S. Considering Reply Rejecting Russian Objections

WASHINGTON (AP) — Russia's protest against the Atlantic pact stirred controversy a ripple today in plans for the treaty signing, but did not bring some conference on the reply to be made. Rejection of the protest is a foreign question. The only question is what is the most effective means of rejecting it. Top State Department officials were reported to be considering that.

Foreign ministers were gathering to sign the historic treaty on Saturday, one of the new arrivals, Belgium's Paul-Henri Spaak, told reporters that Russia's new note will not stop him from signing the North Atlantic alliance for his country.

Spaak denied Russia's charges that the alliance is aggressive. He said to him "the most important thing in the (Soviet) note" is the statement that Russia has "no aggressive aims."

The U. S. government has pushed ahead at full speed on plans for unifying the non-communist West to build up its local military and economic power against any possible Soviet aggression.

The U. S. State Department announced that Secretary of State Acheson would receive British Foreign Minister Ernest Bevin and French Foreign Minister Schumann jointly later in the day.

Indications were that the foreign ministers would meet in Paris.

JUSTICE BUREAU TO CONTINUE TAPS

Clark Says Wires Will Be Used In Vital National Cases

WASHINGTON, (AP)—Attorney General Clark today made it known that the Justice Department is not going to abandon the use of wire tapping in cases involving national security or a matter of life and death.

He acknowledged, however, that he will press for one controversial provision in the so-called "Privacy Act" which would permit use in courts of information obtained from wire tapping by the FBI and military intelligence.

The two positions were disclosed as an aftermath to a five-hour session of the House Judiciary Committee on Wednesday, which was sent to Chairman McCarran, D., Nev., of the Senate Judiciary Committee. It was signed by representatives of the Americans for Democratic Action and the American Civil Liberties Union.

The two organizations voiced strong approval of McCarran's decision in removing the wire tapping section from the administration bill.

They also went on to say that FBI Director J. Edgar Hoover had acknowledged publicly that the FBI does tap telephones in certain cases. The letter stated that Hoover's statement "is an admission that he is violating the law."

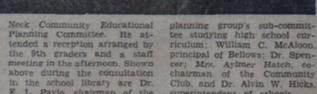

McCarran said this wasn't so—that there is no law banning wire tapping on the books now.

HOSPITAL BLAZE CLAIMS LIVES OF 50 N. ILLINOIS

Death Toll May Climb; 60 Of 108 Patients Reported Saved

EFFINGHAM, Ill., (AP)—More than 50 persons, including eight six-year infants, were reported killed today in a fire that raged through St. Anthony's Hospital.

Hospital officials said the death toll may reach 60. The Red Cross said 60 of 108 patients were rescued. At least 15 bodies were removed—most of them charred beyond recognition.

Flames quickly enveloped the building at midnight and destroyed it within an hour, trapped patients screamed in agony. Some, including infants, leaped from flame-framed windows.

"It was horrible," said one eyewitness, "all those poor people in their shrieking for help."

The fire was discovered shortly before midnight in a laundry chute. Eyewitnesses said the 10-year-old, three-and-one-half-year-old and 10-year-old leaped from a great mass of flames.

"It burned so fast, it couldn't be fought," said one rescuer. Many patients leaped from their rooms and died in their flaming rooms as they were unable to get to safety.

The bodies of eight infants still in their fire-blackened metal cribs on the second floor, were first to be removed.

Unaccounted bodies were seen in the various wreckage of the upper floors. There were about 30 patients on the third floor, as well as 100 in the basement, but I don't believe any of them got out.

Backstage visitors during intermission at Saturday night's closing presentation of the symphony concert Association, were somewhat startled to hear again the strains of Schubert's "Fifth Symphony" which they had just heard played by the St. Louis Sinfonietta on the stage of the Mamaroneck Junior High School auditorium.

The men were listening with the ears of experts to a wire recording playback of the symphony, and like true musicians, criticizing themselves freely.

Paul Schreiber, conductor of the miniature symphony of 21 actors, had discovered during the afternoon performance for young people, the excellent acoustical properties of the auditorium, and hastened to take advantage of them by recording the evening's concert.

MISSING YOUTH'S KNAPSACK FOUND ON SHORE AT RYE

First Trace of Six Lost Boys Discovered by Hen Island Caretaker

A knapsack reportedly identified as belonging to one of the six Yonkers boys who are believed to have drowned in Long Island Sound last weekend washed up on the shore of Rye yesterday morning, according to Rye police.

The knapsack was found by Charles Healy, a caretaker on Hen Island. Mr. Healy was walking along the Rye shore between Greenhaven Beach and the estate of George Skouras when he found the knapsack.

The Coast Guard Air-Sea Rescue Service on Long Island could not confirm the story at noon today, but it is not known whether the boys supposedly owned the knapsack. The Coast Guard officials on Long Island said they were trying to locate the boat which picked up the knapsack.

It contained a pair of socks, a sweater, a thermos bottle, and a canteen, and a note from Mr. Charles J. Hayes made the report.

Thomas J. Broder, manager of New York City's Rye Yacht Club, personally accompanied the Harbor Patrol at 5 P. M. yesterday afternoon to the shore where the boys are believed to have drowned. "It was a very low tide and we didn't find a thing," he said. "I'm continuing to send the Harbor Patrol out until something turns up."

V. A. FUND SLASH TARGETED HOUSE

All 28 U. S. Agencies in Bill Cut In New Fiscal Program

WASHINGTON, (AP)—A half-billion dollar cut in Veterans' Administration funds highlighted a \$7,576,888,231 multi-agency money bill approved today by the House Appropriations Committee.

The bill carries funds for the fiscal year beginning July 1 for 28 so-called independent agencies, including \$1,413,919,940 for the Veterans' Administration and \$1,090,120,291 for the Atomic Energy Commission.

Every agency in the bill shares in the overall reduction of \$74,680,590 from the Presidential budget request for \$8,311,566,830. The Veterans' Administration loses \$171,600 in cash and \$72,146,628 in contract authorizations for which future appropriations may be required. The President had asked for \$7,715,596,830 in cash and \$350,000,000 in contract authority. Not only did the committee upset the President's budget on the money items, but it refused to allow his Budget Bureau's recommendation for cancellation of \$27 million in previous authorization.

It even cut the Budget Bureau's own budget for \$1,000,000.

Substantial cuts were recommended for these Veterans' Administration operations:

Administrative expenses, from \$848,977,000 to \$220,807,000; pensions, from \$2,220,800,000 to \$1,998,800,000; readjustment benefits, from \$2,220,800,000 to \$1,998,800,000; and other benefits, from \$2,220,800,000 to \$1,998,800,000.

Other cuts were made in the \$508,670,000 to \$2,187,600,000.

NAVAL AVIATION FIGHT ON BUDGET STARTS IN HOUSE

Backers of Bigger Force Want to Add \$300 Million to Bill

WASHINGTON, (AP)—A fight over naval aviation swirled today in the House around a record estimate \$16 billion Navy-Navy Air Force bill.

Backers of a bigger naval aviation force want to add about \$300 million to the bill to give the Navy more wings.

They include such influential members as Chairman Vinson of the Armed Services Committee, Representative William D. Flaherty, Sheppard, D. Calif., and Short, R. Mo.

In advance of a showdown vote late today, they claimed enough support to raise the Navy's share of the big bill to at least \$3,219,873,000, or \$300 million more than the Appropriations Committee had approved.

The extra money in the form of contract authorization would permit the Navy to acquire 1,361 new planes during the next fiscal year to be open from July 1 to the 31st provided by the committee.

While the Appropriations Committee made no cut in Budget-Budget, the House Appropriations Committee made a cut in Budget-Budget for the 12 months, Vinson told members of the House. The committee also cut the number of 0.58 Navy planes at the end of 1955 instead of the 8,166 contemplated.

Rep. Short, top Republican member of the Armed Services Committee, said the appropriations group of having cut the number of naval aviation.

BOARD TO STUDY SCHOOL DAY SPAN

Attendance Requirements For Regents' Week Arouse Protest

The Rye Neck School Board last night decided to study the desirability of keeping school in session for 190 days, exclusive of Regents' week.

Under the present system, students have 184 days of instruction and six days for the examination period to meet the 180-day school year required by the state. If the board's study favors the present system, no change of instruction will be added to the calendar.

The board's decision grew out of a resolution drawn up at a meeting in April, 1943, which was adopted by the board. It was intended to be a protest in various legislative circles.

The resolution suggested a change in the state's basis for setting minimum standards for the school year.

In addition to registration, voters must qualify by being a resident of the United States, 21 years of age, a resident within the school district 30 days prior to the election, and also must either own or have a legal interest in property in the school district or be the parent of a child attending a school in the district.

2 SHIPS TO BE BUILT IN DELAWARE BAY

MARCUS HOOK, Pa. (AP)—Two ships could be built in a dense fog, setting off a fire today that spread unchecked for five hours.

Crashing into each other in Delaware Bay at 2:40 A. M. were the 13,000-ton oil tanker Pennsylvanian and the 7,500-ton freighter American Patriot.

One man, crewman Walter Roberts of Sharon Hill, Pa., of the oil tanker, was swept overboard in the crash. He was picked up unharmed by a passing ship. No casualties were reported.

The 42 crewmen aboard the Pennsylvania Sun attacked the Pennsylvanian, which promptly launched a plane from Brooklyn, salvaging the foamite. Cutters also were sent to the scene.

The fog was so dense the plane couldn't land.

Sun Oil Company reported the fire aboard the Pennsylvania Sun at 7 A. M., but that smoke still poured from the ship at 10 A. M.

The ship was completely destroyed in the bay awaiting a fresh shipper by the Raritan Sun, another Sun Oil vessel. When the fog lifted, the ship was seen to return to her base at Sun's headquarters.

The solar spectacle was spotted by observers of the Sun yard. The phenomenon could be seen on half the earth's surface wherever it was night at the time it occurred.

Authorities at Hayden Planetarium said that, as viewed in New York, the moon was completely blacked out, whereas in a normal eclipse it shines with full red glow.

The American Patriot carried from 50 to 60 men. She was en route from Norfolk, Va., to Philadelphia, to load cargo.

'BILLION' REVEALED IS TRUMAN VIEW FOR U.S. IN 1949

Special \$600 Million For Veterans Will Cause Boost, He Says

WASHINGTON (AP)—President Truman indicated today that he expects the government will run a \$1 billion in the red on this year's operations.

In a news conference discussion, he said a special \$600 million fund for veterans' benefits will increase this fiscal year's deficit.

That money was added to Congress' \$1 billion program for unemployment payments, a cost more than was anticipated when the fiscal year began July 1—would be \$39 million less than its spending.

The \$600 million was asked because of 1.5 million payments for unemployment payments, a cost more than was anticipated when the fiscal year began July 1—would be \$39 million less than its spending.

The in-the-red prospect has already been brought back into the picture by the fact that Congress has drawn up. The House has approved the fund, but the Senate has not yet acted on it.

SEATTLE (AP)—A bitter full-scale debate on the Atlantic Pact shaped up in the United States today as a result of Russia's opening bid here at the 12-power treaty.

The Senate had expected to switch back to committee meetings at Lake Success but the Senate was postponed after the United States and other countries demanded the fact to join battle on the pact.

Assembly President Herbert V. Evans of Australia called two lengthy meetings of the 12 nations at Flushing Meadows Park today and for a night meeting if necessary.

Austin Must Wait For Floor

Sen. J. S. Dill of Oregon said Austin demanded the floor yesterday immediately after Andrew A. Greenwood, Russia's No. 1 Deputy Foreign Minister, finished his speech on the pact signed April 4 in Washington.

Evans, however, ruled that the U. S. Senate was to speak on the veto question—the item before the Assembly—and could not speak until other countries had their chance.

Austin had asked to be allowed to speak at the earliest opportunity. It was expected he would get the floor sometime today.

Gronky charged the pact was intended as a move for preparing the way for Russia. He said preparations already were under way for the war.

Denise Post has stated the pact is a step toward the United States joining the pact. He said no nation had anything to say unless it was invited to do so.

Poland, Czechoslovakia and other Soviet satellites were said to be ready to back up Gronky's attack on the Western countries.

British Premier Winston Churchill was expected to answer the Russian charges.

Production by United Helicopters, Inc., on the West Coast is now up to two units a week and Mr. Miller says the company has orders for six months ahead. The plant's aim is to produce one rotor per month.

Aviation editors of daily newspapers and trade magazines gathered yesterday for the first time of the Westchester County Club as the odd-shaped contraption, awkward at first sight, but surprisingly agile and maneuverable, swung sharply around the top of a level of 10 feet, dived in smoothly and settled down upon the club's outdoor mosaic dance floor as gently as a mother placing a baby in its crib.

LONG COLD WAR, VICTORY FOR WEST SEEN BY ACHESON

Calls For Allied Diligence In Talk to Delegates of Defense Group

By JOHN M. HIGHTOWER
WASHINGTON, (AP)—Secretary of State Acheson yesterday expressed the cold war with Russia to last a long time.

He gives the impression that the Western world has taken the initiative away from Russia during the last year and a half, but in his mind the final outcome will not be the form of a victory for the Western democracies, but a "mutual dilution" and "mutual exhaustion" of the two superpowers.

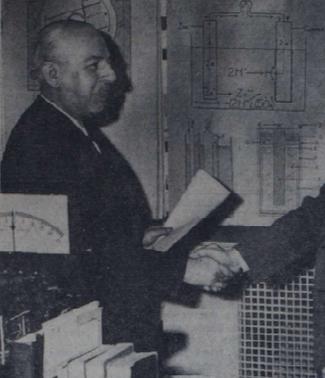

He spoke at a luncheon meeting of delegates to the 22nd annual convention of the United American Defense Organization.

Acheson had first delivered a prepared address, in which he dealt in general and familiar terms with the world situation. Later he spoke more informally, and without prior preparation in response to a toast to the United States.

Diplomats attached particular importance to his words to the extent that they reflected the views of America's foreign policy chief at the end of a particularly successful period of Western activity in Britain and France on the Atlantic Treaty.

In this period Acheson has been the central figure. He spoke against the background of the signing of the Atlantic Treaty here two weeks ago and completed an agreement among the United States, Britain and France on the future of Western Germany a week ago.

Mr. Acheson did not specifically refer to these achievements in the European Recovery Program in his address, but he did declare that "in the past 18 months the forces of liberty have gained the initiative."

'Tear' Statue Stops Crying

SYRACUSE, (AP)—Shirley Anne Martin said today her broken statue of St. Ann no longer sheds tears when she kissed it.

The eleven-year-old girl reported at 9 A. M. that 10 liquid substances had materialized on the painted face of the plaster replica since her appearance with the image on a television program at 1:30 P. M. yesterday.

She said that in the intervening time she had tried repeatedly, but without success, to bring to the eyes of the statue what many witnesses who had seen previous demonstrations called "tears."

Repeatedly since the girl picked up the head of the broken statue after it had been discarded April 2, she had kissed the figure, after which, scores of white crystals, said to be watery substance, had appeared on her face.

Meanwhile, the devout, the Catholic and the deeply religious in the area; members today in front of the Martin home, many hoping for a Good Friday miracle, had retained the liquid for curative at least.

A farewell reception will be given Mayor Stanley W. Church of New Rochelle on the occasion of his departure for Israel, on Sunday at 3 P. M. at the Westchester Day School, 836 Orienta Avenue, Mamaroneck.

The reception is being arranged by the Westchester Zionist Federation, which is sponsoring Mayor Church on his trip to Israel and other parts of the Holy Land which will give him and other participants an opportunity to study at first-hand the various problems now facing Israel and to appraise the future prospects of the Jewish state at an independent nation among the nations of the world.

Since the reception will take place during the Passover holidays special Passover refreshments have been prepared.

The study tour of Israel has been arranged by the American Zionist Council - Palestine Committee and was made available to a carefully selected group of prominent educators, editors, churchmen and public figures who have long been interested in the Palestine problem and the growth of Israel, according to an announcement from Joseph W. Greenleaf, Mount Vernon, president of the Westchester Zionist Federation.

Rev. Karl Biehl, executive director of the committee in sponsoring Mayor Church's selection to participate in the tour, declared, "The Executive Council of the American Christian Palestine Committee believes that the American people need first hand reports on Israel today, its achievements and its problems, its economic needs and possibilities for industrial and agricultural development."

"Mayor Church, in his close relationship with the American Christian Palestine Committee and his long support and cooperation with its policies, strikes us as the ideal representative of the people, 138 Mamaroneck Avenue.

Daquiri, Daquiri Dock!

It may have been the subject matter itself which brought on the double talk in the publication Wednesday of David A. Embury's poem which headed his column "Mistaken Mistakes" but whatever the cause the verse appeared in unaltered form in the corrected version follows:

The Daquiri
Daquiri, daquiri dock!
The drink for around the clock,
Sung, sung and lilted,
Ice, and shake a long time,
And that is your daquiri, Doc!

George Offers to Cut Spending To Cut Spending

Advocates Knife's Use To Avoid Tax Hikes

WASHINGTON, (AP)—Democratic Senator George of Georgia—No. 1 tax authority in the Senate—offered today to support a drive to slash government spending. The drive has been started by two Republican Senators.

George told a reporter that he agrees with Senators Wherry, R. Neb., and Bridges, R. N. H. that Congress must slash a knife on spending bills if it is to avoid a tax increase or in-the-very-future.

"The acid test will come on our appropriations for foreign spending—the ECA, the Atlantic Pact and similar measures," said the veteran chairman of the Senate Finance Committee.

"Nobody can expect members of Congress to cut down on our domestic programs unless we first reduce our foreign spending," George continued. "If we're going to pare down the federal budget, we must start there."

Wherry, GOP floor leader, called reporters to his Capitol office last evening to announce the Republican drive to slash both foreign and domestic spending.

First he expressed agreement with President Truman that the nation must spend more than it is taking in—If Congress continues its present spending rate without tax hikes.

Wherry said Republican Senators are in a "tough situation" getting out of hand.

"What I said that personally he favors a general cut of 10 to 15 per cent in the President's spending—It would be silly" to try to close every door, he added.

As Appropriations Committee member, Wherry said, he and Senators Bridges and Wherry of that group, will aim first at the \$8.5 billion European recovery authorization just cleared by Congress.

HOUSE MEMBERS TAKE 'BREATHER'

WASHINGTON, (AP)—Most House members headed home today for a 10-day "breather" before returning on April 25 to start a knockdown fight on labor legislation.

The prolonged Easter recess started last night, after the House record of appropriations since Monday to \$85 billion, a peace-time high for one week.

The Senate delayed earlier this year by a filibuster over civil rights and long arguments on foreign policy.

Debate on a long-range housing bill will resume Monday.

Masons Hear Appeal

FOR NATIONAL GUARD

Sixty members of the Masonic Club of Larchmont, heard Major Augustine J. Griffith, head of the subject "The Mission of the Old Fashioned Wing, An National Guard," last night in the Municipal Building.

Telling of the National Guard's history, Major Orsinda compared members to the minutemen of 1776. He said it's patriotism rather than pay of the uniform that makes a man want to serve in the National Guard.

He urged the average citizen and businessman to support a strong National Guard. He said it was the duty of businessmen to encourage employees to join and pointed out that some businessmen give vacations with 1948 allowing their workers to attend summer training camp.

It is not the American way to have large standing armed forces, Major Orsinda said, and it is therefore necessary to have a strong reserve component. It is the cheapest insurance we can buy for peace.

Yanztge Brighedeas Demand of China Reds

NANKING (AP)—Chinese government sources confirmed today that the Communists in the Yanztge, South bank bridgeheads are sought as a substitute for the nationalists will carry out the Red's peace terms.

The Communists want these sources said, unpopulated landings for their troops because the peace had been signed and upstream along the middle stretches of the great river.

These bridgeheads could be easily surrounded for an offensive into South China, should the nationalists balk at any stage on the eight conditions for peace laid down by Communist boss Mao Tse-tung.

PAY RISE VOTED AT WATER WORKS

Deficit Of \$10,500 Looms As Board Adopts 1949 Estimate

The estimate of revenues and expenses for the Westchester County Water Works No. 1 for 1949 includes a flat increase of \$150 for all employees at an approximate total cost of \$5,850.

Superintendent William E. Thurston disclosed today the rise has been granted, according to Mr. Thurston, "in order to more nearly equalize salaries with those of comparative positions in other municipalities."

Working hours of the eight plant operators have been reduced from 48 to 40 hours per week to correspond with maintenance employees.

An allowance for \$11,300 has been included this year for the necessary payment to the New York State Retirement system by the board last September.

According to the estimates of T. J. Hogan, the auditor, the Water Works will end the year with a deficit of about \$10,500 since the estimated revenues will not cover payments on debt service.

The deficit is allotted to the town of Mamaroneck. Village of Mamaroneck, and the town of Harrison in proportion to the amount of the water bill in each community. Each section meets

Mr. Truman asked Congress to keep the government out of new tax cuts for the year, but he said he would not object to any such proposal.

That would mean a deficit of \$73 million, not counting items which have come up since then, like the rearmament of Western Europe, a project which reportedly would cost between \$1 billion and \$2 billion.

Village Report Shows Rise In Injuries During 1948-1949

The fire loss in the Village of Mamaroneck for 1948-1949 dropped more than \$13,000 below the previous year, the department's annual report reveals and although there were 28 fewer fires, 12 injuries were recorded.

Insurance Man Urges Bonding of Employees

Speaking on the subject "The Double Crossing Safety Factor," John P. Madigan, assistant manager of the Maryland Casualty Company addressed the Larchmont Rotary Club yesterday at a luncheon meeting at the Larchmont Shore Club.

Mr. Madigan urged the bonding of all employees, no matter how small the business or how long the workers have been employed. He said huge losses are suffered by business every year.

The sensible way, as a matter of insurance, is to have every employee bonded, he declared.

William Schroeder, secretary-treasurer of the New York Rotary Club, will talk on "1949 and What Follows" at next week's meeting.

SEX-SLAYER HUNT BEGINS IN BRONX

No Clues Found By Police; Tests Show Boy, 6, Victim of Pervert

NEW YORK (AP)—A vicious sex-slayer, who strangled a young boy with a pattern belt in a camp last recess of an old Bronx amusement park, was the target of an intensive police hunt today.

The hunt was led by Chief of Detectives Joseph P. Ladd, who said his hunch was that the slayer was a pervert.

Police Inspector Christian V. Ladd said he was using "every device at my command" to track down the slayer.

Hours later, however, Assistant District Attorney Milton Altshuler said "we have got no further than we were when the murder was discovered."

From the lips of small playmates, police tried to draw a word picture of a seamy man about forty who "looked like a bum."

Fourteen youngsters said they saw such a man with young Goldsmith before the blue-eyed boy was murdered.

3 GOP Senators Express Concern Over Driver Tax Hike Feared

WASHINGTON (AP)—Some top Republicans in the Senate expressed doubt today that their drive to force the government spending bill get far.

One Republican asking not to be identified by name, said flatly that this session will see no slashes that will amount to anything.

He said that might make necessary a boost in taxes.

Another Senator said he is "hopeful" that Congress will trim Federal expenses, but added: "I am not optimistic."

A third, who has led many economy drives in the past, said he will go along with any cuts suggested by the Democrats but "I would not want my neck out and propose any."

President Truman in his January budget message estimated Federal spending for 1949 at \$41,858,000,000, an estimated receipts of \$49,955,000,000.

That would mean a deficit of \$873 million, not counting items which have come up since then, like the rearmament of Western Europe, a project which reportedly would cost between \$1 billion and \$2 billion.

Mr. Truman asked Congress to keep the government out of new tax cuts for the year, but he said he would not object to any such proposal.

SOVIETS REPORTED SEEKING WAY TO LIFT BLOCKADE

Frank Trade Barrier
BERLIN (AP)—Are the Russians seeking a diplomatic way to lift the blockade of Berlin and still "save face"?

For weeks, there have been reports of new Soviet efforts to find a way out of what has become a boomstraining situation.

The allied control-blockade has deprived the Soviet occupation zone of Germany and many of the Soviet satellite countries of the materials necessary to their economic well-being.

These reports from authoritative sources in Germany indicate that Germans of the Eastern zone are presenting the Russians to lift the blockade.

The Well, official British Army newspaper at Hamburg, said the Germans of the Russian zone want to resume trade with Western Europe.

Die Welt said Vladimir Dekanov, Russian Ambassador to Hitler Germany, has been in Berlin.

STATE AID FUNDS RECEIVED TODAY

Schools Get Checks For \$100,794,692; More Due 31 Cities
ALBANY (AP)—A record \$100,794,692 in State aid to schools was delivered to localities today.

Comptroller Frank C. Moore said checks for that amount were first ever paid at one time—were mailed Saturday to county treasurers and the New York City treasurer. New York City got \$37,594,387 of the total, Moore added.

The \$100,794,692 payments compared with \$67,720,390 apportioned to localities in April, 1948.

The total includes \$41,000,000 in additional aid reflecting increased school population, the comptroller said. This extra aid was mandated under the Pennington formula by which State money is apportioned to school districts.

It does not include a further increase of \$40 million voted by the 1948 legislature in the Pennington-Mohr Bill, Moore added.

The money, Moore explained, represented for one group of school districts the final installment of approximately 50 percent for the school year 1947-48.

For 31 cities, which operate or formerly operated on a calendar fiscal year, the payments represented 60 percent of the aid due for the 1947-48 school year, Moore reported. The 20 per cent balance will be paid by October.

Cities in this group include Mount Vernon, New Rochelle, White Plains and Tonawanda.

Cities Listed
Westchester County received \$3,842,409.40, compared with \$2,700,000 last year.

Combing The Town

Spring Fever

Spring fever seems to have attacked the animals and birds in this vicinity as well as the humans. Sunday it was a lamb that was fished out of Long Island Sound in the midst of an Easter swim. Last night it was a pigeon, apparently drawn off its course by the beauty of Larchmont, who spent the night with the Kuntz family at Larchmont Acres.

The bird landed lastly on their bedroom window sill at 7 P. M. and when Billy Kuntz, thirteen, opened the window, the dark gray bird fluttered and settled down on the bed for a nap.

He wore a metal band on one foot and a green circle on the other which Harold Saunders, secretary of Mamaroneck's Fishing Tackle Club, says indicates that he was undoubtedly on his way home from New Rochelle after the weekend races.

After his nap the bird was put back on the window ledge and this morning had left to complete the last lap of his journey—no doubt thinking it was good to be away to the question, "Where were YOU all night?"

Exam Set

A Civil Service examination for the position of intermediate account clerk with the Westchester Joint Water Works will be held June 10 in White Plains, Superiorly started, according to the announcement today.

Candidates must have resided in New York State for at least one year and in either the Town of Harrison or Mamaroneck for four months preceding the examination. A year of clerical experience, partially as an accountant, and the completion of a standard high school course preferably with two years of college or equivalent of that training and experience.

The working day of maintenance employees at the Water Works is 44 hours and the time schedule of the eight treatment plant operators was recently reduced from 48 to 44 to conform to the maintenance workers' schedule.

Olympic Films Shown

Members of the Larchmont Men's Club and their families last night saw the film "The 1948 Winter Olympics at the Westchester Municipal Auditorium in the Murray Avenue School."

Such champions as Barbara Ann Scott, Dick Button, Herb Schubert, Henry Orellier, Gretchen Fraser, and the best athletes from 20 countries were seen in action.

John Fox, owner of the Fox Pizzeria Home at 91 Post Road, Larchmont, who was introduced by Morgan Burke, a former Olympic bobsled champion.

Four Cars Damaged

In two collisions.

Two minor accidents occurred in Larchmont on a car operated by Charles Conte of 34 Vandenberg Avenue, Larchmont, collided with one driven by Mrs. Charles Epstein of 415 Beekmantown Avenue, New Rochelle, at the foot of 2nd and 4th P.M.

Mr. Conte, a taxi driver, told Larchmont Police he was pulling away from the taxi stand at the corner of 2nd and 4th P.M. when he collided with station when his car, travelling east on North Avenue, collided with the taxi.

The taxi driver, who was driving a 1948 Buick, was not injured.

Building at Low Ebb

Although the estimated cost of construction in Larchmont for March showed a slight increase of about \$2,000 over the February figure, it did not reflect an upswing in the building of new homes, according to the monthly building report of Building Inspector Arthur Richards.

March marked the third straight month in which no permits for new homes were granted. The March total of \$7,000 in estimated cost of construction included two alterations, one addition, and a garage.

U.S. VEToes PLAN TO PROBE TRIALS OF CHURCHMEN

Believes Move Under Way Is Best; U. N. Debate Set For Today

LAKE SUCCESS, (AP)—The United States turned thumbs down today on a Cuban proposal for investigating the trials of churchmen in Bulgaria and Hungary through a U. N. inquiry mission.

A U. S. delegation spokesman said the American delegation considered the trials of the Cardinal Mindszenty and other churchmen behind the iron curtain.

But he told newsmen, the United States feels the main efforts to curb prosecutions of churchmen should be confined at this time to Anglo-American action already under way to investigate Hungary and Bulgaria of violating their respective pledges to the United Nations.

The surprise demand for a U. N. inquiry mission was made by the Cuban representative, Dr. Gustavo Gutierrez, who called for 15-nation commission to investigate the trials and imprisonment of Cardinal Mindszenty and Lutheran Bishop Oedeas in Hungary and 15 Protestant leaders in Bulgaria.

Russia already has announced bitter opposition to any effort to look into or ensure the communication of the trials of the convicted religious leaders.

The bill is expected to be introduced in the House of Representatives. Political committee begins debate today on the Cuban proposal. Charge 'Rights are Violated'

The Russians contend the cases of Russian defectors and spokesmen from other Eastern European countries charged "sovereign states" were being isolated when the Assembly voted last week to let the Political Committee discuss the church trials.

The Cuban call for an investigating commission—which almost certainly would be barred from entering Eastern European countries—came as a surprise to U. S. Western critics of the trials.

WESTCHESTER TUBERCULOSIS YONKERS TUBERCULOSIS

ONE OF THE FIRST Mamaroneck residents to visit the tuberculosis x-ray mobile unit yesterday was Mamaroneck's first resident, Mayor B. J. Santoro, shown above taking his turn at the Health Center as 284 persons braved the rain to take advantage of the free service offered by the county. Appointments are still available for the remainder of the week.

1ST DAY'S X-RAYS TOTAL 394 HERE

Appointments Still Open For Free Service At Health Center

Despite the rain and chilly wind yesterday, 394 residents went to the Mamaroneck Health Center on Stanley Avenue to have their chests x-rayed by the mobile unit of the Westchester County Tuberculosis and Health Association. The x-ray truck was stationed on Flint Park Road as the first step in the general program of park clinics to fill an area for a playground in the Willow Avenue School.

Upon recommendation of Village Engineer Arthur Richards, the board agreed to fill the area between Old Colony Drive and Flint Park Road as the first step in the general program of park clinics to fill an area for a playground in the Willow Avenue School.

The village will arrange a contract with Linden and Girard, New Rochelle contractors, to excavate 60,000 cubic yards of fill from the Larchmont reservoir area, 15,000 yards to be used for the park and the remainder to be used by the contractors for their own purposes. They will render the service and pay the village \$4,700 for the 10,000 yards of fill.

Diversity is expected in about 100 days.

County Leader To Visit Post

Larchmont Post 347, American Legion, will be visited tonight in the Flint Park Club House by County Commander Frank LaRocca and his staff.

All legionnaires and their friends are invited to attend the dinner. Refreshments will be served.

A plaque will be presented to the post by Dr. Stanley S. Terdiman, the Larchmont Temple in gratitude for the use of the club house during the High Holidays last year.

Mrs. Edwin Berliner of 7 Lyons Place, Larchmont, has been appointed a trustee of the Larchmont Public Library, it was announced last night by the Village Board.

She succeeds J. C. Heckman, who will retire from the post when his term expires May 1.

Mrs. Berliner, 42, of 24 Summit Avenue, Larchmont, has retained his post as trustee of the Library, effective May 10, it was announced.

At its next meeting the board will increase the library's vacancy created by his resignation.

Short Circuit Causes Lighting Pole Blaze

Last night's storm apparently caused a short circuit in a Westchester Lighting Company pole on Barry Avenue at Mamaroneck Avenue, Mamaroneck. It was found burning at 8:15 A. M. and the blaze was extinguished by the fire department.

Mamaroneck patrolman James Hughes reported a window broken at 8:00 P. M. in the right front window at the Leading Jewelry Manufacturing Company at 139 West Street, Mamaroneck. Strong winds had apparently blown a branch through it.

Banking Rejects Red Ultimatum As Battle Takes Shape

Boys Lost On Catskill Hike Found Safe By State Troopers

WEST SHOKAN, (AP)—Four boys missing overnight on a Catskill hike, missing on a fishing trip since mid-afternoon, today rejected a Red ultimatum. The boys were members of a party of six Long Island teenagers who strayed onto a lake yesterday morning. Two returned last night and reported their companions missing on the rugged trails of the mountain in Ulster County.

Searchers met one of the boys, Alfred Schwab, fourteen, of Little Neck, coming down the trail at 7 A. M. today. Wet and cold, he reported the other three safe and well and led the searchers to their improvised camp near the mountain top.

Search ended at 9:25 A. M. L. J. Lawson of the State Police reported back to search headquarters that they had reached the boys at 9:25 A. M. and led the searchers to their improvised camp near the mountain top.

The three were William Hill, fourteen; Walter Scherffeld, fourteen; and Thomas Alpert, sixteen, all of West Nyack, N. Y. Lawson and the searchers started down the mountain immediately with the boys.

The six boys came here Sunday afternoon from Great Avenues to the Sound where the ground has been heavily saturated lately with water. The boys were in the area at high tide when the water leaks through the joints in the pipes now being used.

The area was abnormally saturated last week, he said, when high tide were two-and-one-half feet above normal because of the heavy rain. Money for the expenditure included in the plan was \$100,000.

Upon the recommendation of Trustee Arthur Hughes, the board voted to include in the contract for sewer pipe and in future contracts a clause stipulating that the cost of items purchased be based on prices at the time of delivery, not at the time the contract is made.

His request for \$297 for a fence to enclose the sewage pumping stations at Hartung Street and Willow Avenue was held for further consideration.

The Public Service Commission hearing on a proposal of the Larchmont Transportation Company to increase fares was to be held this morning in New York City.

Mayor Washburn told the board Paul O. Gussakov of 19 Summit Avenue, Larchmont, was welcomed by the mayor in his new post as chairman of the Park and Recreation Committee.

The mayor informed the trustees that Larchmont Police Chief William J. Kerney was to be given a full stop sign at Monroe and Willow Avenues and a slow sign at 2nd Avenue.

Peter F. Kane, Jr., who succeeded Trustee Arthur W. Coombs as president of the board of the General Association of Mamaroneck High School, who urged the trustees to vote for the \$85,000 appropriation to be included in the 1949-1950 budget of the Mamaroneck-Larchmont school system for the partial improvement of Mamaroneck Field and school playgrounds.

BUDGET HEARING DRAWS A BLANK

No One Appears to Revisit Opinion of Larchmont's New Tax Rate

No one appeared last night at the public hearing before the Larchmont Board of Trustees to request approval or disapproval of the 1949-1950 budget so the board adjourned after approving appointments of Larchmont city chiefs and fire company officers, discussing the purchase of new equipment and reading official correspondence.

The budget, which calls for a tax rate of \$19.50 or \$150 less than last year will be adopted at the next board meeting, May 2.

HITS NEW AMENDMENT TO U. S. HOUSING BILL

WASHINGTON, (AP)—Senator William V. Roth predicted defeat today for a move to give House and Senate Appropriations Committees final say on proposed public housing and slum clearance projects.

He said an amendment by Senators Bricker and Cain to limit the number of public housing units Senate would be "impractical."

"I don't think it will go through," he said.

The amendment would require the Housing Administrator to get the approval of both Appropriations Committees before letting contracts for public housing or slum clearance projects.

Patrick J. Ryan, chairman of the M-partisan bill, said the Bricker-Cain amendment would be impractical because the Appropriations committees are "not in continuous session."

Plans were announced for the benefit dance program to be presented by the parents of children attending schools in the district living there to become members of the State Aid Fund and explaining the need for funds for new scholarship awards.

Mrs. Tyler, chairman of the Membership Committee, reported that letters explaining that the fund proposes to grant scholarships to deserving students in need of aid to continue their education were being mailed to local organizations accompanied by a request for contributions. Letters will be sent to parents of children attending schools in the district living there to become members of the State Aid Fund and explaining the need for funds for new scholarship awards.

Huge Communist Army Poised To Storm Across Yangtze

NANKING, (AP)—An official source said tonight the Chinese government had decided to reject the latest communist demand—an act which is expected to touch off the battle of the Yangtze.

The communist radio warned that a veteran Red army of 400,000 men is ready to storm across the Yangtze in the Nanking-Shanghai area unless the government gives in.

The Reds demand an answer by tomorrow. They insist the government must grant them an unopposed crossing of the Yangtze in a "prelude to final peace talks. The Red 'price' terms amount to surrender."

The nationalists said they refused to accept the communist ultimatum. Communist raiding parties probe the cities government defenses on the Yangtze's south bank.

The nationalists said they required Red attempts to slip troops across the river on both sides of the Yangtze.

The few government bridge-heads on the north bank of the Yangtze were under mounting pressure.

Despite urgent Nanking Government appeals, prepared to defend all around the city there seemed to be an air of defeat. Clearly the communist attack was in its last hours as the nationalists prepared to surrender.

Defiant government officials, nevertheless, tried to draft soldiers from the city. They planned final hope on a plea for more time. The expiration date of the ultimatum has been extended by four days. But the nationalists are in a state of alarm ready to jump off for the fray.

The government of acting President Li Tsung-chen appeared ready to concede almost anything except that communist armies be permitted to establish bridge-heads south of the Yangtze.

Combing The Town

Fuzzy is Back today after a night at large in Larchmont. He is a two-year old rabbit owned by Carol and her mother, Mrs. Crane returned from the store, the hatch was open and Fuzzy had disappeared.

A search of the neighborhood yielded no clues but the police finally caught up with him about 8 o'clock this morning on a lawn several blocks away and returned him to his home.

"That brings the total of lost or strayed animals for the week up to three. Sunday, a bedraggled lamb was found out of the Sound, Tuesday, a piglet spent the night in a Larchmont Acres Apartment. And yesterday, it was Fuzzy, the rabbit. Cheer up, cops. Easter week is nearly over!"

Realtors Gloomy

Contrary to popular opinion, construction costs are not likely to come down much in the immediate future, Larchmont realtors decided last night as they compared notes at a meeting of the Larchmont Real Estate Association.

Although there has been a slight drop in the cost of lumber, any decrease are being offset by labor for increased wages, it was reported.

A realtor general said that business is picking up partly because of the tendency among people with old houses to price their homes "more realistically." The recent stalemate in the buying and selling of old homes resulted from owners pricing their homes too high, the realtors agreed.

School Budget Cuts Rate 17c Despite Increase of \$41,216

Rye Neck Anticipates \$86,300 in State Aid; Hearing Tonight

The Rye Neck School Board plans to spend \$41,216 more next year than this year, but a projected surplus of \$28,053 on the school system but a windfall of \$86,300 in state aid and an expected surplus of \$28,053 more than can be increased, bringing the tax rate down 17 cents from \$19.20 to \$18.43.

Principal reasons for the rise in disbursements are purchase and pension fund increases amounting to \$14,400 and an increase of \$28,832 in the item known as "Goods and Services."

On the bright side of the picture is a drop in the debt service of \$936 and the unappropriated surplus mentioned above which is \$24,429 more than was estimated last year. The actual unappropriated surplus for last year, however, has turned out to be \$22,184.

The three main divisions of expenditures are listed as follows with the last year's figures in parentheses: costs of employing people \$326,243 (\$308,844); goods and services \$1,011,088 (\$754,445); debt service and taxes, \$38,298 (\$39,301).

State aid will amount to \$86,300, an increase of \$10,000 over last year's \$76,300. The unappropriated surplus and the unappropriated surplus will give the district total credits of \$118,429.

Judging by general approval expressed last night of the Mamaroneck Village budget for 1949-1950 accompanied by little opposition to the proposed rise of 10 cents per thousand in the tax rate, few would be surprised to find that the final document is adopted.

50 residents crowded the trustees' room in the Municipal building and overheard the budget. A. J. Greif, president of the League of Women Voters appeared and there was no discussion of the budget, last night's hearing requested in requests for several changes.

Barney Epstein was opposed by several residents when he vigorously attacked the \$100 appropriation for dispensary service provided residents by United Hospital, Port Chester.

Other changes asked were for village care of its street and in-lane work rather than a \$3,000 appropriation for increased service by the Humane Society. A request for the care of Columbus Park which one resident said was a "black hole" for money.

Mr. Epstein argued that the Community Chest contributions to the hospital by Mamaroneck residents were not sufficient to cover the budgetary appropriation would be made for the hospital. He also asked for the cancellation of the \$100 appropriation for dispensary service.

The Community Educational Planning Committee, the budget of a psychologist, and provisional pay increases for teachers under the new contract were the main items of discussion last night at the Rye Neck School District's preliminary budget hearing in the Rye Neck High School auditorium.

The meeting was delayed until 10 P. M. owing to the heavy registration for the school election May 4. Many of the 100 who attended and some of the board members were held up as long as two hours in the gymnasium.

The taxpayers tacitly approved the tentative budget which, if adopted, would raise the rate from 10.4 to 11.4 cents in the tax rate even though a \$41,216 increase is proposed. Although individual budgetary items were criticized, no one directly protested the contemplated expenditure next year of \$465,000.

The board's support of the Rye Neck Community Educational Planning Committee, now studying various problems facing the district, was also approved.

Mr. Santoro said that he had no objection to the proposed increase in the tax rate. He said that the increase was necessary to cover the cost of the new school building.

Consul Reveals First Time That City May Be Attacked

SHANGHAI, (AP)—The American Consul here warned American nationals for the third time to get out while the getting is good.

Consul General John Cabot made the announcement and in doing disclosed for the first time the possibility that this industrial and financial center may become a battle field in the Chinese civil war.

Cabot urged that Americans, particularly women and children, who still can should evacuate Shanghai because the garrison commander "has informed foreign representatives that Shanghai will be defended, come what may."

The announcement by Cabot came shortly after indications that the garrison was being withdrawn and the lack of troops in the city spread another withdrawal without earlier only 40 miles from the city.

The situation was still further confused by an unconfirmed report shortly after Cabot's announcement that former President Chiang Kai-shek had arrived in the city. The report was confirmed by Gen. Ho Ying-chin, presumably regarding battle plan for the city.

It was the heaviest registration in six years and demonstrated the district's interest in the three-candidate race among taxpayers.

Combing 'The Town'

Works Both Ways

If a Town of Mamaroneck patrolman can earn a place on a radio show as a singer, there is nothing odd about a television and radio master of ceremonies being an honorary member of the police department.

Last night, Patrolman James Mancusi, appearing on Top Mack's Amateur Hour over television station WABD—Channel 5 at 7 P. M., presented Ted Mack with a night stick and, on behalf of the department, made him an honorary member.

Well known locally for his singing, Patrolman Mancusi, a member of the Larchmont Avenue Church choir, sang "Tramp, Tramp, Tramp" from Sigmund Romberg's "Naughty Marietta." He will appear on the show again sometime in June.

The Chamber office is located at 211 Mamaroneck Avenue in Room 4.

As the result of a number of calls last week, Mr. Dunn said, "we asked the company for a supply of our residents. The bus operators have assured us that they will keep us supplied."

Clinic Open Wednesday

The second of a series of immunization clinics will take place Wednesday at 9:30 A. M. at the Mamaroneck Health Center, 234 St. James Avenue. Protection will be given against diphtheria, small pox, tetanus, and whooping cough.

Mrs. Mildred Burns, supervising nurse, said today that children who were unable to attend the March clinic should bring this one, as well as those who are to return for their second treatment.

It is in full bloom and Mr. Brown has focused a spotlight on it for a night display while the blossoms last.

Our 10th Birthday

This month marks the 10th anniversary of "Combing the Town." During the war, the column was devoted solely to news of the town and, from time to time, it devoted to highlights of some major event such as a fire, an election, a disaster, etc. In general, however, it looks for such small features as articles on children's good deeds and vegetable and mineral products. "If you run across a good 'combing,' let us know."

Zeal Of Students Attracts 628 Registrants To Polls

A TOTAL OF 614 — VOTERS Pre School District No. 1, stimulated by the proposition to appropriate \$85,000 in next year's budget to improve Mamaroneck Field, the High School athletic grounds, turned out Friday and Saturday to register for the school elections May 4.

Although only 78 voters visited the registration desks at Mamaroneck Senior High School Friday, an additional 530 were processed Saturday to give the district one of the best showings since 1929 when nearly 2,000 registered, according to School Board Archibald Ross.

The total was far above the figures for 1948 and 1947 when only a few more than 100 registered. Mr. Ross said this morning. He added that the heavy registration was handled efficiently. "A steady stream of voters went through quickly," he said.

Mr. Ross paid tribute to Mamaroneck High School students for their interest in stimulating the interest of voters. The General Organization of the School and other groups have worked on a lively campaign for almost a month. In addition to publishing the campaign with tags and placards, the students persuaded the adults to petition the School Board at the preliminary budget meeting, and to attend the school in next year's budget.

Mr. Ross said that the school board is planning to provide transportation to the school. Although they have offered to baby-sit for parents in order that they might register and vote, John Thib, a member of the informal committee working on the campaign, said yesterday that the school board has been unable to do so.

The enthusiasm of the children is very remarkable," he said. Mr. Ross said. He cited instances where the students had brought voters to the door, assuring a large turnout.

Further evidence that the largely to the efforts of students is evident in the registration lines at the high school Saturday. As one voter put it, "I wouldn't have come here for the kids."

The large number of voters turned out solely in response to the school board's efforts. "It is not only our ordinary citizen but has been educated and school board candidates High B. Kirtman and Mrs. Edward P. Hellwig are unopposed.

Up In The Air Again

If Larchmont residents have any doubts tonight, it will be because of Shipreck Al Kelly of New Rochelle, who is spending the day atop the flag pole in the municipal building, installing the antenna for the Police Department's new two-way, FM radio transmitter.

Governor Dewey is expected to

make the appointment before his

departure for Europe on May 2.

The strike, which started April

halted.

Pabian Crystal, president of the

Westchester Association of Home

HARBOR ISLAND PROPOSED FOR WHS FOOTBALL

Joint Committee Advises Shift If Repair Fund Is Voted

The days of football at Mamaroneck High School's Manchester Field are over if the Board of Education accepts a joint recommendation made yesterday by a Citizen's Advisory Committee which has been working with the Board of Education and Grounds Committee to meet residents' demands for an improved field.

The recommendation advises using the outfield of the baseball diamond at Harbor Island for next year's football games and further suggests that the football facilities be moved permanently from Manchester Field to another location. Temporary removal to Harbor Island will cost an estimated \$10,000.

If an appropriation of \$85,000 for the repair and modernization of the athletic field and school playgrounds is approved by the voters May 2 the committee recommendation will go before the board for action.

The plan would necessitate moving all but the permanent bleachers to Harbor Island, using the village-owned bleachers and for admission purposes, existing fences down the first and third base lines.

A substantial part of the \$85,000, if appropriated, should be used to construct a new baseball play area and baseball field at Manchester Field, the report also described the background and aim of their "Democracy in Action" campaign, a plan to establish relations between Larchmont and Abbeville, France.

Timed to coincide with a major drive next week when residents will be asked to give 6,000 bags of food for shipment to Abbeville, the 62-minute program featured Lions Club President David M. Ulan and Joseph Day, Charles L. Crenshaw, North American director of the French Broadcasting System, the Larchmont Lions at yesterday's luncheon meeting at Felix's Restaurant.

The first to be interviewed by Mr. Crenshaw was Ulan, who said the Lions thought of adopting a European town last year and selected Abbeville upon the advice of Dr. Daniel O. Karrel, chairman of the committee in charge of the program.

Mr. Day, a member of Dr. Karrel's committee, outlined the plans for next week's drive. 'Boy Scouts' will deliver 6,000 empty, 25-pound paper bags to all homes in Larchmont on Sunday, May 8, the bags, filled with needed items, will be collected,' he explained.

Having visited Abbeville while in France, Ulan also told of the contributions already sent to Abbeville, of soap and rice given by students of Larchmont grammar schools, and an Easter gift, a shipment of jelly beans, sent by the Lions.

Dr. Karrel, who pointed out that half of the building program will be located in the town of Tilly, 5150 GHI.

He said it came from 13 children and other youths living in isolated areas of that community. He also told of the surprise donation given to the development of the diocese, the Rt. Rev. Charles K. Gilbert on Easter Sunday.

The money, in nickels and dimes, had been collected by a group of boys in the Larchmont section. Rev. Lynde E. May 3rd of York, dean of the convocation, said the development of the diocese is any work during the past year.

Members of the convocation authorized a memorial resolution honoring the late Thomas Powers (Rt. Mr. Powers had been a member of the diocese).

3-Week Search Yields No Clue To Six Youths Lost On Ship

The completion in about two months of a sisters' home in a convent on Underhill Avenue adjoining St. Vito's Church in Mamaroneck, will be one more material monument erected through the fruitful efforts of the Rev. Biagio Del Negro who in 22 years has not only built a strong Catholic parish here but has endeared himself to residents of all faiths.

His dream for years has been the establishment of a parochial school in his parish. "But," he says, "that would cost about \$300,000 to build and a man of my severity as best as I can let the next pastor avail that of his own."

What can anyone do without God's help? he asks. "If anything has been done it's due to Him not to me. I am an instrument of God. The glory belongs to Him."

He hopes that two or three sisters will be sent to his newly constructed convent to take care of catechism classes in the church, to instruct children in the background and faith of the church and to pay social visits to parishioners. When they will be sent to the two-family home next to his garden, which was purchased last year, he can not predict.

One of the contributions to Mamaroneck for which the kindly, white-haired pastor is most admired is his success in wiping out the remaining \$10,000 mortgage on his church.

St. Vito's church was built in 1930 survived the depression with a \$102,000 mortgage hovering foremost among Father Del Negro's many worries. About \$80,000 interest accumulated before the debt was paid to the Central Hanover Trust in New York, whose vice president, Francis J. Goldman, a former Mamaroneck village trustee and a benefactor of the church, was instrumental in arranging the mortgage.

Generous donations from parishioners and the many friends outside the congregation plus proceeds from the annual church bazaars has finally made St. Vito a debt-free parish. Today the financing of church construction unless half of the investment is paid at the outset, Father Del Negro said.

Pact To Strengthen U.N. In Preserving Peace, Austin Says

WASHINGTON (AP) — America's chief delegate to the United Nations told Senators today the North Atlantic Pact will strengthen the U. N. and "increase its ability to remove causes of war."

Warren R. Austin made the statement before the Senate Foreign Relations Committee in urging approval of the treaty as a step toward peace.

"I firmly denied the 12-nation alliance would destroy the United States," he said, "and the efforts toward international unity."

"If the North Atlantic Treaty is approved," he said, "it will be a step toward international unity. The United Nations charter and of the treaty should be signed by the United States and should provide assistance to the other pact countries."

Austin, a former Senator himself, followed Secretary of State Acheson's reading for approval of the pact.

Some Senators, however, said that past testimony yesterday may have cost the treaty vital Senate support.

They referred to his statement that a vote for the treaty would be an endorsement of the administration stand that "the United States can and should provide assistance to the other pact countries."

Acheson was being questioned at the time by the Senate Foreign Relations Committee to learn friendlier European countries.

Austin told the committee the "cold war" is turning against the Russians and this realization is

HOSPITAL FACES \$83,000 DEFICIT

United Reports Operating Loss Over Period of Six Months

For the first six months of the present fiscal year, ending March 31, United Hospital of Mamaroneck is operating at a deficit in the main hospital of \$83,000 and an out-patient dispensary deficit of \$3,281, making a total operating deficit of \$86,281, according to a statement issued today by Samuel N. Comly, hospital treasurer.

The supplementary income for the same period from endowment funds and other sources, donations from friends, had accounted recovery, etc., totaled \$7,338, leaving a net deficit for the six months of \$107,619.

The above supplementary income less the operating deficit, says Mr. Comly, does not include special donations of \$28,800, but a statement of the Board of Managers through the Board of Managers for new Hospital equipment.

Mr. Comly pointed out that last August at the request of the Board of Trustees and the different Community Chests, Richard C. Leavitt, hospital superintendent, made up an estimate as to the cost of operating the main hospital for the next six months taking into account the increased costs and the new 40-hour week for hospital employees.

Mr. Leavitt estimated that the hospital would have \$1,498 patient care days at a cost of \$174 per patient per day, or total expense for the next six months of \$259,800, an increase of \$24,470 over the previous year for the same period.

The actual six months costs figure, says Mr. Comly, were \$259,800, an increase of \$24,470 over the previous year for the same period.

Mr. Leavitt's estimate. The number of patient care days was 30,614, or 62¢ the cost per patient per day was \$1794 up \$45-quite a

The audience of seven spectators who paid five cents admission each, when the performance was over the proceeds were given to Mrs. Theodore Hinderstein, chairman of cancer drives for the Mamaroneck Cancer Committee who has been encouraging neighbors to contribute to the fund campaign. She saved each child a sticker as evidence that the contribution had been received.

Members of the circus audience included Billy Gunn, Richard Knopf, John Leland, Mary and Lydia Way, Judy Platt and Jack Davenport. Billy returned a half hour later. Mrs. Hinderstein said today, with an additional 25 cents to contribute "on his own."

The animal, owned by Robert Bode of 533 Walton Avenue, was escorted home at 4:20 P. M. yesterday by the Mamaroneck police after engaging in a brawl with several chickens. Robert Bode, with a dog owned by Phyllis Labriola of 112 Spruce Street, Mamaroneck, yesterday also reported a dog killed at 9 A.
