False Alarm

There was no fire yesterday at Priolo Inc. at 123 River Avenue, Mamaroneck, when the hose tripped off at the fire. Some mechanical reason, but there was an accident and an injury directly resulting from the false alarm.

The Hook and Ladder Co. 1 truck struck a hydrant and damaged a female fire hydrant and Mamaroneck Avenue when, hurrying to answer the alarm, it seemed to avoid a car driven by an unidentified woman. Firemen said the woman would not ask the fire truck the right of way.

Daniel Courts of 123 Mamaroneck Avenue, Mamaroneck, suffered a lacerated scalp, first degree when he cut it open on the fire truck on his way to Priolo's. He was treated by Dr. R. H. Hunter.

Broken Teeth

Probably the only real tragedy in yesterday's accident when one bus burned another bus, injuring a number of passengers, was suffered by R. E. Nelson of the Bronx.

Mr. Nelson, a passenger in the second bus, slipped out after the accident had been removed holding his broken teeth in his hand. As far as could be determined, only his teeth were injured.

Praise For Ranger

Larchmont streamer who responded to a call for fire in Front Park at 3:15 P. M. yesterday were loud in their praise of the work of Charles Finch, president of the Mamaroneck Rangers Conservation Club who arrived almost as soon as they did and worked hard to extinguish the blaze before it could do any real damage.

Young Finch arrived on his bicycle with an Indian pumped strapped on his back equipped with other tools. Finches braved fire. He pitched in, and "did a damned good job," as one fireman expressed it.

"It's too bad more kids don't get interested in what he is doing," he added.

The Emergency Truck and the Hose Company apparatus responded to the alarm. Rescue came at 4:20.

At 4:20 P. M. Mr. T. W. M. of Mamaroneck Avenue, who lives at the home of Lincoln L. Stevenson, 27 Villa Road, where they found a washing machine motor.

Rooming Children

Two young ladies, Carol Allison, five, daughter of Mr. and Mrs. William Allison, 611 Rushmore Avenue, Mamaroneck, and Toni Combs, three, daughter of Mr. and Mrs. William Combs, 621 Fairway Avenue, Mamaroneck, were found in the Combs' home yesterday and before they were finally located they were a mile away from home in the town of Mamaroneck.

After notifying police that the girls were missing, Mr. Allison found them on Weaver Street in the town.

Bluest question posed by the girls' walking tour was how they got across the Hudson River where the traffic has stopped many an adult attempting to negotiate the road.

Dr. Dattner A Major

Dr. Harold L. Dattner of New Rochelle, whose dental office is located at 2 East Avenue, Mamaroneck, has been named as a major in the Air Force and left yesterday for Monterey, Cal., for orientation training.

A graduate of City College of New York and a 1939 graduate of Columbia University School of Dentistry, Dr. Dattner is a specialist in oral dental surgery and has been on the staff of the Roosevelt Hospital, West Island, in that capacity. He has also been active in the Ninth District Dental Association.

Mrs. Dattner and son, Allan, nine, and Robert, six, expect to join him at Boston Air Base, Mass., where Dr. Dattner will be assigned following the orientation program.

Gill Commissioned

William L. Gill, son of Mr. and Mrs. Lester M. Gill of 140 Madison Drive, Larchmont, was commissioned yesterday a second lieutenant in the Ordnance Corps Reserve upon completion of a six-week training course at Aberdeen Proving Ground, Md.

Mr. Gill is a graduate of the Hermon School, Mt. Hermon, Mass., and of Lafayette College, from which he was graduated in June.

During the six weeks encampment he spent two weeks in bivouac at Letterkenny Ordnance Depot, Chambersburg, Pa., learning the operations of field service. He also spent time at the Ordnance Depot at Philadelphia, Pa., observing the development and manufacture of ammunition.

He plans to take a six-month training course in engineering at the Worcester Polytechnic Institute in New Jersey before going into service for a two-year period.

Matarazzo, 429 Fourth Street and Sal A. Matarazzo, 129 Westchester Avenue, who will be assigned to the plant at the end of the month.

Mr. Matarazzo, 30, is a graduate of the Westchester County High School, and Mr. Matarazzo, 30, is a graduate of the Westchester County High School, and Mr. Matarazzo, 30, is a graduate of the Westchester County High School.

State Funeral Plans For Taft Discussed; Thongs Pay Tribute

WASHINGTON (AP)—Congressional leaders arranged today for a state funeral for Senator Robert A. Taft, probably on Monday, who died in an automobile accident on the way to his home in Cincinnati.

Jack Martin, administrative assistant to the late Senate leader, told reporters this had been agreed upon after a conference in the office of J. Mark Tamm, secretary of the Senate.

Attending were Senate and House leaders and Sherman Adams, administrative assistant to President Eisenhower.

Mr. Taft, 61, died in a head-on collision with a car driven by a woman on the way to his home in Cincinnati.

The Taft's Victorian red brick residence in Washington's Georgetown district kept a high burning fire for several hours last night. Messengers with telegrams and flowers kept appearing in the night.

Cars drove up the quiet shaded street, paused and drove on. Mrs. Taft—survivor of the "bob and martha" term which had shared many a year of political campaigning—remained in her upstairs room. Confined to a wheelchair, she had flown to New York earlier this week for a bedside visit with her fatally stricken husband.

Mrs. Darragh Wunder of Cincinnati, Ohio, who had been in the car which was struck by the car, said she was not hurt.

Russian Craft Seen Over Japanese

Areas Too

WASHINGTON (AP)—Russian planes have appeared over the point perimeter of the North American continent and Great Lakes, where the U. S. has air bases and other defenses, about a dozen times within the past year.

And the average of similar scouting expeditions over Japan averages about the every two weeks, a well-informed Air Force source said today.

This information was made available to answer questions arising out of the incident two days ago in which Soviet planes shot down an American B-50 bomber while U. S. officials said it was flying 40 miles off the Korean coast over the international waters of Japan.

The information was received before Russia formally protested that four U. S. B-50 bombers had violated the Korean border last Monday.

The exact number of incidents involving foreign or Soviet planes in the Arctic, the zone, location and circumstances—none of this may be known. But in only one instance, already reported, were planes fired at.

When the Russian aircraft reconnaissance planes—when the foreign craft made a firing pass at the U. S. planes which discovered them.

Last Feb. 17, two Russian reconnaissance planes were discovered by U. S. B-50's. The planes were shot down by U. S. B-50's.

WASHINGTON HITS MOSCOW PROTEST

Curious Timing Of Red Message About Plane Seen Propaganda

WASHINGTON (AP)—U. S. officials drafted today a rejection of Russia's protest that American pilots shot down a Soviet plane and pondered the curious timing of the Russian communication.

American fighter planes downed the Soviet jet, according to U. S. officials, in the days following the Korean War. The United States said it was over Red China. But the Soviets waited four days before protesting.

In the meantime, on Wednesday, their MIG 15 fighters had attacked and destroyed a U. S. bomber off Siberia. They charged the aircraft violated the Korean border. The U. S. denied this, protesting "in the strongest terms."

U. S. officials wondered, considering the curious timing of the Russian protest, whether the Russians had delayed and then protested. Were they attempting a bold coup for their own sake?

DENVER (AP)—President Eisenhower, trying to avoid calling a special session of Congress, today called for a reduction of federal spending "with renewed vigor."

In a letter to the heads of the federal departments and agencies, the President said:

"Every since the date of inauguration, every member of this administration has been called to the purpose of efficiency and economy in government."

White House press secretary James C. Hagerly made the letter public at the President's news conference here.

Mr. Eisenhower, in calling for a new drive to reduce federal spending, was trying to avoid calling a special session of Congress.

Cabana Foes Accuse
Village Trustees Of
Lacking Cooperation

Temper ran hot last night at a meeting of the Mamaroneck Village Board when allegations were made by representatives of the Shore Acres Property Owners Association that the Village was being inadequately represented and that the Village Board gave "no cooperation" in the fight of the Shore Acres group to oust the Mamaroneck Beach, Czeck, and Yacht Club from the shore.

The club has been attacked by the association on the ground that its presence there is in violation of Village zoning laws and that the club is violating State liquor laws.

The hottest exchange occurred when Arthur E. Allen of 491 South Barry Avenue, Mamaroneck, pressed a question as to whether Anthony Sanoche, village attorney, thought that the New York State Liquor Authority had been right in refusing to grant a liquor license to the club on the grounds that it is not a "bona fide" non-profit organization.

Mr. Sanoche answered that he was aware that some points in the cabana club's application needed to be cleared up.

Americans Return

PANMUNJOM (AP)—A bitter band of defiant Americans came back from their new prison camps today—wearing vengeance on weaker comrades who turned within the belly of "reactionary."

They spat out "progras" as a dirty word, and wore with honor the badge of "reactionary," fastened on them by Red Cliches who gloated and gloated them but did not break their spirits.

One tough American had to be held back by force when he spotted a "reactionary" at the Freedom Village reception center.

"I'll get that—when I get home," he said.

One hundred Americans came back from the North, along with 31 British, 25 Turks and 230 South Koreans in the seventh day of the Korean War prisoner exchange.

Meanwhile, 235 Americans remained behind in the North, including Nelson M. Walker for the 140th-150th day of the Korean War prisoner exchange.

All were released as healthy. The original group of 100 at Travis Air Force base near San Francisco were being returned.

A plane departing 17 seriously ill Americans, all other patients, included 48 Americans of the 3d Air Force, 25 British and 23 Turks are scheduled to return Wednesday.

The U. N. Command has returned 29,464 of its 74,000 Red prisoners. Another 100 Americans, 200 British, 25 British and 23 Turks are scheduled to return Wednesday.

The latest group of Americans released were the "reactionary" prisoners. They were bitter men among the first group of the regular G.O.P. who were released.

At Camp Kilmer. Mrs. Plinton V. Crowley, of the Barbara Apartments, 4 Chautauque Avenue, Larchmont, is awaiting discharge at Camp Kilmer, N. J., where he is stationed after 18 months service in Korea.

A veteran of World War II, Sgt. Crowley resented in this service in August, 1950. He is a graduate of Mamaroneck High School and was employed in the Larchmont Post Office before he returned to service. He is a member of the Larchmont No. 1 of the Larchmont Fire Department.

Missing A Boat? "Anyone missing a rowboat?" A submerged boat was dragged to shore from the Mamaroneck river yesterday and the Premium Point caretaker, Michael Sayers, hasn't been able to find its owner.

He told Patrolman Louis Torres of the Town of Mamaroneck that it doesn't belong to any resident of Premium Point. Discovery of the boat was made not far from the point where the body of Anthony D'Amico, who drowned last Saturday night, was recovered Tuesday.

Car Tampering. Pranksters turned the Larchmont Area area into a bumper nightmare for auto owners last night as three apartment residents complained to the Town of Mamaroneck police that unidentified persons had tampered with their cars.

Edward J. O'Rourke notified police at 8:30 P. M. that he had found his car parked in a lot on Palmer Avenue. At 9:42 P. M. Milton A. Case filed a complaint of damage to the car tank of his car, and at 11:00 P. M. Frederick C. Adams reported that his car had been left out of the lot of his car.

The youths probably wouldn't have gone far with the cycle anyway since it had a flat tire, no registration plates and was out of gas.

400 More Liberated As Reds Claim Right To Detain Prisoners

CARPENTERS QUIT AFL IN PROTEST OVER BICKERING

Powerful Union Severs Connections As Climax To Merger Action

PANMUNJOM, (AP)—An other 400 prisoners of the Communists became free men at the dusty village today even as the Reds warned ominously that they have the right to hold back all prisoners facing or serving jail terms.

Prisoners freed today in the fourth day of the cease-fire were 75 Americans, 75 British and 250 South Koreans. Most of the captives appeared heavily as they bounced from the Red trucks that brought them to freedom.

This was the first large group from Camp 1 at Chongson. At least all POWs returned previously were from Camp 4 and prisoners on the Yalu River. However, the stories of Pyongyang, informers and cruelty in the camp 4 strike a note heard here from the Camp 5 veterans.

Reds Annul Jailing POWs. Meanwhile, Red China's harsh wartime backed stories from returning prisoners that buddies had been left behind, and were to jail for terms up to three years by the Reds on such charges as "indignities against peace." U. S. Secretary of State Dulles warned the Communists Tuesday that the U. S. Command would not return Red captives convicted of crimes "until the Communists agreed to return the Communists toward peace." He said the U. N. wanted the Communists to return the Communists.

However, Peiping radio said that the U. N. Command provides that prisoners facing "criminal" proceedings for an indictable offense may be detained until the end of such proceedings, and, if necessary, until the completion of the punishment. The same shall apply to prisoners... all ready convicted.

Peiping Says Dulles Lied. Peiping charged Mr. Dulles with "blackmail" in his offer of retaliation and said that while it doesn't belong to any resident of Premium Point. Discovery of the boat was made not far from the point where the body of Anthony D'Amico, who drowned last Saturday night, was recovered Tuesday.

Work on the new Mamaroneck Council 247 Knights of Columbus clubhouse officially not under way last night when ground-breaking ceremonies for the structure were held on Spencer Place, Mamaroneck.

The new clubhouse, Mr. Kirvan said, will yield benefits to both the Knights of Columbus and the community. Mr. Amico congratulated the local Council and said that he promised his full support toward completion of the building project.

Mr. Lanza, who presented the plans, said that the ground-breaking ceremony was the first of a series of events planned for the new clubhouse. The clubhouse will be a two-story building, 247 feet long and 40 feet wide, and will contain a gymnasium, a kitchen, a dining hall, a lounge, and a bathroom.

County To Escape Hurricane

Noted Blizzard Prophet Says

By DONALD J. FRASER

Westchester will experience no tropical hurricane this season, predicts Francis J. Sweeney, 31, Valhalla's accurate prognosticator for New York's "blizzard of '53."

But hurricane-weary Floridians will be seeking this season with a right cross when a Nasau-born storm crosses South Florida and Key West between Aug. 25 and 29, says the weather prophet.

Although Sweeney predicted no full hurricane for Westchester and area, he indicated that the Red Sox would back all prisoners who must on repatriation.

As the commission met, 31 Americans and 32 other Allied captives were taken from the Red Sox, already had been freed. Dulles' retaliation.

U. S. Secretary of State John Foster Dulles warned the Reds to send back every Allied prisoner and threatened to hold back some Communist POWs as a safeguard against any Red hold-up.

314 Prisoners And Nine American Guards Suffer Injuries

PANMUNJOM (AP) — The U. S. Command said today South Korean civilians stoned taunting Communist war prisoners moving north for repatriation yesterday, during 314 Reds and nine American guards.

The outbreak of violence near Inchon brought no immediate echoes at this daily village where 400 more Allied prisoners were freed from Communist prison camps today.

Fifty Americans, all of them apparently hale and hearty, were among the group freed on this the 11th day of the great prisoner exchange.

Nine other prisoners liberated earlier—eight seriously ill or disabled—were due at Travis Air Force Base near San Francisco after a flight across the Pacific.

The U. N. Command said some one-half million Communist soldiers and civilians were still in the hands of the Reds.

Today's liberated Americans added to the scores of Red POWs stockpiled. And Communist troops continued the war of nerves over the holding of some prisoners.

Protests from Reds
Peking said the Reds had protested to the American Red Cross Commission against what it called "the forcible retention of a number" of Communist prisoners due for repatriation.

The broadcast accused the U. N. Command of "a policy of turning back to the Reds."

Hurricane Hits Coastal Area, Moves To Sea

New England Escapes Brunt of Season's First Storm

BOSTON (AP) — New England escaped the brunt of the first hurricane to strike the United States today as the storm moved out to sea south of Nantucket but coastal areas were hit with heavy rain.

At 6 A.M. the hurricane centered a short distance south of Nantucket Island. The center was moving east-northeastward at 30 miles an hour, the Weather Bureau said. Highest winds were estimated at 75 miles an hour over a small area near the center and seas extended outward 100 miles.

CAPE GETS 60 MPH GUSTS
Cape Cod and Nantucket had gusts up to 60 miles an hour just before dawn at the peak of the storm.

The Weather Bureau said the center was expected to continue in an east-northeastward direction and be about 200 miles east of Cape Cod by noon.

The Coast Guard said early today it had received no reports of any damage nor any calls for assistance.

The hurricane, termed B for Barbara for the second letter of the alphabet, was the first to strike the coastal United States this year, although the first hurricane of the season, the first to strike the Gulf Coast, struck near the Gulf coast.

The strong winds missed Long Island, N. Y. New York Coast Guard headquarters, responsible for all of Long Island, said it had no word of excessive damage such as occurred over North Carolina and Virginia coastal areas, storm-tossed.

Storm-tossed were reported at 40 miles per hour at Montauk, 225 miles from the tip of Long Island. The Coast Guard said the center of the hurricane passed the island about 100 miles.

About 14,000 persons had fled from Long Island coastal towns, moving inland to friends' homes and hotels.

The hurricane caused at least five deaths and more than 25 million dollars' worth of damage in fields of crops in North Carolina and swept over the Virginia coast.

An estimated 30,000 people evacuated from the governor of Maryland, Atlantic City, N. J., received 12 1/2 inches of rain and strong winds.

UN TRIES TO HEAL ANGLO-US BREACH

Britain Not Committed To War If Rhee Violates Truce, It Indicates

UNITED NATIONS (AP) — The 16 nations that fought under the U. N. banner in Korea read another try today at patching up the British-United States differences over the proposed inclusion of North Korea and the Soviet Union in the forthcoming Korean political conference.

Delegates gathered at U. S. Marine headquarters for their third private haul on the issue, only a few hours after the British government declared it was not committed to a renewal of the Korean War if the armistice were broken by any nation on the U. N. side.

The declaration, apparently timed at South Korean President Syngman Rhee, who told a mammoth rally in Seoul today that "it is our wish and determination to march north to the earliest possible time for the unification of divided Korea."

The United States has insisted that the makeup of the political conference followed British opinion, and that the United States would not be bound by the political conference.

Mr. Marshall Beringer, 9 Glen Avenue—Yes, I think the debt limit should be raised 10 billion. I think it should be raised for national defense and security.

Teamsters Union Leader Chosen To Succeed Hutcheson

CHICAGO (AP)—The AFL executive council, which has been meeting here all week, named Dave Beck, 315-year-old president of the Teamsters Union, as its new vice president and committee member to succeed William Hutcheson, head of the 800,000-member Carpenters Union.

Mr. Beck, a fast-rising labor leader, has been reported in some quarters as dining with member teamsters union out of the AFL and into an alliance with John L. Lewis United Mine Workers, an independent union.

Soviet Demands Korea Forces it At Peace Table

UN Committee Rejects Red China, N. Korea As Participants

UNITED NATIONS (AP)—Russia announced today that the Korean peace conference be made up of five so-called neutrals in addition to the countries which took part in the actual fighting. The Soviet resolution called for the inclusion of the following countries: The United States, Britain, France, Russia, Communist China, India, Poland, Sweden, Burma, North Korea and South Korea. The Soviet move came as the General Assembly's 60-nation Political Committee rejected a Russian demand that Red China and North Korea be invited to take part in the current U. N. Korean peace talks.

Russia's effort to turn the Korean issue into a sort of round-table affair contrasted sharply with the United States demand that the talks be restricted to the countries which fought in Korea. The committee plunged head-on into the general debate after turning down the demand for inviting Red China and North Korea. The Soviet move was seen as an attempt to bring the Korean issue into the hands of the Red Chinese and North Koreans.

Mr. Harriott had previously been engaged in the Korean issue when, due to an "accident" bill, he had gone out on an eight-month patrol and had run into heavy fighting. He and one other Marine walked back from the front. Three others were carried back wounded and two were killed. Mr. Harriott had the shrapnel blown off during fighting.

"It is just prayers that have brought him back," his mother said this morning. Mr. Harriott has been in Korea since November and took training at Camp Pendleton, Calif., and Parris Island, S. C. He was a basketball player at Bellevue High School where he graduated in 1950. He was also a member of the Paramount Squad and the winners of the Y.M.C.A. team following graduation.

UN RAPS CHARGE OF BRUTALITY TO RED PRISONERS

Allied Command Bluntly Denies Claim; 75 More Americans Freed

PANMUNJOM (AP)—The U. N. Command today bluntly denied Communist charges that prisoners have been brutally treated. It told the Red the physical condition of repatriated POWs proved the accusation was a "distortion of the truth."

The denial was made at a meeting of the POW Repatriation Commission and answered Communist charges leveled last Friday.

Another 13 Americans were released here today, bringing the total prepared to sail for home with men freed earlier by the Reds.

U. N. members of the commission reportedly planned to hand the Red a list of 100 prisoners, but Col. L. C. Presser, chief of the American Red Cross mission, said he had no mention of it in talking with newsmen after the session. There were indications the U. N. Command did not deliver the list, which would have been a major Red accusation of brutality were it released.

Col. Presser said the Red accusations of brutality were "intended to discredit the U. N. Command." The Reds had charged the Allies with a multi-million dollar humanitarian crisis in using toxic gas to poison troops in Korea.

MOSSADEGH RILE OUSTED BY ARMY, TEHRAN REPORTS

Premier Escapes; Foreign Minister Slain; Fugitive Leader Asked Home

TEHRAN, Iran (AP)—A Royalist uprising in Premier Mohammad Mossadeq's army and police flared in Tehran today with pitched battles in the center of the city. The first destruction efforts of police and troops loyal to Shah Mohammed Reza Pahlavi to capture the Central Post Headquarters was beaten off by a few hours today.

LONDON (AP)—Tehran radio said today that Royalists in Iran had overthrown Premier Mohammad Mossadeq's government and had sent an appeal to the young Shah to return to Iran.

"At this time the people have been able to capture the capital. We are eagerly waiting for your return," said the broadcast.

There was no confirmation of the report that the Royalists and the Army had overthrown the aged and averted Mossadeq, who has gradually tightened his grip in more than two years in office.

Subsequently a Tehran broadcast said that Mossadeq had escaped but that Foreign Minister Mohammad Reza Pahlavi had been killed.

Shah Mohammed Reza Pahlavi is believed to have fled to the United States.

That's not bad, considering that it takes six or seven days for regular mail to reach here from Germany," Mr. Salimini observed.

Encouraged by that response, he placed an advertisement in the West Berlin newspaper asking Germans to assist him in his campaign against the Communists. He has received hundreds of replies—last Friday.

MRS. ROTHSCHILD ALSO WON'T TALK

Refuses to Answer Queries On Espionage and Communist Activity

WASHINGTON (AP)—Mrs. Edward Rothschild refused today to say whether she has ever been a member of the Communist Party or whether she had helped her husband do so.

The request came from Mrs. Harry M. Gold, a leader of the Government Printing Office who was suspended from his post yesterday after he declined to tell Senate investigators whether he was a Communist or whether he had been a member of the Communist Party.

As did her husband, the slender, dark-haired Mrs. Rothschild told the Senate subcommittee committee headed by Senator McCarthy, R., Wis., that to answer questions about her husband's activities would be to "aid and abet" the Communist Party.

McCarthy charged New York Senator McCarthy announced today a session that he plans to hold in the future on another matter.

Men Parachute From Ship As Flaming Wreckage Flies Over Desert

PIACHO, ARIZ. (AP)—A B-50 bomber exploded in the air and scattered flaming wreckage over a wide area of the Arizona desert near Piaccho Peak early today.

The 11-man crew parachuted from the four-engine ship. Several were reported injured and the main county Sheriff's office said one had died at the scene.

A ground rescue team from Davis-Monthan Air Force base at Tucson was summoned. Ambulances from nearby towns also were called.

The plane, based at Davis-Monthan, was from the 8th Bomb Squadron of the 4th Bombardment Wing.

First word of a crash came shortly after 3 A. M. Pete Van Notten, Town Marshal at Florence, Ariz., said he saw a flash in the sky, shortly after 3 A. M. Police said the plane had been flying over the desert near Piaccho Peak, midway between Florence and Phoenix.

He said he counted 11 parachutes and believed all had cleared the ship before he bailed out. The wreckage was scattered over a wide area it could not be immediately located. It all had gotten out of sight. Eight had been found by 6 A. M.

94 American POWs Return From Camps Too Ill To Rejoice

PANMUNJOM (AP)—Mobilizing and stretcher-borne American and Canadian soldiers—many still suffering from recent battle wounds—were liberated here today as the Reds made the first deliveries from three more North Korean stockades.

Many of the 94 American and other non-Korean repatriates of the 18th daily exfiltrate were white-faced, bandaged and too ill to rejoice, in grim contrast to the relieving British Commonwealth and U. S. returnees of North Korean stockades.

An American Marine, Cpl. Steven E. Drummond, said some of the Americans came from Camp No. 9 near Kanggye. He said it held only 12 small craft at 10:15 today for a weekend cruise and picnic outing to Lloyd's Harbor off Oyster Bay, L. I., according to Publicity Chairman Harry Bogart. Members and guests were expected to return tomorrow evening.

Cabana Club Granted State Liquor License

The Mamaroneck Beach, Cabana and Yacht Club was granted a liquor license yesterday by the State Liquor Authority after a favorable decision had been given on evidence submitted by the club at a hearing in New York City, Sept. 15.

The cabana organization reapplied for a license after the first application had been turned down at a previous hearing on June 9. At that time the group had been refused permission to dispense liquor on the premises at the foot of South Bay Avenue in Shore Acres on grounds it was not a "bona fide" club.

The reaplication evidence submitted by Norman J. Elliott, vice president of the club, and Harry C. Davidson, attorney, disclosed that the organization of the group along social club lines had been completed and a list of officers and club by-laws were introduced.

Officers of the Shore Acres Property Owners Association fought the reaplication as they also contested the original application for the license. Several officials and residents of Shore Acres attended the Sept. 15 hearing.

Previously, on June 9, some 15 members of the association had successfully introduced evidence supporting their viewpoint that the cabana group was a profit-making organization and not a social club.

The club has been under continual fire for the property owners' association since last winter on grounds that it had violated both state liquor laws and Village Board meetings as well as Mamaroneck zoning laws.

The bitter fight came to a head when the association brought the application for the license to the Village Board meetings as well as the State Liquor Authority.

At a Village Board meeting on Sept. 15, the association charged that the Village Board was not cooperating in the fight to stop the club from the premises. Village officials, however, have agreed to maintain a neutral position.

India Quits Battle For Seat At Korea Peace Conference

U. S. Opposition Leads To Move Averting Certain Defeat

UNITED NATIONS AP — India averted a defeat in the U. N. general assembly today by withdrawing as a possible participant in the Korean peace conference.

The announcement was made by Indian delegate V. K. Krishna Menon, who said that the assembly prepared to act on proposals for setting up the peace conference.

Mr. Menon referred to the states represented by the United States and the Latin American bloc in the Political Committee and said:

"I think the purpose of peace is best reached by not forcing the resolution on India in this Assembly."

Defeat Was Certain
India's defeat would have been certain in view of the fact that yesterday's 72-1 vote in the Political Committee was far short of the required two-thirds majority.

Mr. Menon said, "We hope those who have withdrawn support of the resolution will be able to do so without the resolution to the peace conference."

RAIL CONDUCTORS SCHEDULE STRIKE STARTING SEPT. 10

35,000 To Walk Out Over Demand Pay Rate Be Set By Size Of Engine

CEGAR RAPIDS, Iowa (AP)—The Order of Railway Conductors, seeking more pay for its 35,000 members, has announced it will begin a strike on some railroads at 6 A. M. Sept. 10.

The strike action was announced in Chicago yesterday by an aide of T. O. Hughes, OMC president, and confirmed by an OMC spokesman here.

Mr. Hughes' aide, James Padgett, said the strike was caused by conductors' demand for a pay rate structure.

The conductor now finds himself below the fireman, who is subordinate to him," Mr. Padgett said.

To Ask Graduated Pay Rate
The conductors are seeking a graduated rate of pay. This means that the better the engine on a train, the more the conductor's pay would be. Engineers and firemen already have a set graded rate, based on the power of locomotives.

Letters outlining strike procedure were sent by Mr. Hughes to local chairmen of the union. Steve Delaney, Clinton local chairman, said the letter made all conductors on all railroads will not be called out simultaneously.

Prepared To Expand Strike
The OMC however, is prepared to consider expanding the strike until an agreement is reached regarding the graduated rate of pay for conductors.

In Washington, a spokesman for the National Mediation Board said the present dispute is an unsettled demand, dating back to 1949 for the graduated pay rate. The conductors settled their last dispute with the railroads in May, 1952, when the OMC and the railroads signed a separate agreement.

Under the 1952 agreement the union withdrew temporarily its demand for the graduated pay rate and agreed to a new pay for other contract changes.

The union now insists, however, that it should be renewed the demand. But the railroads oppose the demand. The railroads want the conductors to remain on the job until the matter is settled.
