Seeing Double

Two girls named Joan were graduated last June from the Mamaroneck Senior High School. Both live in Larchmont, Joan Golden, daughter of Dr. and Mrs. Ross Golden of 11 Elm Eagles Drive, and Joan Sparrell, daughter of Mr. and Mrs. Lester S. Sparrell of 19 Avon Road.

In September, the former classmates left to pursue high education. Both chose Bucknell, and after the first few hectic registration days had passed, found themselves residing in the same dormitory. This week, national activities at the college announced their pledges for the year, and on the last for Alpha Chi Omega, are two Joans—Joan Golden and, of course, Joan Sparrell.

16th Legion Paper Drive Tomorrow

Veterans Hope For Big Collection To Hasten Clubhouse Completion

FUND IS NOW \$8,600

Blasts from the new village fire soon at 1 P. M. tomorrow will set crews of Mamaroneck Legion Post 90 workers out on their 16th community-wide waste paper collection.

Harry T. Leikert, director of the bi-monthly pick-ups, today called on residents to have their paper out early tomorrow, securely tied in preparation for the 10 trucks that will show up at four every street in Mamaroneck.

Mr. Leikert also made a special appeal to the Legionnaires to assist at the freight yards promptly at 1 P. M. to start the loading of the two or three freight cars waiting on the tracks for their waste paper cargoes.

The last Legion collection was held on Sept. 15 and Post leaders are hoping for a record pickup tomorrow to swell the fund of \$8,600 already realized through the 15 previous drives. Trucks received through the sale of the waste paper are being used to complete the renovation of the new Legion clubhouse now near its final stages.

A loud speaker truck is tomorrow calling on all residents to cooperate with the Legion in this latest collection.

Wheels Rip Off Truck, Break Store Windows

A freak accident occurred early this morning on Boston Post Road near Elm Street, Mamaroneck, when a tractor-trailer truck crashed into two store fronts on the Post Road, breaking or cracking six windows.

The driver, David Brooks of Philadelphia, was uninjured, although his truck skidded 102 feet before it came to a stop, heading toward the store fronts.

Mamaroneck police gave Brooks the right-of-way, but the tractor-trailer truck was in his possession.

The left top of the trailer was ripped and the rear of the cab pushed in as the truck mounted the curb and struck the building, damaging a shutter.

A great amount of damage was caused by the wheels, which struck the building at 144 West Boston Post Road, and the building at 134 West Boston Post Road.

The truck was towed away by Jubb's of Mamaroneck.

Shortly before 1 o'clock yesterday, a tractor-trailer truck was called at Mamaroneck Avenue and New Street.

Party Brings New Type Leadership To NY, He Says

NEW YORK — The "monumental record of progress" of New York State's Republican Party over the past five years has been achieved, he said, by which the party has been run for 80 many years in the recent past is an exploited myth of political demagogues. Gov. Thomas E. Dewey said last night.

Speaking at a testimonial dinner given by the Westchester Republican Club, Dewey said his second chairman, Livingston Hill of NY, the Governor said.

He denounced what he termed "Government by crisis," and said that "only by a new type of leadership can we create a good atmosphere in which business can flourish with the result that there is money enough to support the kind of social progress every good American wants to see."

"I believe in showing the problem ahead of time, finding out what the cause is, and then doing it. I believe in working out problems with the people in the free give and take of conference, and giving the right answers to the right questions. I believe in the best technical advice there is after the people have been consulted and shared with the responsibility."

In his opening remarks Dewey said Westchester was his second favorite county, politically at least, and the only one which returns a large number of delegates, and affectionately after bitterness toward the party he said he was always glad to drive through Westchester, particularly to get to the shore.

Thousands of more than 2,700 filled St. Augustine's School auditorium last night for the opening of the three-day exposition and fashion show sponsored by the Larchmont Fair Trade Association.

So crowded was the auditorium that the Larchmont Fire Department was forced to close the doors for a moment at 9 P. M. until enough persons fled out to allow more to enter.

Larchmont is a beautiful community in which to live. Many residents have lived here for years, but a large number only a short while. It is our purpose to acquaint all with the outstanding civic organizations of the community working for good, and the many merchants, striving to satisfy the needs of the residents."

They heard the music of Nat Bang and his six-piece, three-man orchestra consisting of piano, saxophone, clarinet and violin.

Opinion Forum Discussion To Resume Friday

Tomorrow night marks the return of the informal discussion group of the Larchmont Forum for Public Opinion after a lapse of more than a year. At 8:30 o'clock in the Larchmont Public Room, the group will meet.

Ruth Ivor, radio commentator and a veteran of four years of Allied Intelligence service in England during the war, will be the guest speaker. Her topic will be "What Is Happening in the American Occupation Zone in Germany."

Miss Pearl M. Day, librarian, is chairman of the discussion group, an informal gathering of residents who wish to make a further study of world problems beyond those discussed at the monthly meetings of the Forum. Miss Ivor will be introduced by William J. McWilliams. Following her talk, George D. Burchell, Forum chairman, will conduct a question period.

Miss Ivor holds degrees from the Universities of Heidelberg, Göttingen and Zurich. Prior to the war, she was scientific assistant to the Hon. Martin Bormann, sister of Adolf Hitler. Her scientific work has taken her to Switzerland, France, Belgium, Czechoslovakia, Portugal and Italy.

Her extensive travel on the continent and her knowledge of foreign languages won her assignment with the Psychological Warfare Division of SHAEF. During the last years of the war, she was chief of the German Intelligence Section of the London and Paris Offices of the War Department of the Office of War Information.

The group was formed in December, 1945, and since that time has held almost every state in the Union. The group has lectured extensively in the West, broadcast its views on the radio, and has written "GIBNECO and You," a newspaper article, and last week's "The German Problem," an article in the Fort East.

Town House Status Depends On Conference Saturday

Whether the Town of Rye Council will proceed with its proposal to erect a Town Office Building on Pearl Street, Fort Chester, at a total cost of \$100,000 may depend upon the result of Saturday's conference with Supervisor Arthur J. Sattler. Town Councilmen John L. Coward and John M. Sammarco were present.

Action to award bids for the new building was recommended by the Council on Oct. 29 when the cost of the project within the \$100,000 figure was set. Supervisor Sammarco reported today that the result of Saturday's conference will be the main item of business at a special meeting of the Town Council next Wednesday evening.

He added that while it is not an act in favor of the project, the project cost of \$100,000 including the \$85,500 loan purchase, it will be up to the Council to decide what we should do about the project. It will be the Council's decision, after consulting the various alternatives, as recommended by Mr. Liptak, and on Tuesday, October 29.

Martin Lines Up With Truman To Oppose Tax Cut

Republican Chief Would Wait Until 1948 Session

WASHINGTON, (AP)—Speaker Martin lined up with President Truman today in opposition to a bill defining legislation at the special session of Congress starting Nov. 17.

Martin's new stance confirms he believes the special session will be kept too busy considering foreign aid and public legislation to take up taxes.

"It was his own 'personal inclination' that tax reductions should be considered as the first order of business at the regular session starting in January," Shortly before Martin gave this opinion.

President Truman had introduced a news conference in his message to the special session will contain no suggestions for revision of taxes.

2. Officials in a position to know had said the Truman Administration is definitely planning to offer its own tax program to Congress next year.

3. Martin's views ran counter to those previously expressed by the House Ways and Means Committee which is demanding that the special session start with a \$4,000,000,000 tax reduction bill.

The Speaker emphasized that his views are strictly his own. He said the Republican House Steering Committee, which will meet shortly after Nov. 17, may have different ideas.

President Truman had declined to say whether he would veto a tax reduction bill at the special session would send one to him.

Builder Files Revised Plea For Town Aid

Allan Carnoy, Larchmont contractor, responded before the Town Council last night with a revised plea for Town aid in his new housing development on Lafayette Road near Madison Avenue.

He was represented by Munn Brewer, who told the Council that the Town was asking the Town to install the roads and sewers while he would install water and gas. He said an agreement with the utility companies, thereby cutting down the maximum expense from \$15,000 to \$12,000. The Council reserved decision on this matter.

Mr. Brewer also submitted a petition signed by all the residents of the vicinity favoring the project, which calls for the construction of 12 homes.

He gave three reasons why he felt the Town should aid. "1. It presents an opportunity to clean up an unsightly section of the town. 2. It actually will not cost the Town any money as it will be paid back in taxes. 3. The only way to bring the tax rate down in this area is to have approximately \$12,000 each and the average price would be \$17,500.

Under the present building laws, the home must be offered to veterans first for a period of 90 days, but his client, he said, is willing to offer them to veterans for a longer period if the board so decides.

Mr. Brewer did not believe that the request, if granted, would establish a precedent, citing the Egan Park project as one instance where the Town gave help but agreed the circumstances were slightly different since that was an all-veteran project. He believed, however, that there were other instances where the Town aided in development of other areas.

"What guarantee is there on the \$17,500 price?" Councilman George E. Mills asked. Mr. Brewer replied that his client would not accept a guarantee.

Councilman Mills said he was asking for asking was that he felt that it would be better to have it as a whole other out of the means of the veterans.

Smith Quits Rye Neck School Post

Trustee Resigns After 12 Years Service On Education Board

FORCED BY BUSINESS

Everett H. Smith, a member of the Rye Neck Board of Education for nearly 12 years, has submitted his resignation to Raymond T. O'Connell, president of the board, because of the pressure of his business activities. His term was due to expire on June 30, 1948.

Mr. O'Connell said this morning that he will bring the matter of the resignation to the board at its meeting next Tuesday. A successor is expected to be named by the board.

A former student at Barry Avenue School, Mr. Smith was president of the board from July 1, 1938, to June 30, 1940. He has also served as chairman of the maintenance committee for two years and chairman of personnel for several years.

Mr. Smith was first elected in May, 1932, in one of six hotly contested over held in the school district as indicated by the record number of votes cast.

Following is Mr. Smith's letter of resignation:

"This will serve to confirm the resignation I had with you and our associates board members at the meeting on Tuesday, Oct. 7. You will readily recall that I had indicated very clearly that I felt I should resign my membership and not continue until June 30, 1948 when my term expires. Of course, I have made it clear right along that I would not seek reelection.

"I would like very much to remain on 12 full years as a board member but with my business activities as they are and have been for some time and apparent to me, I am contributing little or nothing and it is not fair to the other members of the board to continue any longer.

"I have therefore, consider this letter my resignation as a member of the Rye Neck Board of Education. As far as I am concerned, it can become effective immediately. I have no objection to the board to appoint someone in my place at the November meeting. I have thoroughly enjoyed my work as a board member and I have learned a great deal from those with whom I have been associated during the period of my membership.

"With kindest personal regards to all the members of the board, Mr. DeWitt, Mr. Hicks, Bill Kuhn and Ed Julier."

Huge Throngs Continue To Pack St. Augustine's

The church that lives and grows is the church that reaches out in its service beyond itself, according to the Rev. Dr. William P. Schell, secretary of the Board of Foreign Missions, speaker before the canvassers' dinner at the Larchmont Avenue Church last night.

Dr. Schell pointed to the survey of churches made a few years ago which revealed that the church with a large benevolence budget was the one that was thriving both at home and in its going to the needs of the church. The churches that were living for themselves alone were withering and dying. "This," he said, "is the line with the words of the Master, that he who would save his life he will lose it and he who would lose his life for my sake shall save it."

Rag Drive To Be Launched By Legion Post 90 Dec. 14 To Help Put Fund Over Top

Rag salvage collections, supplementing the waste paper drives, will be instituted by Manamonte Post 90, American Legion, on Sunday, Dec. 14, in an added effort to put the Legion building fund over the top. It was decided at a meeting of the executive committee last night at Legion Headquarters.

The collection of rags will be separate from the waste paper drives, with each scheduled to be held on different Sundays. Post members will pick up the rags in private cars.

The present price of old rags is several times that of paper. Captain Jack Welsh pointed out, adding that if citizens of the Village will cooperate in the same splendid fashion as they have done during the paper drives, a considerable sum of money can be added to the building fund.

Commander Indore Lineman urged citizens to begin immediately to save rags of all kinds, such as discarded clothing, old rugs, carpets, canvas, and anything made of cotton, silk or wool. They should be tied up in bundles and left at the curb.

He expressed the gratitude of the Post to the many merchants and other individuals who have lent trucks in past drives, and to the people of Manamonte through whose help the Post has raised \$3,100 in 16 paper drives.

He also thanked the Village officials and employs for their assistance, and the Daily Times for the splendid publicity given the Legion and the sincere effort of the paper to help the Legion in every way.

Heading the rag pick-up committee are Vice Commanders Albert Thomas and George Spitzer, and James, Celestino, with Past Commander Harry Leiker in an advisory capacity.

Partial payment of bills incurred on the new post building was authorized following a report by Finance Officer Sidney Parker.

The front of the Legion Headquarters is now almost completely finished. The beautiful lights, the gift of the Manamonte Rotary Club, are expected to be installed on the new stairway within the next few weeks.

Police Headache

When Larchmonters go away for a while, the Police Department is glad to comply with their requests to keep an eye on their closed up houses.

But some of them are pretty careless, Chief William J. Kerey said yesterday at the Civics Section meeting of the Women's Club. Often as many as 62 families are away at one time, he said, and a good many do not even likely to leave back doors and windows unlocked.

Businessmen are just as careless, according to the police chief. Too often they leave their places of business when they go home at night with doors and windows open. Of course, once they've had a 2 or 3 A. M. telephone call from the fire department about it, they remember to lock up next time!

Woman Trustee?

Woman's place isn't necessarily in the home, after all. Mrs. Benjamin E. Egan voiced the opinion of many women when she acted at yesterday's government panel at the Women's Club of Larchmont that a woman be included in the board of trustees of the Village of Larchmont. "We've got a lot of wonderful women here in Larchmont," she said to the Mayor during the discussion period following informal talks by Village officials, "and one of them could make a splendid contribution to the board."

Bouquets For Clerk

Village Clerk Margaret Lord received well-deserved bouquets yesterday from the mayor and village attorney, speaking for the Civics Department of the Women's Club of Larchmont.

Miss Lord, they agreed, is not only the best looking village clerk to be found anywhere, but the best! No department could function without her, they pointed out, and she always manages to take the time to be helpful and courteous, "no matter what."

People will pay for them if you let them know through the used ads that they're for sale. Advance there's enough money to your "don't needs" to pay in advance for all the Christmas gifts. It's worth considering. Just call Mamaroneck 9-3130. One of our competent salesmen will be glad to help you.

Emergency Food Measures Needed, Kreighbaum Says; Three Others Speak At Forum

Declaring that the world food problem is still very grave, Hiler Kreighbaum, public information officer of the World Health Organization, the UN and a veteran of 10 years service with the United States, told a gathering of more than 50 persons at a forum sponsored by the local branch of N. A. C. P. in the Mamaroneck Avenue School auditorium last night.

Wednesday's opening night drew an attendance of 2700 and the evening saw an additional hundred parking the auditorium for the first venture of its kind in the county.

Mr. Kreighbaum, who returned last month from Europe, said that the UN reported this week that money shortages in Great Britain, Austria, Belgium, Brazil, Finland, France, Greece, Italy, Luxembourg, Poland, Sweden, and Yugoslavia make it impossible for these countries to import food to last more than 120 days.

He said that emergency measures are necessary in both Europe and Asia to see the starving people of these two continents through the coming winter. The production of cereals in Europe he declared, has been sharply cut by drought. The fat shortage, he thought, not so serious as that of bread, but it is a present threat with no immediate prospect of betterment, he said.

Shipments of wheat will relieve the protein shortage, he said, but in France, Germany and Japan especially, food production still sits at a low ebb.

Three steps which he believes the U. S. should follow were outlined by Mr. Kreighbaum: 1. Organize machinery to speed up production, distribution and utilization of food; 2. Stabilize prices at levels fair to both consumers and producers; and 3. Get individuals and groups to conserve.

Speaking as a housewife, Mrs. Herbert B. Livesey, Jr., president of the Yonkers Y. W. C. A., said that the housewife may, through careful budgeting and planning, help to prevent another war.

"If women are convinced of the need to prevent another war, they can do it," she said, "realizing we have yet another job to do, and when we compare ourselves to the housewives of England and their help to prevent another war."

"I doubt very much that our people will do this unless we are prevented from doing so," she said, "and we must be prevented from doing so by the strongest reasons you hear in the report of the Marshall Plan. I feel that the best we can hope for is that by helping these countries to help themselves, we can help to prevent another war."

Hidden Talent

Arthur Richards, engineer of the Village of Larchmont, was interviewed recently. His radio program while he was attending the American Public Works Association annual congress in Jacksonville, Fla. In an appeal for liberation of refuse collection in relation to the appearance of streets and yards, Mr. Richards read a bit of poetry of his own creation, entitled "Dedication to Street Sweepers" and it goes like this: "If you want to live in the kind of a town Like the kind of a town you live; Don't kick at the looks of your shabby town And feel like taking a hike; For you'll only find you are lots to blame. As you seldom have done your best— So clean up your place—get rid of the dirt. And live in your town with zest."

Chest Drive Still Short Of Quota

Appeal Goes Out To Those Missed In One-Day Campaign

\$2,409 NOW NEEDED

With the Mamaroneck Community Chest still \$2,409 short of its \$17,372 goal, C. W. Hilbert, executive director, today issued an appeal to all residents who have not contributed to send their gifts immediately. The Board of Directors will meet at 8 o'clock Wednesday night to receive further reports in the third round of the drive. Reporting on the progress of collections since the one-day drive Oct. 26 when \$13,443 was received, C. W. Hilbert, executive director, said that the large number of envelopes brought back by campaign workers with the notation "not home."

"Since the army of public spirited citizens who solicited contributions on our one day drive, could not be kept in continuous contact, many follow-up calls on absentee contributors, it has posed a special problem for the Chest this year."

Many regular contributors to the Community Chest who were absent from their homes on Oct. 26 are being urged to make up their contribution by not being called to contribute and the Chest officers are deeply distressed when they need all those missing contributions to insure attainment of the Chest goal of \$17,372.

"They are, therefore, using the good offices of this newspaper to urge all residents who have not been personally solicited, to make up their missing contributions for any other reason, to please send them along in the near future. Simply attach your contribution in an envelope with your name and address and mail to: Mamaroneck Community Chest, Village Hall, Mamaroneck, N. Y."

MARSHALL URGES CONGRESS TO VOTE 597 MILLION FOR EMERGENCY EUROPEAN AID

State Secretary Sets Final Cost At 16 Billion

WASHINGTON, (AP)—Secretary of State Marshall said today that Congress should provide \$597,000,000 in emergency aid in Europe until March 31. He estimated an additional \$7,500,000,000 will be needed in the 15 months starting then.

Secretary Marshall told a joint meeting of the Senate and House Foreign Committees, long since authorized by Congress, that the total cost of the program will range between \$16,000,000,000 and \$20,000,000,000.

Secretary Marshall said in good faith, Marshall said, is the goal of all the major allies except Russia. Bluntly, he said, "The Soviet Union does not for its own reasons share this aim."

Marshall's calculation of the total cost of long range aid to Europe is based on the estimate submitted to President Truman by the House Foreign Committee headed by Secretary of Commerce Harriman. This report is based on the cost of a four-year, self help program at \$12,000,000,000 to \$17,000,000,000.

However, Marshall said it is impossible to compute the amount with accuracy at the present time.

S. Dickson, chairman of the canvass committee in charge of the canvass.

Even more encouraging than the total figure itself, according to Mr. Dickson, is the fact that it represents an increase of some 18 per cent over what the canvass committee had expected. The two girls who are assisting in the canvass are the members of the committee who are in charge of the canvass. They are Misses Margaret and Helen, daughters of the pastor, Dr. Floyd E. M. she found that someone had apparently taken the car while she was gone and had brought it back with both front fenders bent and the headlight damaged. Police are investigating.

Legion Votes Protest On Military Training Ballot In Schools

ACTION COUNTY-WIDE

CHAPPAQUA — Westchester's American Legion has lined up in vigorous protest against the P.T.A. circular, a lead at the meeting here last evening of the County Council.

The Legion's committee voted to protest vigorously the action of the P.T.A. of the Chataqua Avenue School of Larchmont, in distributing among children of the school a questionnaire circular, to be taken home to parents, in which the national P.T.A. characterizes universal military training as "unjustifiable" and "an obstacle to the peace, health, and world peace." The Legion is already on record from its national convention as favoring training.

According to information given the action last evening, other P.T.A. groups throughout the County plan similar circulation of the questionnaire circular. His election as trustee brings the Union Savings Bank board to the full quota of 13 members.

RATE REDUCED BY COUNTY DESPITE INCREASE IN BUDGET

Levy Also Lower Than Last Year; 21-Cent Slash

By HUGH W. ROBERTSON

WHITTE PLAINS—Contrary to the apprehensive anticipation of many taxpayers, the Westchester County tax levy will be lower than that for 1947 and the county tax rate for next year will drop 21 points.

The present County tax rate is \$6.23 per \$100 of valuation. The rate based on the proposed 1948 County budget is \$6.02, a 21-cent decrease.

This was the surprising feature in the County budget for next year filed this morning with the Board of Supervisors by County Executive Herbert C. Gelbach and County Budget Director Raymond B. Folger.

The lower tax rate results from a slightly lower tax base, resulting in one cent drop in the rate, and a 20-cent assessment rate, permitting a 20-cent drop in the rate from \$6.23 to \$6.03. But this increase is offset by increased revenues from the two new parkways, the increase in increased Federal and State reimbursements, and a 20-cent assessment rate. This last item came when the State changed this year a post-payment to a pre-payment basis in reimbursing the County for the State's 50 per cent share of home relief, thereby making available earlier considerable amounts of State money which is utilized to offset gross budget increases of \$600,000 from surplus.

Opinion Forum Will Discuss High Prices

The present economic situation, its causes and the future outlook will be analyzed by two eminent economists tomorrow night at the meeting of the Larchmont Forum for Public Opinion in the auditorium of the State Street School.

Kenneth Eby, director of education and research of the Congress of Industrial Organizations, and Dr. Paul H. Nystrom, professor of marketing at Columbia University School of Business, will be the speakers.

Another factor to be considered is the fact that the Willett Avenue structure, in which the Town's own officers and employees already had been put on the market and its sale might well mean another increase in tax, if not evasion. A 20 per cent increase in rent already has been sustained.

Observing that the Council serves merely as a board of directors acting in the interests of the town, Mr. Sammarco stated that, despite the fact that success at the polls and the apparent agreement of the council members with their actions, the council must consider the building process in the light of a sound and sensible business venture.

U. S. Air Arm Seen Losing Its Strength

NEW YORK, (AP) — This country's aviation industry probably will build fewer than 1,500 planes next year while it should produce at least 5,000 military aircraft alone to be prepared for possible expansion in the event of war, Secretary of the Air Force W. Stuart Symington said here.

Speaking at an Armistice Day ceremony for the presentation of his Department is "falling short" of its objectives which he said included an "air force in being" of 15,000 planes, a large trained national guard and air reserve, and maintenance of the aviation industry in a state of readiness to meet the demands of a future emergency.

Total cost of the project, which is expected to get under way next spring, is \$6,600,000, including the new 11-story building to replace the present 108-year-old brick prison, which is being condemned as obsolete and insanitary.

The new prison will have a capacity of 800 prisoners — 550 adults and 250 youths. Mr. Litchfield, whose firm is acting as federal and state penalitarians, said last night that the adults and youths will be separated.

AUTO STRIKES POLE

James J. Kent, 24, of 64 Washington Street, Port Chester, was killed last night when he was thrown from his car after it smashed into a telephone pole at the Hutchinson River Parkway intersection in Harrison.

The accident occurred at 12:35 A. M. when Kent, who Parkway Police report was traveling at high rate of speed toward Port Chester, apparently failed to round the corner before the parkway overpass, and struck the pole with such impact that it chipped out the bottom section, leaving the top hanging from the wires.

Kent, police reported, was about 70 feet from the pole when the accident, landing on the triangular safety island at the parkway intersection. The car continued an additional 111 feet over the bridge in an easterly direction before coming to a stop. The accident was investigated by the Parkway Parkway Department because the safety island on which Kent was hurled is a part of that department.

Dr. Ellis M. Markell, acting health officer of Port Chester, said Kent died at 1:31 P. M. at the scene of the accident.

U. S. Is Facing Recession, UN Report Says

NEW YORK, (AP)—The United Nations Economic Department said last night in an 86-page report on current financial conditions, that there is a serious problem of a recession during the next year in the United States.

The report, prepared for the U. N. Economic and Employment Commission, headed its summary with a statement:

"A large part of the world is at present subject to inflationary pressures. Even in the United States, where output has been greatly expanded as a result of the war, inflationary pressures have taken place. Unlike conditions in the rest of the world, however, in the United States there is already a serious problem of a recession during the next year."

Communists Attack Price Plan In France

PARIS (AP)—The French Communist Party declared war today on Premier Paul Ramadier's plan of raising railroad gas and electric rates as a result of the nationalization of the coal industry.

A communique issued early today after a long meeting of the party's political bureau said the Communists would "prepare everything to assure the success of the action of the popular masses against high prices."

The Paris committee of the party backed this by denouncing the nationalization of the French government and by calling on "all Parisians to fight the new taxes."

The government yesterday decreed 45 per cent increase in gas and electric rates and 25 per cent hike in railroad and subway fares because it said the end of subsidies to the coal industry had boosted coal prices more than 1,000 francs (about \$8) per ton.

The new Communist move constituted a new phase of the far left struggle against the Ramadier government, which began when Communists were ousted from the French cabinet last May. It also was a further step in the party's campaign against Socialists and against Americans, which began with the recent formation of the nine-nation Cominform.

The Paris committee began: "The Ramadier government, on orders from American capitalists, has just struck a real blow at the people of Paris."

The committee said consumers' "action committees" would have the people of Paris, and electricians in transport, gas and electricity industries.

Hughes Backed By Attorney In Washington

WASHINGTON, (AP)—Neil R. McCarthy, Los Angeles attorney, told Senators today that Mr. Gen. Bennett E. Meyers tried to win both a job and a seat from Howard Hughes while Meyers was a wartime air force procurement officer.

McCarthy, a former vice president of Hughes Aircraft operations, repeated on the stand most of the testimony he had previously given the Senate War Investigating subcommittee in closed session.

The ruddy-faced, gray-haired attorney declared opening of today's session for nearly an hour and had arrived here by train from Los Angeles.

Under questions of Chairman Ferguson, McCarthy explained that he had used the time "to glance" over his previous testimony and "talk with Mr. Hughes."

Hughes has testified that Meyers sought jobs both during the war and for the postwar period and also accepted a \$200,000 loan to finance a government bond purchase deal.

McCarthy, now retired on a pension, was asked on a pension job during the war or a loan. He said he had Hughes offered him \$200,000 for the bond deal through McCarthy.

Varied Views On Curbing Racial And Religious Bias Offered By Local Residents

(Editor's note: This is the third in a series of interviews with citizens on important issues of the day. The feature will appear each Saturday in The Daily Times. Today's question is: What steps do you believe should be taken to eliminate racial and religious prejudice?)

King Love, Alden House, Department said last night in an 86-page report on current financial conditions, that there is a serious problem of a recession during the next year in the United States.

I believe to be one of the greatest single factors in dispelling racial and religious prejudices, since in these organizations all members are propelled into their activities by a single interest. . . .

The improvement of their community. In these clubs men and women of all denominations and all walks of life work together and cooperate for one single cause, regardless of their personal interests."

Mrs. Theodore V. Brunst, 20 Colchester Avenue, Larchmont, said much distress and unhappiness is caused by careless remarks which are interpreted by the offended persons to indicate prejudice, when actually there is no prejudice felt at all. Parents should be particularly careful to avoid careless remarks in the presence of their children, because, although the work of the school is to impart the foundation for elimination of prejudice, it is laid in the home.

T. St. James L. Kelso, attached to U. S. Army and U. S. Air Force Recruiting Service, New Rochelle—"If everyone would use his own church, regardless of what denomination it is, and follow the principles of its religious training, I believe it would go a long way in helping each group to understand the other and enable us all to live together in a greater spirit of harmony."

The Rev. Constant W. Southworth, 4 Bayard Street, Larchmont—"In answer to this question I would propose a strong stand by the church in defense of unity and brotherhood and the work of every individual, and that the contributions to be made by religious groups and the fact that differences need not divide—unity and equality of opportunity and repeal of discriminatory measures both legally and by accepted custom."

Partitioning Of Palestine Seen Delayed

NEW YORK, (AP)—The possibility arose today that the proposed partition of Palestine into sovereign Arab and Jewish countries might be delayed until Oct. 1, 1948.

This situation was created as a result of Britain's declaration that British troops could not be withdrawn from the Holy Land before Aug. 1.

Under a U. S.-Soviet compromise plan for enforcement of partition, the British would terminate their mandate over Palestine by May 1 and independence of the Arab and Jewish countries would become effective July 1.

But in view of Britain's announced withdrawal deadline, members of a four-power United Nations working group, including the United States and Russia, suggested that the date for termination of the mandate and independence be moved to August 1.

The working group, composed of American, Russian, Canadian and Australian representatives at a six-nation conference, scheduled a session at Lake Success at 3 P. M. today to consider a change in the dates and to iron out minor points on proposed UN administration of the Holy Land.

Meanwhile, the General Assembly scheduled another plenary session for 11 A. M. at Flushing Meadow Park to decide whether to hold the 1948 Assembly meeting in Europe.

Woman Injures Leg In Fall On Elm Street

A Mamaronock woman suffered a leg injury last night in a fall on Elm Street, which she alleges was due to inadequate street lighting.

Mrs. Hannah M. Belanger, 128 Elm Street, Mamaronock, was treated by Dr. William A. Barrett for a ruptured vein in her left leg.

Mrs. Belanger told Mamaronock police that she had fallen while mounting the sidewalk in front of her home at about 9:40 P. M. She said her left foot caught in a hole and she fell as the result of the street light not being on.

Patrolman John E. Rowan, detailed to investigate, reported that he found a depression in the strip of soil between the cement sidewalk and the curbstone where Arthur Belanger, her husband, said she had fallen.

British Curfew In Palestine Follows Deaths

JERUSALEM, (AP)—British residents in Jerusalem today were ordered to curfew from 7:30 P. M. to 6 A. M. by order of the High Commissioner, Alan Goodwin Cunningham. British living outside guarded areas will be required to curfew from 10 P. M. to 6 A. M.

A casualty toll resulting from three days of bloody gunplay in the Holy Land mounted today to 20 British soldiers and 30 wounded.

A 20-year-old Jew was reported slain last night when unidentified persons shot up a bus in Haifa, Emanuel Ben-Curion, nephew of David Ben-Gurion, head of the Jewish Agency Executive, was said to have been wounded.

That incident boosted to six the number of Jews killed and to three the number wounded since the British curfew was imposed on the three days started at 10 killed and 33 wounded.

EASTCHESTER—Jack Arvis of Eastchester High School, president of the Southern Westchester Inter-School Athletic Council, said yesterday that no action will be taken until the SWIAC's next meeting, in early December, on the question of whether or not another school will be admitted to the circuit to replace F. E. Bellows.

Bellows officials announced this week that the school will withdraw from the circuit by the end of the present school year. PRICE FIVE CENTS

Opening Session To Get Bill From N. Y. Democrat

WASHINGTON (AP)—Rep. William H. Clegg today said that he will introduce legislation at the opening session of Congress next week to require an audit of all rationing, allocation and price control authority he held under the wartime War Relocation Authority.

"American citizens cannot pay 1947 prices on 1939 income and still maintain decent American living standards, nor carry out an efficient foreign aid program," Clegg said in a statement. "Congress scuttled OPA," he added. "Now it is up to Congress to rescue the American people from the fearful impact of rising prices before we are sucked into a whirlpool of disastrous inflation."

White House Experts Worked

White House experts worked all night long to prepare an outline which some of the President's associates in the cabinet session which opens at noon Monday, said an official familiar with the details of the program.

The national price index stands at 165 per cent of the index of the 1935-39 period and the food index alone, Mr. Eby said, is up at 200 per cent. He reported that from 45 to 53 per cent of a worker's weekly wage is spent on food, and many are cutting down expenditures for the basic necessities of life.

McCarthy, a preliminary report prepared by the Bureau of Labor Statistics, it now takes at least \$200 a year to support an average family of four, Mr. Eby said.

Gas Rate Rise Hearing Opens Again Monday

NEW YORK—The Public Service Commission on Monday will resume its hearings on the petition of the Westchester Lighting Company for higher rates for gas to County consumers, and at the same time consider the Commission's own investigation of the utility's electric rates.

Commissioner George A. Arkwright who is conducting the hearings, informed utility officials at the last session that he would consider both cases together. After the Commission's meeting on Monday the Commission's inquiry into the electric rates of the Ontario Electric Light and Power Company, affiliate of the Westchester Company, will be resumed.

At present the Westchester Light Company is engaged in presenting its case in support of its request to be permitted to raise its gas rates.

Banking Committee To Go Ahead With 4-Point Program At Once

TOBEY URGES ACTION

WASHINGTON, (AP)—The Senate banking committee decided today to go ahead immediately with a four-point anti-inflation program but delayed action on President Truman's request for standby price-wage and limited rationing control power.

Chairman Tobey, R., N. H., said the committee will begin consideration today of legislation to continue rent control, restore installment buying curbs, tighten bank credit and thereby increase margins for buying on the commodity exchange.

That one of the 10 points laid down by Mr. Truman in his program to combat high living costs already has been designated as the subject of hearings by the Senate Banking Committee.

The American people are getting bitter and ugly over the triple price range under which they live, Mr. Truman said.

Describing the price-wage and rationing committee as "nebulous," Tobey told a news conference today that he would have more information about what the administration is seeking after the conference tomorrow with Treasury Secretary Snyder.

Tobey said he sees no reason why four subjects covered by the Banking Committee for hearing should be separated from the program which should not be approved in the special session of Congress.

The committee will, however, whether bills may be introduced soon on the other six points of the program.

Tobey said he believes the people are asking for Congress to take quick action on the price-wage and rationing program.

Gamble Assails Iron Shipment To Aid Italy

WASHINGTON, (AP)—Rep. Gamble, R., Larchmont, N. Y., criticized the State Department last night for proposing that 20,000 tons of pig iron be shipped to Italy to aid the country's economy.

He said the shipments would aggravate the existing shortage by locking bulk of the production of iron pipe.

Gamble, chairman of the joint committee on housing, declared in a statement he cannot hope to build more houses, cheaper, quicker, for American workers if critical materials are syphoned off as interim aid to Europe.

State Department officials, testifying before Congressional committees on the aid bill, recommended the shipment of 20,000 tons of pig iron in a four-month period beginning Dec. 1.

Gamble's statement continued: "And it is not only in pig iron that our export and foreign aid policy needs checking and correction. It is in other critical or high-priced building materials such as gypsum products, hills and lumber, as well."

"I am convinced that this latest proposal by the State Department points to the absolute necessity in any foreign aid program of setting up an agency outside the diplomatic branch of our government that will give consideration to our urgent home requirements as well as any aid that might be given abroad."

'Bookie' Case Halted By Mistrial

Lawyer Calls Cvaniga Trial 'Mockery' As His Witness Testifies

JURY IS DIVISIVE

The jury trial of Dave Cvaniga accused of bookmaking was declared a mistrial last night by Judge Wesley M. Messersmith following the outburst by attorney for a witness on the stand in which he shouted "The proceedings in this court room are a mockery!"

The jam-packed tiny room in Manarone Court Room was thrown into an uproar as the Manarone attorney, James C. Cvaniga, called Joseph Cagliardi by causing a commotion in the rear of the courtroom, shouting "out of the courtroom!"

"Do you know that the punishment for that call for a mistrial?" Judge Messersmith asked. "I am going to hold him for contempt of court."

Mr. Cagliardi moved for a mistrial and the withdrawal of the jurors which was granted by the court.

Turning to the six-man jury the judge said: "Gentlemen, I am sorry that the court decided not to let it go in that form and I am not going to have the defendant prejudiced because it has been called to your attention that the case was made into a mockery."

The Appellate Division of the Appellate Court can take care of it and the court decided not to let it go in that form and I am not going to have the defendant prejudiced because it has been called to your attention that the case was made into a mockery."

Royal Pair Breakfast On Bacon, Eggs

Rome, England (AP)—Princess Elizabeth and Philip, her fiance, were yesterday in the tradition of a thousand years of English pomp and circumstance, began the "love after" days of their royal romance today with one of rationed Britain's rare treats—bacon and eggs for breakfast.

Outside their honeymoon retreat the day was almost Spring-like, with soft breezes rustling the foliage after a spell of cold weather.

From the time the oaken door of Broadlands, estate of Earl Mountbatten, was opened yesterday, the royal couple has been alone.

Two girls, delivering wedding evening greetings from Ramsey's townspic, said they saw nothing of the couple. But Philip's Navy officer cap, they related, was seen in the garden.

Official functions are largely on hold, but the royal couple has come home in the evening.

Marie C. Smyth Retires From Red Cross Post

WHITE PLAINS — Marie C. Smyth, director of telephone services and organizer of the Home Nursing Department of Westchester Chapter, American Red Cross, has retired after 26 years of service, the chapter announced today.

Miss Smyth, a graduate of the Orange Memorial Hospital School of Nursing, started her Red Cross career in 1921 as volunteer branch chairman in Rye. In 1926 she was asked by the Chapter to organize and teach the first class in home nursing, then known as Red Cross home hygiene. The peak year was 1937 when 12,000 persons were trained. That same year Miss Smyth took a special course at the University of California and received authorization to train other nurses as instructors. Also in 1937 she was made director of nursing service for the chapter.

Miss Smyth also is credited with organizing the first Red Cross Nurse Auxiliary in 1933, and the organization of the first group of volunteer aides in civilian homes in White Plains known as "Pink Ladies" and now as nurses aides. By 1941, 500 such aides were available.

Miss Smyth also has worked closely with the Westchester Chapter Committee, as a member of its education advisory council, and with the Westchester Tuberculosis and Public Health Association. She is a charter member of District 16, New York State Nurses Association, and a member of the Westchester Tuberculosis and Public Health Association of Community Services.

Glady M. Bayne, home nursing chairman, expressed the Chapter's gratitude for Miss Smyth's service. "Her success has not only been due to efficient organization," Miss Bayne said, "but to her unselfish interest in other people. Her enthusiasm, we believe, comes from a soul imbued with the real spirit of humanitarianism and generosity."

Schuman Is New Choice In France

Finance Minister Agrees To Try To Form Cabinet As Blum Fails

SEKES ASSEMBLY OK

PARIS (AP)—Robert Schuman, finance minister and member of the Popular Republican Movement (MRP), announced today that he had agreed to try and form a new French government.

Schuman made his announcement to reporters upon emerging from a meeting with President Vincent Auriol.

He then left at once for his office in the Finance Ministry to begin consultations with party leaders prior to going before the National Assembly to demand a vote of confidence in the face of a rising tide of Communist-engineered labor difficulties.

The Chamber refused last night to give a vote of confidence to Leon Blum enough support to become premier.

The 61-year-old Schuman, born at Luxembourg, was the sixth political leader to confer with Socialist President Auriol this morning. Others included former Premier Raymond Lemaire and two former ministers, Andre Marie and Yvon Delbos, both of whom said they turned down the job of premier because of their health.

Little known to the general public, Schuman generally has come to be regarded as a financial expert. He is successful in winning a vote of confidence and organizing a Cabinet it will be his task to carry out. He is expected to strike-leave France, where nearly three-quarters of a million workers were reported idle today.

France has been without a premier since Raymond resigned on Wednesday under heavy pressure from the left.

Parking Area Approved For Acres Tenants

The Town of Mamaroneck Zoning Board has granted an application to the owners of Larchmont Acres to construct a parking area for residents and guests.

Public hearings were held Oct. 22 and Nov. 5, at which some opposition was voiced by about 15 residents. However, the board granted the application with certain provisions to relieve the serious traffic and parking problem which exists on Burton and Richbell Road.

The conditions on which the application was granted provide that no cars other than passenger automobiles of residents and their guests be permitted to park in the area, and that all must be in running condition. No unlicensed or dilapidated cars or junk will be allowed.

The Ingot Realty Company, Inc., owner of Larchmont Acres, was instructed to supervise the operation of the parking space, and that the fees or rentals for parking shall be charged to others than residents of the apartments.

The board also ruled that the application was granted on the condition that no other services or commodity be offered.

Soviet Flays Occupation Of Germany By Western Allies As Violating Pact

BERLIN (AP)—Soviet Marshal Vasily D. Sokolovsky bitterly denounced the Western Allies' administration of occupied Germany at a meeting yesterday of the Allied Control Council, accusing them of violating the Potsdam and Yalta agreements and other accords on demilitarization, demilitarization and reparations.

His charges were made public today in a joint communique.

Gen. Lucius D. Clay, U. S. military governor for Germany, scheduled a meeting with the Soviet minister in Berlin in connection with the Potsdam and Yalta agreements and other accords on demilitarization, demilitarization and reparations.

For nearly two years Sokolovsky has been in Germany—held the floor in the council and, almost on the eve of the Big Four foreign ministers' meeting in London, criticized almost every phase of the occupation in the Western Zones of Germany.

He charged, among other things, that the British and Americans were attempting to transform the zones into "strongpoints" to support the Anglo-American campaign of imperialism in the center of Europe.

He charged further that the demilitarization of Germany was not being carried out in the western zones.

The British and American occupation authorities are "frustrating" the liquidation of armaments plants in their zones and maintaining German units and officer corps in order to build their "strongpoints."

1. That the demilitarization of Germany was not being carried out in the western zones.

2. That American and British occupation authorities are "frustrating" the liquidation of armaments plants in their zones and maintaining German units and officer corps in order to build their "strongpoints."

3. That former leaders of German industry and monopolies are being set up in new corporations and monopolies, "leading to a process of rearmament in the German monopolies, which represents a threat to future peace and the stability of the German people."

4. That the British and American occupation authorities also are obstructing the liquidation of reparations made at Yalta and Potsdam.

5. That the British and American authorities are shipping "treacherous hidden reparations" out of their zones under the guise of exports.

6. That American and British authorities are promoting in their zones and in Berlin "an intensive propaganda for a new war" under the name of "A campaign against Communism."

7. That the agreements over the "democratization" and denazification of Germany are not being carried out in the American, British and French zones.

8. That the Soviet-sponsored Socialist Unity Party is not permitting the western zones but "reactionary organizations of every kind" are tolerated by the British and American authorities.

9. That although land reform has been carried out in the Soviet zone, it has not been carried out in the western zones.

10. That the German people have undertaken separate measures under the liquidation of German industry.

1. That the demilitarization of Germany was not being carried out in the western zones.

2. That American and British occupation authorities are "frustrating" the liquidation of armaments plants in their zones and maintaining German units and officer corps in order to build their "strongpoints."

3. That former leaders of German industry and monopolies are being set up in new corporations and monopolies, "leading to a process of rearmament in the German monopolies, which represents a threat to future peace and the stability of the German people."

4. That the British and American occupation authorities also are obstructing the liquidation of reparations made at Yalta and Potsdam.

5. That the British and American authorities are shipping "treacherous hidden reparations" out of their zones under the guise of exports.

6. That American and British authorities are promoting in their zones and in Berlin "an intensive propaganda for a new war" under the name of "A campaign against Communism."

7. That the agreements over the "democratization" and denazification of Germany are not being carried out in the American, British and French zones.

8. That the Soviet-sponsored Socialist Unity Party is not permitting the western zones but "reactionary organizations of every kind" are tolerated by the British and American authorities.

9. That although land reform has been carried out in the Soviet zone, it has not been carried out in the western zones.

Residents Name Eisenhower, Truman, Dewey, Stassen, and Warren As Choice For 1948

(Editor's note: This is the fourth in a series of interviews with citizens on important issues of the day. The feature appears each Saturday in The Daily Times.) Today's question is: "Who is your choice for the next President of the United States?"

R. A. Diforio, 360 Palmer Avenue, Mamaroneck: "My choice for the next president is Governor Earl Warren of California. I think he is a man who is not only qualified but has done an outstanding job. He could have had the vice-presidency four years ago and his chances are more forward looking. I definitely would want a Republican president."

Peter C. Doern, 242 Melbourne Avenue, Mamaroneck: "I look now like Harry S. Truman."

Mrs. William Elicker, 510 Jefferson Avenue, Mamaroneck: "I think my choice would be President Truman. Why? The best reason I can think of is because I am a Democrat, but I have agreed with his policies and agreed with him when he said we should keep price controls. I think he is trying hard to take a place that was given to him on short notice and is doing a good job."

Armand Giannuzzi, 105 Hillside Avenue, Mamaroneck: "The man I would like to see as president is one who is well versed on international problems. We need more than an internal administrator. Congress has much to do with foreign affairs and as we have a Republican Congress it will cooperate more readily with a Republican president. For these reasons my choice for the next president is Harold E. Stassen of Maine."

Mrs. Benedict A. Hoffa, 328 Florence Street, Mamaroneck: "There are two men I like and I'm not really sure which party they're in. Stassen and Warren. Who do I like? I don't know. I like to see them both. I just read about Stassen in Life magazine. I think he has some good ideas on taxes. Warren has done wonders in California, from what I've read."

THIS PHOTO OF THE ALERT II, 57-foot fishing and party boat, was taken by Staff Photographer John R. Pomeroy last night within minutes after a helicopter explosion blew her cabin top sky-high and caused the fire, caught so graphically in the camera's lens. Pomeroy was attracted to some of the

blast in Echo Bay from his home, 100 Pelham Street, where his concussion rattled window panes. Firemen are barely visible through the smoke as they prepare for the first rush of water through their hoses. A small stream of water arcs toward flames soaring from the Alert's pilot house, where

Capt. Frank Baumann was hurried and almost tripped. The blast and fire occurred after 150 gallons of gasoline were loaded aboard the 41-year-old vessel. Another man, a crew member, also was burned; two others escaped injury.

Senate Urged To Speed European Aid To Defeat 'Communist Aggression'

Sen. Vandenberg Calls For Haste To Halt Tyranny

WASHINGTON (AP)—Senator Vandenberg asked the Senate today for speedy approval of \$597-million in European aid for Europe to defeat the "linking tyranny" of "Communist aggression."

Vandenberg, who heads the Foreign Relations Committee, left his pleading officers' chair to open debate on legislation to authorize winter relief for France, Italy and Austria.

He told the Senate he regrets that President Truman coupled a request for anti-inflation measures with the request for emergency aid and regrets that Mr. Truman did not also ask for aid for China.

The aid proposal, he said, must not be taken as "a declaration of economic war between Western and Eastern Europe, unless Moscow persists in its apparent pathetically mistaken policy to make it such."

It is his own everlasting "determination."

It is his own everlasting "determination" to see the restoration of East-West trade and friendship in a live and let live world.

The Michigan Senator told his colleagues that the international "collaboration" which has been the "fallout" of the war has "fallen apart."

"A new type of Communism is on the march," he said in a prepared address. "In the United Nations, which is still the world's best hope for peace, the Communists are making their own agreements."

"It operates not only through ruthless pressures on other territories but through the use of international subversion and sabotage in other lands where its agents are working to overthrow the governments which encourage Communist Communism."

Legion To Investigate Decision To Cut Down Services To Ex-G.I.'s

CALLS FOR BONUS AID

The appointment of a committee to investigate the curtailment of the Mamaroneck Veterans Service Agency was authorized last night at the meeting of Mamaroneck Post 90, American Legion.

Doubt was expressed by the more than 100 members of the post who attended the meeting at Legion Headquarters, Prospect Avenue, that the new policy of the agency, which is to operate two evenings a week will be sufficient to meet the needs of veterans' service problems.

Philip D. Wesson, chairman of the agency's advisory committee, announced on Monday that services will be curtailed beginning Dec. 1, with business hours from 7 to 9 P. M. on Mondays and Fridays, and that the agency will close down March 1, 1948.

It was pointed out at the Legion meeting that the agency, which will become payable after the first of the year, will necessitate a tremendous amount of paper work on the part of the individual veterans and that the service office of the proper agency to perform this work.

It was also pointed out that the agency will be held Sunday, Dec. 14, reported that final arrangements have been made and Legionnaires will conduct this year's Christmas collection. Standard clothing, bags, mittens, burip bags, rugs, carpets, canvas shoes, and other necessities as the many paper drives. The material collected will be taken to Legion headquarters and transferred from the collecting truck to a huge iron truck which will take the bags directly to the mill. The freight was carried by the committee on the rag pick-up which will be held Sunday, Dec. 14.

Collection will be made throughout the entire village. Anyone living in this area who has any of this material to dispose of, please phone Legion headquarters, Mamaroneck 9-2110, on the morning of the 14th and special arrangements will be made to remove your things.

Commander Livanan emphasized that the paper drives will not be discontinued. The next one will be held early in January.

A report was received from the committee working on a plan to raise a number of patients from the Veterans Hospital No. 81, at Kingsbridge, New York, for the maintenance of the Federal of Jewish Welfare Institutions. More than 350,000 men, women and children are served by these institutions last night.

Mr. Karp, in speaking for the funds, declared "because expenses in maintaining Federal of Jewish Welfare Institutions have risen to a record high, Federation must attempt to diminish existing community needs. In a situation as crucial as this, every effort must be made to support the work of the Federation. The health and well-being of our city depends on that support."

Meadow and Morway Pickett, joint chairmen of the Larchmont-Mamaroneck Greenhaven Division, expressed confidence that "our division will do its utmost at this critical time to assure the success of the Federation campaign."

Included in the dinner committee were David Anchin, Lawrence Acher, James Barr, David Berg, D. Herbert Bekind, Michael J. Cantor, David N. Dattibaum, Ralph Deutch, Leo Fish, Robert Garloch, Alfred G. Guttmann, Louis H. Hill and Joseph B. Hoff.

All the Federation agencies stand ready at all times to assist the people of Larchmont, Mamaroneck and Greenhaven.

Larchmont Bank Introduces Novel Stamp Plan For 1948 Christmas Savings Accounts

A new plan for Christmas savings accounts will be introduced Dec. 1 at the Larchmont Branch of the County Trust Company, according to a announcement today by Lloyd R. Harris, assistant vice president.

"Modeled after the government War Saving Stamp program, this new plan," said Mr. Harris, "will bring added convenience to our Christmas account customers by eliminating red tape and delays."

The plan itself is extremely simple. Each person opening a Christmas account receives a check stamping space for 50 stamps in one of four denominations—5c, 10c, 25c and 50c, depending on the amount the customer wishes to put aside weekly. Each week thereafter, the customer purchases a stamp in the proper denomination and attaches it to his check. On and after Dec. 1, 1948, the checks may be cashed and the amount for the amount as shown by the dollar value of the stamps attached.

Dinner Opens Local Jewish Welfare Drive

With the costs of operating local health and welfare institutions at an all-time peak, private philanthropy must raise the funds to maintain these agencies or welfare services vital to residents of the entire city will be curtailed.

Milton J. Karp, chairman of the Federation drive at the Fenway Golf Club, White Plains, this year, the Federation is campaigning for funds for the maintenance of its network of 116 Jewish Welfare Institutions. More than 350,000 men, women and children are served by these institutions last night.

Mr. Karp, in speaking for the funds, declared "because expenses in maintaining Federal of Jewish Welfare Institutions have risen to a record high, Federation must attempt to diminish existing community needs. In a situation as crucial as this, every effort must be made to support the work of the Federation. The health and well-being of our city depends on that support."

Victim Claims Trio Robbed, Assaulted Him

Interviewed at his bedside at New Rochelle Hospital, Bernard J. "Buddy" Quail, 28, of 372 Myrtle Boulevard, Larchmont, declared that he was assaulted and robbed in an automobile and then dumped into the street on Harbor Lane, before being found by a patrolman at four o'clock yesterday morning. He was questioned by Detective Patrick P. Quare.

Quail complained to the officer who found him leaning against the front door of 39 Harbor Lane, New Rochelle, that his back hurt him. This far, police said, Quail has been found unharmed and has refused to undergo an X-ray examination. He was removed to the hospital by a patrolman and a sergeant.

1,200 Youngsters Welcome Santa To Larchmont As He Arrives At Railroad Station

More than 1,200 youngsters had the time of their lives this morning when good old Saint Nicholas Santa Claus, hopped off an eastbound train at the Larchmont railroad station with a bagful of toys, jumped on top of a reader, waved to the kiddies, broke out in a broad smile, and shook with laughter as only Santa can shake.

That was the signal for a joyous parade to start.

With hundreds of parents straining for a look at the red-suited emissary from the North Pole along the top-of-streets in the business district, and the excited throng of boys and girls trailing behind him, Santa moved up the hill from the station to Palmer Avenue, then to Vandervburgh Avenue, then to Chaworth Avenue, and back to Palmer.

The procession then headed straight for the Larchmont Playhouse, where the area had been blocked off. A motorcycle escort followed, with the words flashed on the screen.

The children fled out of the theater, Santa reached into his bag and came up with a toy for each boy and girl.

He promised to visit Larchmont again in about 27 days, but this time sight unseen.

The festivities were sponsored by the Larchmont Fair Trade Association, whose president, Gilbert Merrill, this morning thanked Larchmont and Town officials for their cooperation in making the party a success.

Court Upholds Liability Limit In Lee Death

WHITE PLAINS—Following precedents set in similar cases, Supreme Court Justice J. Gordon Flannery ruled that provisions of an international agreement made at Warsaw in 1929 limit the liability of Pan-American Airways, Inc., in the death of Mrs. Mary Elizabeth Lee and William C. Lee, children, for \$1,000,000 for Mr. Lee's death.

The Warsaw convention limits the recovery for death or injury of any passenger in an international flight to the equivalent of 125,000 French francs, held to be \$8,291.

In each of the cases brought as a result of the tragedy, the courts have upheld the validity of the agreement over strong protests on behalf of plaintiffs that the limitation is grossly unfair.
