West Point Guests

Guests of the United States Military Academy at West Point last Saturday to see the Army, P. I. football game were more than 140 scouts and scouters of the Larchmont District.

A cavalcade of 30 automobiles driven by scout parents left Larchmont station at 8:30 A. M. arriving at West Point in time to be escorted by cadets through the grounds and various buildings.

At 11:30 the Larchmont scouts joined other scout units, numbering almost 10,000, and were escorted to the north athletic field where they ate lunch and inspected tanks, tank carriers and tank destroyers. They also heard an address by Col. Proctor, scout coordinator for West Point, who detailed the scout participation between units and the role of the boys to the cadet parade and stadium.

The radio, 5,000 strong, thrilled the boys with a differing exhibition of marching. They were reviewed by four generals, two from the U. S. Army and two from the British Army.

41 P. C. Of Vote Cast By Noon Hour Here; Dewey Victory Seen

Odds Favor Governor As 50 Million Vote Through Nation

By JACK BELL Associated Press Staff

For the 41st time in history, Americans are electing a President today.

The choice lies between Republican Gov. Thomas E. Dewey of New York and Democratic President Harry S. Truman of Missouri.

By all the political signs the odds favor Dewey.

But Truman remained firm in the belief that when upward of 50 million votes have been counted in more than 150,000 polling places, he will have won his first year — year term in the White House.

Democrats and Republicans disputed up to the end of the complexion of the Senate.

It now has 51 Republicans and 45 Democrats. Republicans said they will hold control. Democrats replied they will take over.

Barry Goldwater, the House will stay Republican.

Radio Window For Both

They will hold their campaign drives in much the same language they used at the start last September. Both were on national radio hook-ups last night.

But Truman broke away from the tradition that Election Day speeches are confined to appeals to get out and vote. He said at Independence, Mo., that to continue his administration "is our duty, and I am determined to continue to the dark days of 1932." And he added:

"I believe, in particular, that the industrial workers, the farm- (Turn to Page 3, Please)

Balloting In Rye Neck Runs Ahead Of Town Districts

A heavy election turnout was indicated by reports by which more than 41 per cent of the registered voters in the Town of Mamaronck and the Rye Neck Districts had gone to the polls.

The four Rye Neck Districts were running slightly ahead of the 16 election districts in the Town of Mamaronck. By noon, 1,457 of the 3,089 ballots or approximately 46 per cent of the voters registered had cast their ballots there.

In the Town of Mamaronck, 5,671 voters had gone to the polls by 12 o'clock, which is slightly better than 40 per cent of the 13,682 eligible to vote.

Compared with the last presidential election day in 1944, this year's voting up to 12 o'clock was better by two per cent. In 1944, 4,784 of 12,000 registered voters or 38 per cent had voted by noon.

At 12 o'clock, 1,517 or 50 per cent of total registration had cast their ballots by noon.

With the election hours extended to 9 P. M. this year, political leaders here expressed confidence that the total vote will be much in view of the fact that more than 41 per cent had voted during the first five hours the polls were open.

The number of votes cast by those registered in each district with the number registered in parentheses follows: District 1, 174 (684); District 2, 279 (660); District 3, 478 (1,004); District 4, 536 (1,180); District 5, 536 (976); District 6, 229 (387); District 7, 258 (601); District 8, 339 (813); District 9, 518 (1,083); District 10, 283 (702); District 11, 250 (642); District 12, 237 (1,036); District 13, 108 (452); District 14, 408 (1,112); District 15, 307 (1,132); District 16, 367 (913).

Dewey Carries Town By 6,143 In Record Vote

Gamble Leads Ticket With Trail Of Only 4,344

In one of the most amazing presidential elections the United States has ever witnessed, the Town of Mamaroneck steadfastly showed its traditional support to the Republican Party, rolling up a substantial majority for the Republican candidates.

It is believed to be a record turnout for the Town, just about 90 per cent of the registered voters went to the polls yesterday to give Gov. Thomas E. Dewey a total vote of 6,760, a plurality of 6,143 over President Harry S. Truman who polled a combined vote of 6,617 on the Democratic and Liberal Party tickets.

One outstanding aspect of the election here showed Mr. Gamble in a Gamble of Larchmont, who will lead four seats ago, receding to the Republican ticket in the Town.

Yesterday's balloting placed Mr. Gamble in last place on the Republican ticket with the smallest plurality.

He defeated his opponent, Charles J. Neger of Larchmont, by a vote of 2,019 to 824 to 3,302 a plurality of 4,344 which is 1151 below the plurality he polled up over his Democratic opponent four years ago.

Mr. Neger made his strongest showing in the first and second districts of the Town, losing out by only 55 and 617 votes, respectively. He failed to carry his own district, the ninth, where Mr. Gamble polled 2,749 to 1,288.

RUSSIA REJECTS WEST'S PLAN FOR ATOMIC CONTROL

Vishinsky Tells Assembly U. S. Does Not Want International Curb

PARIS (AP)—The United Nations Assembly approved today, over bitter Russian protest, the Western plan for world atomic control. The vote was 49 to 6, with four abstentions. The Russian bloc nations alone voted against the Western plan.

PARIS, (AP)—Russia rejected completely today a Western plan for the control of atomic energy. Soviet Delegate Andrei V. Vishinsky told the United Nations General Assembly the United States does not want international atomic control.

Vishinsky brought President Truman into the color line again. He quoted the American President as saying recently in Milwaukee that the United States must continue to develop atomic weapons until the "correct" form of international control is in effect.

Declaring with his arms as he spoke, Vishinsky told the assembly that this apparently meant the American would continue developing atomic bombs until the Western control plan is adopted.

Such an attitude, he said, was a "circle of contradiction." Vishinsky demanded that the delegates approve the Soviet plan for atomic control. He shouted that there is no basis for negotiation now between the Western and Russian plans.

Vishinsky spoke for nearly 90 minutes. As he left, the rostrum he received a burst of applause from delegates and the Soviet bloc.

Mr. Vishnyakowski and Ambassador to Moscow, told the delegates after Vishinsky spoke that India could not agree to international control of atomic weapons while oil and similar minerals were under similar hands.

Pandit proposed an amendment.

Way of Capitalism Carries From Dark to Light

Republican Chiefs See Westchester Still Democrat-Proof

WASHINGTON (AP)—What ever the fate of a Taft-Hartley Act repeal drive in Congress, there appears little prospect of a flat return to the New Deal Wagner labor law.

Union leaders claiming and receiving credit for a major share in President Truman's spot election victory may not be completely happy over the final result.

For one thing, there is the real question of whether the new Democratic Congress will be in a mood to wipe out the Taft-Hartley Act.

For another, it seems likely that the Taft-Hartley Act will be repealed, but the Democratic platform's pledge for outright repeal will not mean some legal weapons for dealing with special labor-management fights, such as those that affect the public utility industry.

This, while the President is certain to ask for repeal, he may accompany that request or follow it with another less sweeping measure.

One of the speakers will be Dr. George N. Schuster, president of Hunter College, who represents the point of view of a man who has devoted a large part of his life, as an educator and publicist, to German-American relations.

Two outstanding authorities on Germany will present their views to the Larchmont Forum For Public Opinion Friday, Nov. 12, at 8:30 P. M. in the auditorium of the Chatsworth Avenue School.

Dr. Schuster will discuss "What Next in Germany?"

Losers Closing Ranks For 2-Year Fight In Congress

INDEPENDENCE, Mo. (AP)—President Truman, departing for Washington today, promised an early attempt to see enactment of Democratic platform pledges.

The President and his family left by train today at 9 A. M. They were accompanied by Mrs. Truman's mother, Mrs. D. W. Walker.

The President's chaperonage of an expedition of the New Deal formed the back-drop for his dramatic coast-to-coast campaign which soured him a Congress of his own party.

To cheering, fellow townsmen in Independence, he said he would do his best to carry out his party's commitments as he had pledged himself to do in speeches through the nation.

He did not speak specifically with any more as he went briefly and simply to a through the streets of the town outside the Jackson Court Courthouse, but he said he "will do the best I can to carry out the Democratic platform."

"I have a Congress now, and I feel very sure I am going to make some progress in the next 90 days."

WASHINGTON (AP)—Republican leaders there shattered ranks today for a two-year fight in Congress against the certain effort by President Truman to moderate the New Deal.

Egyptians Elude Traps at Majdal

Escape Israeli Barrage After Heavy Artillery Ringing to Join Main Gaza Base

TEL AVIV, Israel, (AP) — Egyptian troops escaped during the night from the coastal pocket at Majdal where they had been trapped during last month's Israeli advance in the Negev. An official Jewish spokesman said today.

The spokesman said the Egyptians withdrew to the main Egyptian base in Palestine at Gaza under cover of heavy artillery fire against Jewish positions along the Mediterranean coast.

The Egyptians pulled out along the beach, getting "their feet wet," the spokesman said. He said they were not fired upon by Israeli forces although the water-front is under the missiles of Jewish guns.

He announced also that Jewish troops followed up the Egyptian withdrawal by moving into the whole Majdal area this morning. The city is in the coastal area of Southern Palestine, which was given to the Arabs under the partition plan.

The Israeli advance put Jewish forces in an arc around Majdal in four miles of Gaza itself.

The spokesman said that early this morning the Israeli gas was raised over the Jewish settlements between Gaza and Majdal. The settlement was named after the commander of the Wehrmacht ghetto uprising and was the first Jewish settlement occupied by the Egyptians when they entered Palestine.

The withdrawal involved no less than 3,000 troops. Perhaps as many other Egyptian troops still are trapped around Faluja, 13 miles inland from Majdal.

PARIS, (AP) — The United States has disarmed, but Americans have stopped disarming and intend to be strong, for the benefit of both themselves and their friends.

U. S. Delegate John Foster Dulles spoke in the United Nations Political Committee in debate on charges that Russia's Eastern European allies are violating the Greek border.

Dulles termed "vicious falsehoods" Russia's charges that the United States plans aggression. He added that the United States "intends to be strong because our strength is not for ourselves alone."

The Republican Party's top foreign policy expert lashed at Russian Deputy Foreign Minister Y. Malinitsky, saying the Russian speech insultingly of the U. N. Special Commission on the Balkans.

Thousands Cheer Truman as He Calls on People For Cooperation

WASHINGTON, (AP) — President Truman, speaking from the front porch of the White House asked today for cooperation of all the people in dealing with the nation's problem.

"For himself, he pledged to do the job to the best of my ability," Mr. Truman spoke to thousands of people in Washington and cheered him wildly on a triumphant ride up Pennsylvania Avenue from Union Station.

The happy President waved and beamed.

Wondered at Worthless

But in his White House speech he said solemnly that the "intensity of the job must make a man wonder whether he is worthy of the greater responsibility."

He told his wife — whether he could not say how much he appreciated the warm and cordial welcome he received from the people of Washington.

"It is overwhelming!" He had been in Mexico, Brazil, Canada, and all the state capitals, Mr. Truman added, but he had never seen a better turn out than that which welcomed him home from his campaign.

"Thank you from the bottom of my heart."

Hall Milton on Curbs

Clay T. Trause, Assistant Superintendent of Police, said that the "personnel" and probably "more" turned out along the line of march.

He said that the White House grounds through 50,000 people stood within the President's view, and that he had seen the Pennsylvania from the White House was solidly packed with humanity.

The President told the crowd to look forward to the cooperation of the "greater" Vice President's man ever had."

Then he introduced Vice President.

Larchmont Critically Hurt As He Loses Leg In Accident

NEW ROCHELLE — The driver of a laundry delivery truck which crashed on Pine Brook Boulevard near Overhill Road last night last his leg and arm was critically injured through an amputation after he was pinned between the running board of his vehicle and a tree on the south side of the road.

"In very critical condition this morning in New Rochelle hospital" is Thomas F. Flanagan, twenty-four, 112 Post Road, Larchmont, driver of the vehicle. The leg, which was amputated shortly after 10 P. M. at the hospital, Flanagan said, was fractured of the upper left leg and a fracture of the left elbow. Hospital authorities said he is too injured to talk and in very bad condition.

Two patrolmen of the Police Accident Prevention Squad, who raced in a patrol car a mile to the scene of the accident and were the first to administer first aid may be credited with saving the young man's life. Patrolmen John Meehan and John Maloney, who have been training for a police first aid course for the last four weeks, applied a tourniquet immediately. The hospital doctor administered blood plasma.

According to police at 9:30 P. M. Flanagan had control in his vehicle, a 1948 panel truck while driving south on Pine Brook Boulevard and crashed into a large boulder on the right side of the road. The truck bounced from the boulder against a tree where it came to rest with the left side demolished.

Police said skid marks show Flanagan's vehicle went from one side of the road to the other and skidded 81 feet on the roadway. The boulder was 45 feet from the road and the tree another 15 feet away. Following the impact with the boulder, apparently the weight of Flanagan's body fell outside the door and he fell out as the truck skidded against the tree.

The truck was owned by the Lavender Laundry of 126 Larchmont Avenue, Larchmont. Emanuel Singer, owner of the laundry, told police Flanagan was operating the truck without authority for 19 years. Flanagan was in the truck and was to be placed in a garage in Larchmont. Flanagan had been driving for the laundry only a few months, he said. The truck was towed from the scene of the accident.

The first person to arrive at the scene was a passing motorist, Leonard Whelan, 110 Milford Park way, who was approaching from the opposite direction. He told police he did not see the car in motion or hear any crash. He called police, and an ambulance was summoned.

RYE BOARD WINS COUNCIL PRAISE

Weld 'Miraculous'

Unusual tribute from Westchester's Board of Supervisors went yesterday to Supervisor Arthur G. Sammarco and other members of the Town Board of Rye, in a resolution commending the "miraculous" accomplishment of the Board in constructing a \$100,000 new Town Hall without any additional tax levy and at precisely the figure at which the construction cost was originally estimated.

Supervisor Al Sulla of the neighboring Town of Harrison applauded the other members of the board of Rye for their feat and offered the resolution praising Mr. Sammarco and other Rye Town Board members.

"These are strange days and strange things happen," said Mr. Sulla. "I submit that when we consider the steadily increasing cost of building, the rapidly increasing cost of labor and the practices followed in construction, it is a miracle that the successful accomplishment of one of our members.

He not only built a new Town Hall without adding a cent of taxes to his taxpayers' bills, but he built it at exactly the original cost as estimated. When bids were made above that figure, they were rejected and pared to fit. And when it was all finished, it didn't cost a penny more than the extra dime. That is what Supervisor Sammarco and his Town Board have done for the Village of Rye Municipal Hall."

The \$100,000, it was explained, was taken from Rye surplus funds, amplified by sale by the town of tax liens and from other sources than taxes. The final bids were at \$117,000 but when rejected and new bids sought were cut to the \$100,000 which the Town had estimated it could spend.

Mr. Sulla said that he had been to the new building to inspect the hall with new furniture. Supervisor Sammarco is collecting such equipment from unused supplies elsewhere at very low cost.

Mr. Sulla said that the resolution had been announced by Board Chairman William F. Horan, he added.

"Now that we have honored the Mayor, I think it would not be amiss to allow the Minority Leader to take a bow for what he has done for the town."

Democratic Floor Leader Alex Cooke Jr. of Yonkers, in answer to Mr. Sulla's remarks, said that the town's case was a voice.

"We don't know yet what that is going to cost," he said. "But we'll soon find out, and we'll be able to pay for it, but apparently unopposed."

Mr. Cooke bowed again.

Violence Flares In Beer Strike Here With Stoning Of Tavern Car

The first signs of violence in the 58-day-old wildcat strike of beer truck drivers erupted yesterday morning when a Mount Vernon tavern owner's car was stoned by alleged strikers on the road near the Schaefer depot in Mamaroneck, police reported.

William Mills of 119 Stevens Avenue, Mount Vernon, proprietor of a Mount Vernon tavern reported to police that he had picked up two barrels of beer at the Schaefer depot on Mamaroneck Avenue yesterday morning and while his car was en route to Mount Vernon around 9:30 A. M. his car

was stoned by three men as he drove past the Orient Inn. One of the stones crashed through the right front window of his car, but Mills told police he was uninjured.

James Hewson, manager of the Mamaroneck Depot, stated this morning that a ruling last week by the White Plains Branch of the Amalgamated Beverage Control Board permitted strike bound breweries to release any amount of beer from the depots to licensed retailers.

He added that, according to the Board's ruling, the depots should be permitted to load beer for licensed retailers.

"Everyone must be guaranteed freedom of thought," under the Russian proposal, would release "freedom of thought, conscience and religion" as drafted. Soviet Delegate Alexei Trauzin argued that "scientific thought should have the same priority as religious thought in the era in which we live today" and that his proposal would accomplish that end.

In another part of the article Russia proposed making "freedom of religion" a condition for permanent release of the tax money to municipalities. Trauzin argued that "scientific thought should have the same priority as religious thought in the era in which we live today" and that his proposal would accomplish that end.

Approximately \$3,000 is due Mamaroneck because of an income tax formula. The state comptroller has announced that distribution of the tax money to municipalities has been frozen temporarily, but inasmuch as Mamaroneck has the term in its budget as "anticipated" it will be wiped out completely.

Unconfirmed Report Holds Britons Entered Trans-Jordan, Palestine

TEL AVIV, Israel, (AP)—Israel formally asked the United Nations trust headquarters today to investigate reports that "not considerable numbers of British troops" had entered Trans-Jordan and that some of them had entered Palestine.

(The British War Office in London issued a denial, saying "we have no troops in Trans-Jordan and there is no question of any British troops going back into Palestine since the evacuation.")

The government also charged the British with wholesale rearming of both Iraq and Trans-Jordan. Arab forces in Iraq are the headquarters of the mediator, Dr. Ralph Bunche, that large shipments of arms and military equipment for Iraq, including tanks of all classes, have arrived in the port of Basra in a British ship.

The Gaza report had no official confirmation. But it was being spread seriously by the Hebrew press which said that Arab refugees are fleeing northward and that there is a possibility of a city by withdrawing Egyptian troops.

Tojo Guilt Forecast By Tribunal Ruling On Pearl Harbor War

TOKYO, (AP.)—Hiden Tojo, former premier and seven of his Japanese co-defendants took an active part in plans leading to the Pearl Harbor attack, the international Tribunal held today.

This fact, plus the finding of the court that a charge of "conspiracy to wage aggressive war" had been proved against Japanese leaders, led to belief among attorneys that all 25 defendants would be convicted.

The court named nine other defendants as aiding influential positions under Tojo's regime, which it said was committed to war if Japan failed to control China through compromise.

Two Japanese leaders, the court reported on Oct. 18 by telephone, declared that war was unnecessary before attacking Hawaii.

At this time negotiations for a peaceful settlement continued in Washington but, said the tribunal, the Japanese government has been prepared to surrender the body of the past and to abandon the body in prospect.

Tojo and seven of his principal associates attended all the sessions of policy making conferences including those in the Emperor's presence which evolved the war strategy based on the Hawaiian incident to occur later.

The court also found that Japan's Consul General in Hawaii at the time of the Pearl Harbor attack was "engaged in espionage."

The judgment convicted Japan of waging aggressive war against the United States, British Commonwealth Nations, France, Netherlands, China and Russia.

BOARD OPPOSES DISTRICT SHIFT

Rules Against Residents' Request to Send Sons To Scarsdale School

The Mamaroneck Board of Education last night denied a request for a change in the zoning laws on its property to the Scarsdale School District to enable him to send his children to the Scarsdale Ridge School in Scarsdale.

The board held it could not change its policy and boundary lines to accommodate the request.

The request was made by Robert Stoppard of Old White Plains Road, who explained that when he bought the property in April, 1941, it was in the Scarsdale School District. He stated that the change in the district boundary line which was consummated in 1942, had put the property in the Mamaroneck School District.

Stoppard also pointed out that his two sons, aged 8 and 9, would be attending the Scarsdale Ridge School in Scarsdale, New York, while if they were allowed to go to the Scarsdale Ridge school bus would pick them up at Old White Plains Road and Grifone.

3RD AVENUE LISTS \$3,530,726 LOSS

Report on County Operations for Nine Months Filed by Transit Firm

Losses of \$3,530,726 were sustained by the Third Avenue Transit Corporation and its subsidiaries, including bus and trolley operating companies and Westchester, in the nine months ended Sept. 30, according to a report by the firm yesterday. In the like period of 1947 losses were \$1,709,194. The 1948 loss figure includes a reserve of \$1,035,000 for retroactive pay claimed by employees. In its announcement of the report, the corporation contended that the one-cent fare increase authorized by the Public Service Commission effective Sept. 22 was not sufficient to offset losses caused by payment of the 24-cent-an-hour wage increase starting Sept. 15. Losses for the quarter ended last Sept. 30 were \$1,241,206 compared with \$431,088 loss in the comparable 1947 quarter. Marauding 310-Pound Bear Shot By Mamaroneck Hunter

A 310-pound black bear which robbed Barney Ehrst of Mamaroneck of his six-point buck during a hunting trip in the Maine north woods last week, was thought twice before committing the act. Why? Because Barney now has a nice black fur bear skin rug on his living room floor. How Barney caught the bear which stole his buck is as thrilling a story as you'll find in the hunting magazines.

On Oct. 31, Barney with John Bernhart and Pete Jurgen, both deer, a lemming at the camp took White Plains set on to a 10-day hunting trip. They stayed at the Bull Dog Camp, a hunting lodge, and the next day, a lemming at the camp took a look at the buck which was hanging from a tree. A little later his wife, who is the cook at the camp, went out to look at the catch it was gone.

The four men meanwhile were eating breakfast. The teamster's wife, who had been out to look at the deer and he said apparently one of the guides had taken down to store with the others that had been shot previously.

SHIPPING LEUP WIDENED IN EAST BY LONGSHOREMEN

Strike Extends From Maine To Virginia—Export Freight Embargoed

NEW YORK, (AP)—An East Coast longshoremen's strike swelled to full-scale proportions today, immobilizing a large part of the nation's ocean-borne commerce. Some 65,000 dock workers at ports along 700 miles coastline from Portland, Maine, to Hampton Roads, Va., were ordered off their jobs as of midnight last night. The official strike call was sent out by Joseph P. Ryan, president of the AFL International Longshoremen's Association, after he said members had voted "overwhelmingly" to reject proposed wage terms.

With port operations numbed by the strike, the American Association of Railroads clamped an embargo on the shipment of nearly all export freight destined for Boston and the hub port of New York.

The embargo was expected to be expanded to include other ports as the strike widened. Spontaneously in several major ports four days ago, spread to include the major East Coast ports. The embargo was expected to paralyze the multi-million-dollar Atlantic shipping industry, and stem the regular flow of Marshall Plan aid to Europe.

VILLAGES HERE TO GET REFUNDS ON STATE TAX

\$5,113 Goes to Mamaroneck And \$4,705 to Larchmont

A switch of \$62,332 in State mortgage tax refunds from Westchester County to Westchester Villages has been ordered by the State Tax Commission. The transfer is to adjust improper distribution of such tax refunds in the villages.

A further surplus will be made beyond that year, at which the present surplus had been prior to 1929 the mortgage tax refunds were mixed with taxes on personal property.

700 Drink Recipes Feature New Book By David Embury

By RUTH R. TAUB

DAVID A. EMBURY, distinguished member of the New York bar and Counselman of the Town of Mamaroneck, has long been known to his Larchmont neighbors as an amateur magician and amateur chef of no little prowess.

With the publication yesterday of "The Fine Art of Mixing Drinks" under the Doubleday imprint, he will become well known to a wider circle, for his lively and informative first book provides practical instruction and guidance for both novice and expert.

Although it contains more than 700 recipes for an amazing variety of drinks, the newly planned, practical, Embury volume is no mere "how to" book. It combines an urbane wit and a tremendous depth of knowledge with a highly readable style and a large dosage of common sense, and the result is probably the most comprehensive book in its field on the subject.

Mr. Embury has words of wisdom on the social effects of various drinks.

NEW YORK, (AP)—First joint negotiations in the crippling East Coast dock strike open today against a backdrop of twenty-eight punctured hopes for an early settlement.

Weather A Big Factor

The weather was another factor in a big one in view of the decisive part it played in the government's operations. The state days and tonight night favored government all strikes against Communist troops deployed to shut out over the exposed plains.

For that reason, Communist troops were heavy. Major Gen. Shang Liu-shih, government military spokesman, estimated 150,000 Red casualties to 40,000 for the Suichow defenders.

NEW REDS THREATENS FLANK OF NATIONALISTS

New Building In Suchow Area Building Up As Chinese Claim Initiative

NANKING, (AP) — Independent press reports today indicated Communists are threatening the east flank of Suchow.

Government reports, however, insisted National troops still held the initiative in the resurgence of fighting mostly centered around Nienchung, 30 miles east of Suchow.

Government armored cars, reports said, were spotted near Suchow in a battle in the outskirts of Nienchung. Many Reds were reported killed.

Chinese military observers said today that apparently government forces did not follow up on an advantage gained last week when the main Red force was routed.

Southern Suchow fighting was reported to have been quiet. But in the north, government troops reported that cleared the area. Shuhou, 180 miles northwest of Nanking, guards the approach to the National capital.

Northern in Peiping, Gen. Fu Tso-yi, Nationalist commander, declared martial law in the five provinces this morning. Parades and other demonstrations were banned. Light fighting between Red and government troops took place outside of Peiping.

A band of some 200 Communists raided a government passenger train bound from Kaitai to Peiping on Saturday. Five passengers were killed by the wild firing Reds who detonated a mine under the train.

A government force arrived on the scene and killed 60 of the attacking Reds before they withdrew. Five captives and several machine guns and taking hostages. Some 300 passengers were reported to have been killed.

TRUCK STRIKERS COPPLE FREIGHT

NEW YORK, (AP) — Some 3,000 AFL teamsters struck today, crippling movement of freight to the New York Central and Pennsylvania Railroad yards.

The Pennsylvania immediately imposed an embargo on New York-bound freight of less than carload lots.

The walkout, directed against 35 trucking companies here, also snarled or cut off other delivery channels which distribute general merchandise and some foods to the city's retail outlets.

The strike, called by Local 927 of the AFL teamsters after a pay dispute, further threatened metropolitan area industry, which was already hampered by the 13-day-old shipping tie.

Speakers for the two carriers handling the movement of freight from the two railroad yards said their truck fleets were strike-bound.

The dispute is based on a 17-2-cent pay increase and an employer-financed welfare plan—the pattern for settlement of the widespread truck strike last September.

The local, which originally had agreed to settle for 15 cents, now demands a straight increase of 25 cents to 60 cents an hour, plus a 10-cent rate raise from \$53.90 to \$71.40 for a 40-hour week.

Union leaders general manager of the Pennsylvania Railroad, New York, said the strike had affected about 50 percent of the roads' collection and delivery service between New York and the rest of the country.

The general session and the one of the management groups of the union, which was held at the headquarters of the Women's Council for the Peace and Freedom, 1210 Keeler Avenue, Mamaroneck, was attended by the following: Mrs. Edith M. Leibel, well-known Mamaroneck realtor with office at 121 Mamaroneck Avenue; Mrs. William E. Givens, president of the Women's Council for the Peace and Freedom; Mrs. James E. Wilson, president of the National Association of Real Estate Boards at the annual conference held last week in New York City.

Mrs. Leibel attended the week-long conference, staying at the Billmore Hotel where the sessions were held. On Monday afternoon she attended a meeting of the National Council of the Women's Council for the Peace and Freedom, which was held at the headquarters of the Women's Council for the Peace and Freedom, 1210 Keeler Avenue, Mamaroneck.

DRIVE LAUNCHED BY LEGION POST

Mamaroneck Vets Start Membership Campaign In Village

The membership campaign of Mamaroneck Post 90, American Legion, was officially launched at a meeting of team captains and workers Saturday morning at the Post Clubhouse on Prospect Avenue.

Highlights of the meeting included short addresses by Mayor B. J. Santoro and Village Manager William H. Johnson. Mayor Santoro urged all Legionnaires and members of the Auxiliary to make every effort to contact every veteran in the village who is eligible for Legion membership. He referred to the fact that this week of the drive is to be conducted on a "free-for-all" basis and suggested that the workers take this opportunity to enroll all their friends.

"In the second and final weeks of the campaign," the Mayor said, "you should intensify your efforts and through personal solicitation endeavor to obtain the memberships of those veterans who have not been enrolled the previous week."

Mayor Santoro referred to the post has undertaken, including "pushes" in the ads of Daily Times-Advertiser, the adboard posters on the Post Road at Keeler Avenue, posters in store windows and the Mamaroneck Church in the theater lobby, through the generosity of the Mamaroneck factories and the general mailing of literature to all eligible veterans of the village.

"However," he added, "do not rely on these factors alone. Do not make the mistake of talking it over and over. People will come forward of their own accord and seek Legion membership. There is absolutely no substitute for personal, door-to-door contact."

The mayor concluded by announcing that the drive will be held each year in one of the three churches in an expression of praise and gratitude for a year of blessings.

Shortly before 11 o'clock last night Mrs. Simon Stern called headquarters to report that she had a large rat in the kitchen of her home 1012 The Parkway, Mamaronock, which she said her husband had been unable to root.

Mayor S. St. Augustine, president of the Board of Education, Present were Charles W. Pease, board president, and Trustees Walter P. Brady, Mrs. Roworth H. James, Luther Nelson and Hugh B. Kirkman. C. Frank Johnson was unable to attend.

Parents Call For Return Of Favorite Cop

A petition signed by 49 residents of the Daniel Varney School district was presented last night to the Mamaronock Village Board asking that Patrolman John Penderast be returned to duty at the school crossings.

He was cited by the residents for his long term of duty at the Post Road and The Parkway and at Harrison Avenue in front of the school. The children like him, the petition stated, and would like to have him back at his familiar post.

Chief Arthur W. Martensen explained that Officer Penderast is now patrolling Mamaronock Avenue on the department's new three-wheeler to check overtime parking. In reply to a question from Mayor B. H. Natchez, he said the school posts are now being patrolled by Officers Otto Verschoor, also a veteran at the school crossings and Howard Hanley and that there have been no complaints.

Trustee John Withers said he doubted if patrolman could be assigned for coverage to suit the wishes of all village residents. Mayor Stanton advised Chief Martensen to confer with some of the signers of the petition to learn if the service at the crossings is satisfactory at the present time.

Village Manager Proposes Solutions to Postoffice Traffic Problem

Two solutions to the traffic problem near the Mamaronock Postoffice were advanced last night to the Village Board by Village Manager William H. Johnson.

The board will act on the proposal to widen the street when the Paik Commission reports its views and when the cost of the work can be estimated.

Two bids on In Rem foreclosed properties were referred to the manager. One from Joseph Meyer for a lot at Wagner and Harrison Avenues, and the other from Joseph Rignano on the lot at Plaza Avenue and Center Street #325.

NURSE TO DRAFT INFLATION CURBS

EAC Chairman Is Named By Truman to Prepare New Program

WASHINGTON, (AP)—President Truman today named the chairman of his economic advisory council, Dr. Edwin G. Nourse, to direct planning of the anti-inflation program Mr. Truman will present to Congress in January.

Nourse told reporters of his selection after a conference with Mr. Truman.

The appointment came as signs appeared that inflation may have reached its peak or passed it. However, official signs had shown up early in 1947 and 1948 only to be bopped by another surge in the boom.

Nourse said he will coordinate the work with the help of the Secretaries of the Treasury and Commerce, Labor, Agriculture and Interior, and Thomas McCabe, chairman of the Federal Reserve Board.

Nourse added that at times other agencies would be called in. He cited as examples the Budget Bureau and the Housing Expediter.

Nourse said the work of this coordinating group would be carried on between now and when the President's state of the union message, his economic report and the budget message are submitted to Congress early in January.

In addition to these messages, Nourse said, special messages covering spending cuts and inflation legislation will be submitted to the lawmakers.

2-Park Use Ban Legal, Board Fights Ruling

Supervisors Blast Park Commission, Herman In Setback

The Westchester Park Commission informed the Board of Supervisors late yesterday that the commission cannot restrict park access for two park units to Westchester residents on weekends and holidays next season, as the board had requested a week previously.

Evans Ward, head of the Park Commission, said he had been informed by County Attorney Harry Herman that such restrictions against out-of-county residents would be illegal.

The board had on Monday, Nov. 13, voted almost unanimously that the Park Commission enforce such restrictions next year in Tibbetts Brook park and pool in Yorkers and Stony Woods park previously.

The American delegate, in a further discussion of the U. S. position on Palestine, offered three amendments to a British proposal which would use the Bernadotte report as a basis for final peace in the Holy Land. Count Fvke Bernadotte, the slain mediator, had proposed boundary revisions which Israel rejected.

These U. S. amendments would broaden the Security Council order for armistice talks, set up a conciliation commission which would take over the duties of the Palestine mediator, and give a conciliation commission power to delimit frontiers in agreement with both sides.

Support for the original United Nations partition plan as a basis for discussion appeared to be growing in both the Eastern and Western delegations. Australia joined the United States and Canada in reaffirming support of the Nov. 29, 1947, division of the Holy Land between Arabs and Jews.

Jessup told the Political Committee the United States believes Israel should have the territory given her by partition, but should make concessions if she wants to keep other territory. Israel now has military control of the disputed southern Negev Desert, which the Bernadotte plan would put in exchange under that plan the Negev was assigned to Israel and Western Galilee to the Arabs under the original U. N. partition.

CLEAN UP PALMER AVE. DUMP, RESIDENTS DEMAND OF BOARD

The Palmer Avenue dump was back before the Mamaronock Village Board again last night. Accusing the trustees of breaking their own zoning laws and violating their own sanitary code, a delegation from the neighborhood of Palmer and Rockland Avenues stormed the board meeting to demand that something be done to relieve conditions there.

Philip H. Holden of 344 Harrison Drive, spokesman for the group, accused the board of paying too much attention to an obligation to the taxpayers of the group, but not to the comfort and property values of Mamaronock residents. He was referring to Adams, Fowler and Hoffman, when he was referring to the board's agreement several years ago to fill in the Palmer Avenue property.

In reply to a direct question as to what the village intends to do to relieve conditions at the dump, Village Manager William H. Johnson said that a bid to clean up the dump was made at the last meeting.

Mr. Holden recalled that two years ago the board promised to have the dump cleaned up. He said that the board had promised to have the dump cleaned up. He said that the board had promised to have the dump cleaned up.

PSC FARE CONTROL IS CHALLENGED

Mount Vernon Official Claims 'No Jurisdiction' On Raise Plea

NEW YORK (AP)—A city official of Mount Vernon claims that the State Public Service Commission has no jurisdiction over a petition to raise fares on the Yonkers Railroad Company trolley lines.

Irving Libenson, Assistant Corporation Counsel of Mount Vernon, speaking at a PSC hearing yesterday, protested any fare increase pending to the line's short-run into Mount Vernon.

He claimed the PSC does not have jurisdiction over the matter. Under original franchise obtained by the Yonkers company, only the city can fix the rate of fare, he said.

Having Examiner Harold M. O'Connell gave Libenson a week to prepare a brief on his argument.

The Yonkers company and its parent line, the Third Avenue Transit Corporation, have asked for an immediate interim fare increase of seven cents a ride, a permanent one cent fare on trolley service in Westchester and across the city line.

Operating the lines at a loss, the board yesterday adjourned the PSC hearing subject to call.

U. S. ASKS ORDER TO WIDEN TO GET NEW-ARAB PEACE

WASHINGTON, (AP)—The United States called upon the United Nations today to widen a Security Council order to the Arabs and Jews to settle their dispute in Palestine.

The expansion of armistice discussions is imperative," Dr. Philip C. Jessup, the American delegate, told the 54-nation Political Committee.

The American delegate, in a further discussion of the U. County Attorney Harry Herman and County Board Commissioner Fred Evans Paid \$100,000 in County Taxes

Ban on Outsiders Held Both Impracticable and Illegal

County Attorney Harry Herman and County Board Commissioner Fred Evans paid \$100,000 in county taxes last year.

The payment was a large majority of the Board of Supervisors, the two refused to judge in their Monday deliberations that patronage of Westchester parks cannot be restricted to county residents.

County Attorney Herman said that "it cannot be done because it is definitely illegal in that it violates civil rights in law of the state."

A Park Commission President Ward declared that "Exclusion of out-of-county residents would be impracticable. And as the County Attorney has advised us officially that it would be illegal, we will abide by his decision."

County Executive Herbert C. Gerlach, who conferred this morning with the County Attorney in a review of the whole case, contented himself merely with the expression:

"The whole affair was unfortunate, but let the affair be."

The stand taken by the officials is expected to bring added criticism from the Supervisors when they meet next Monday afternoon. Without exception, the supervisors last Monday had expressed their disapproval of the board's recommendation of Nov. 15 that Tibbets Brook park be closed to non-county residents.

Woods sold next year in Scarsdale restricted course to county residents. It was his opinion that there were even chances that County Attorney Herman would be "high-pressed" by the supervisors into rendering the restriction illegal, because the commission fears possible loss of tax revenue.

As in this instance, Mr. Herman rendered the opinion in question last April. That should be a warning to the commission. The opinion speaks for itself.

The County Attorney declined, however, to release the April opinion, rendered to the Park Commission, for publication as it would reflect unfavorably on the Park Commission. The opinion speaks for itself.

Dr. Cooper, one of the founders of Northern Westchester Hospital in Mount Kisco, who has been on the staff since the hospital was opened in 1916, recalls that there were only dirt roads in Bedford when he arrived in 1916. He took up his residence in the house now owned by Town Highways Superintendent John Knicker, but the only telephone line in town was a private line.

Within a few days after he arrived he received a call from his first patient, the late Mrs. Charles Hartford, and drove to her home in a buggy. From then on he worked at the "horse and buggy doctor" until 1910, when he purchased an open Maxwell and began making his calls by automobile.

The doctor remembers making numerous calls in winter over snowbound roads in a horse-drawn sleigh with nothing but blankets to cover me and the sled beating against my face. Each winter he would keep track how many times his sled up into snowdrifts, and he remembers that the record was 11 times in one season.

Ching arrived as committee for the striking AF of L International Longshoremen's Association and the strike-bound New York Shipping Association stood by for a joint meeting.

Employers say they are "unanimously resolved" not to make any further offers to the 65,000 striking dock workers. And the union is standing pat on 11 demands, including one for a pay increase.

The employers' position was announced at a lengthy written statement issued by John V. Lyon, chairman of the New York State Industrial Relations Commission. Although it has nothing new to offer, the employers' negotiating committee said it would remain "subsidized" to call by the U. S. Industrial Relations Commission, which is attempting to settle the strike.

TAX LAW OVERHAUL ASKED BY CHIEF

U. S. Chamber of Commerce Head Urges Changes to Air Enterprise System

A BANY, (AP)—Earl O. Shreve, president of the United States Chamber of Commerce, called today for an "overhaul" of the country's tax laws.

In a speech prepared for an Albany Chamber of Commerce meeting, Shreve said that the present tax structure "discourages" risk-taking through equity financing.

"The future of the world—especially the Western hemisphere—depends upon the progress of the American enterprise system," Shreve said.

"To make America strong for the task, for the good of the American people, for the safety of the West, the country needs a thorough study and overhaul of its tax laws."

He recommended the following tax changes:

1. A limit on what he called a double tax on dividends.

2. A limit on income taxes to a maximum of 50 per cent of income.

3. A revision of the capital gain tax, which operates as a capital levy during an inflationary period.

Learned a Lesson
 Maybe he just wanted to see what would happen or perhaps he wanted to see his engine, but whatever the reason, the year-old David Mitchell of 703 Walton Avenue, Mamaroneck, probably received a lasting impression Wednesday afternoon of what results when you pull a false alarm.

The silliness of the afternoon was shattered at 2:49 P. M. when the fire whistle sounded a general alarm. Fire alarm box 821 at Fairway and Rushmore Avenues had been pulled. All fire companies responded to the call under the direction of Assistant Chief John Lombard, but no fire was to be found.

Detective Sam Bryant, who responded to the alarm, reported that three youngsters draped in comic book outfits were seen in the area but were not arrested when the fire trucks arrived. Investigation revealed that young Mitchell had been boosted up to the fire box by his mother, Mrs. White, six of Seney Avenue, and Richard Dubois, seven years old, of Walton Avenue, to pull the alarm. Police notified their parents.

Express Agency 'Slowdown' Over, Dockmen May Resume, Rail Ban End Seen

NEW YORK (AP) — A "slowdown" by railway express Agency employees ended today, paving the way for an expected quick resumption of normal operations by the company.

The city's shipping and freight traffic still was crippled, however, by rail employees' truck strike and the dock tieup. But prospects were good for a resumption of volume by the dock workers Monday.

Railway Express and union officials were expected to try to settle the dispute which touched off the strike on Tuesday. The union was expected to be cleared shortly for ending the ban on rail and air express shipments into and out of the metropolitan area.

However, the company said earlier that a huge backlog of freight piled up here during the week-end slowdown by some 6,000 employees. It may be moved before the express embargo is lifted.

The employees were ordered to resume regular work today by an A.P.I. ultimatum pending negotiations on a dispute over 13 discharged workers. This dispute touched off the slowdown Tuesday.

Meanwhile, an estimated one-third of the city's trucking industry remained immobilized by a strike of drivers and helpers, making a 22 1/2-cent hourly pay raise. Talks with employers, who offered 17 1/2 cents, appeared stalled.

The \$3,000 striking dockworkers' Quiet on Waterfront.

The waterfront was still quiet with nearly 150 men on strike here, although an agreement yesterday between negotiators on terms for a settlement indicated a likely end to that stoppage.

The 6,000 striking dockworkers at East Coast ports today on the terms tomorrow.

These men are expected to increase in the present arbitrary daytime pay rate of \$1.75 today to \$2.00, and overtime pay to \$1.25, and \$1.75 today.

In the Railway Express dispute, Daniel Sullivan, Metropolitan president of the A.P.I. Brotherhood of Railway and Steamship Workers, gave the order for a strike.

Shortly after last midnight, an express company official said, all employees were expected to return on normal schedule.

The 6,000 striking dockworkers meet today to discuss the issue in the slowdown.

SANTA CLAUS STORY TO BE SERIALIZED

The Daily Times will begin publishing a new Christmas story, "Santa's Lost Bells," next Tuesday.

It will consist of 19 daily installments, each illustrated and suitable for coloring in a scrapbook. A cover drawing for the front of the scrapbook will appear in an advertisement in Monday's paper.

"Santa's Lost Bells" is an original story by Mrs. Janice C. Woodin, Yonkers public school teacher. It grew out of an idea by Miss Margaret Driscoll, another Yonkers teacher, in a discussion before the Elementary School Council, of which both are members.

Mrs. Woodin, former reporter for the old Yonkers Statesman, on which her father and grandfather also worked, developed the story during her Summer vacation.

"Santa's Lost Bells" is her first attempt at writing a children's story. She has been a kindergarten and first-grade teacher for 20 years.

Gratitude of Pilgrims Sets Example For Us, Fenton Says

Modern Americans could very well take a leaf out of the Pilgrims' book, the Rev. Arnold A. Fenton, rector of St. Thomas's Church, Mamaroneck, declared in a sermon at yesterday's Union Thanksgiving service at St. Thomas's.

Citing the obstacles faced by the Pilgrims, he said that they did not "grumble over the hardships imposed upon them, but they were not individuals, they were a people, they were a community, they were a nation. They were not seeking personal glory nor retreat to their respective dens and dens, but they were seeking to do something out of the forest."

There would have been the great commonwealth of Massachusetts and the qualities that made it the first of its kind in the world. It was the spirit of gratitude is the cement that

Comics Present No Problem In Town Area, Yerick Says

The comic book problem has been held to a minimum in the Town of Mamaroneck, even though the town Police Chief Paul A. Yerick said that some comic books contribute to a rise in juvenile delinquency.

Police Chief Paul A. Yerick told the Larchmont Lions Club at a luncheon meeting Wednesday at the Pal-Max Restaurant.

This is due to the fact that the home and environmental conditions as well as the financial circumstances of the people of the Town of Mamaroneck do not allow for the use of cheap comic books, the chief said.

Chief Yerick reviewed the comic book problem, it is being exposed and discussed in Westchester County by the Westchester County Police Chiefs' Association in cooperation with the Westchester County Sheriff's Office.

At a meeting of the Police Chiefs' Association held earlier this month, he said, it was recommended that a board of review consisting of seven county residents be appointed to investigate and study all obscene and objectionable comic books and make a report of their findings and recommendations on how to combat the distribution of such books.

After the report has been completed, it will be circulated throughout the county in newspapers, from the pulpits of churches, and in the school systems in order to inform the people of what they can do to help in the program.

Chief Yerick said that until such a report can be made available, it is up to the parents to screen all books before they get to the child. He added that the chiefs have appealed to the dealers not to carry any of these obscene books, although they have no way of preventing them from doing so at the present time.

He said it was interesting to note that the comic book business sells from 500 million to 700 million books a year and is a quarter of a billion dollar industry.

He said he believes that if enough publicity could be brought to bear, the comic book industry itself would eliminate the publication of objectionable books, Chief Yerick said.

He approved very definitely of some of the educational type comic books and would encourage

Children Set For Visit By Santa Tonight

Arrangements to welcome Santa Claus to Mamaroneck tonight have been completed, according to Carl Strauch, chairman of the Chamber of Commerce.

White all of the Christmas street displays will not be in place, due to a mix-up in shipping arrangements at the Chicago plant of the manufacturer, these that are planned, Mr. Strauch stated.

It is too bad that the arrangements made so carefully and so far ahead cannot be fully carried out, Mr. Strauch said this morning, but it is not because we have not made every effort to see that the displays would be on hand. As I pointed out Wednesday, the order was placed sufficiently far in advance and promises were made for early delivery. The displays were wrong and we have to take what we can get for the minute. The rest of the displays should be in Mamaroneck today and they will be put up as rapidly as possible.

Santa Claus will arrive at 7 P. M. at the Larchmont.

Tarrytown Man Kills Girl, 14, and Mother Then Slays Himself

TARRYTOWN — A man murdered a girl and her mother, fired a shot at a sixteen-year-old youth and then killed himself on the eve of Thanksgiving in Tarrytown.

Elizabeth Brideau, fourteen, was shot twice and killed instantaneously by James Costa, alias Castle, forty, in the living room of her mother's apartment at 185 Wilder Street, Mrs. Harriet Brideau, forty-five, who filed the house when she saw her daughter shot down, was herself killed instantly by Castle in the kitchen of neighbors next door. The man then fired one shot at the neighbors' son, ran outside and shot himself twice. He died five minutes later.

Both Castle and Mrs. Brideau were beside Castle's body. A 32 caliber automatic pistol of Spanish make containing eight cartridges was used by Castle in the double murder and suicide. One of the bullets was found imbedded in the kitchen floor at the neighbors. One bullet was left in the pistol when it was found.

The boy doctor in the Police Outfit Action.

As Police Chief Harry B. Cramer and Acting Medical Examiner Edwin H. Huntington reconstructed the crime, Mrs. Brideau was mind the infant child of Mr. and Mrs. William Sabo in the second floor apartment over her own when she heard her daughter scream. Mrs. Brideau rushed downstairs and found Castle molesting the girl. She restrained with him and he pulled out the pistol, fired two shots at the girl who swooned to the floor dead. The mother fled the house with Castle following. She entered the kitchen of Mrs. and Mrs. Anthony Drabos at 185 Wilder Street 100 feet away.

According to the Drabos family — the mother, father and their two sons, Castle followed Mrs. Brideau into their kitchen where they were preparing food for Thanksgiving Day. He fired two shots at her and she fell to the floor dead. The man then left the kitchen with the Drabos boy, Anthony Jr., following. The murderer turned and aimed the gun at the boy. The boy dove to the floor as Castle squeezed the trigger. The bullet missed him, imbedded itself in the kitchen floor, also missing an infant lying in a basket near the stove.

Castle continued in his flight. Chief Cramer said he apparently followed the Drabos home next door. There beside a car parked in the back yard he fired two shots at his own body. He died about 9 P. M. five minutes after police arrived.

Head Restored

Castle had been in trouble with police in Tarrytown and North Tarrytown over a period of years, was known as a small-time gambler and during the prohibition era had had to be "a big shot" bootlegger.

The neutrals had before them the Russian and Western replies to a questionnaire worked out by legal and financial experts on Berlin's currency problem. Brucmanu and the other neutrals received a number of reports from whom they addressed supplementary questions.

Diplomats here meanwhile awaited hourly developments which would indicate the success or failure of the latest attempt at mediating the differences between the Russians and the Western powers.

Jessup Offers Amendments To Ease Proposal Over Neeb Desert

PARIS (AP) — The United States opposed in the United Nations today a British proposal that might take Southern Palestine's Neeb Desert from Israel.

Jessup submitted to the political committee a number of amendments to Britain's latest proposal to divide the Arab-Jewish Palestine dispute.

The amendments would soften Britain's reference to the return of the late Count Folke Bernadotte as a basis for Palestine settlement and give more weight to the U. N. partition plan of Nov. 29, 1947.

Jessup said the British proposal, "without our amendments, is more restrictive than necessary."

Under the Bernadotte plan, Neeb and they would receive Western Galilee in its stead. The original U. N. partition plan gave Neeb to the Jews and Western Galilee to the Arabs.

At the Political Committee debated Palestine's political situation, the Security Council's committee on Palestine scheduled a meeting for 3:30 P. M. today. A U. N. source said the council committee would discuss with Ralph J. Bunche, acting Palestine mediator, progress made to date in carrying out the council's Nov. 4 resolution.

Bidding yesterday before Supreme Court Justice Frank H. Corpe in White Plains reached a top of \$758,500 on sale of the Chatsworth Gardens apartment in Larchmont, which has been in court custody for 13 years as a result of a real estate office of Lawyers Westchester Mortgage and Title Company.

The \$758,500 in mortgage certificates outstanding against the property.

At the hearing was called to consider an offer of \$700,000 submitted by a broker's commission of \$20,000 and the final bid was not without brokerage, the resulting net represents an increase of \$80,000 and almost equivalent to the \$740,000 in mortgage certificates outstanding against the property.

Certificate holders who were present in court and who, together with others who had previously signified dissatisfaction with the proposed sale, expressed approval of the final result by a five-to-one vote after Justice Corpe had closed the proceeding. The apartment, a six-story brick and stone elevator building containing 87 suites, is assessed at \$408,000 and brings a total of approximately \$129,000 a year, with the net estimated at \$50,000. There are also made room, a gymnasium, laundries and other features.

Police reported that the accident involved about two hours after low tide and that if the boys had been stuck in the mud until the tide came up the creek from the sound they might possibly have been drowned. The boys had been in the mud for two to three minutes before they were rescued.

3. An 8 percent drop in prices of farm products since January's postwar peak. 4. A 10 percent drop in prices of industrial products since the last week of the final agreement.

A delegation spokesman was asked about the belief expressed yesterday by Senator Connally that the Federal Reserve Board said last night that last month's output boosted its index three and a half percent above the 1935-39 average.
